Nayar, 2015-06-22 This new Dictionary features a thoughtfully collated collection of over 150 jargon free definitions of key terms and concepts in postcolonial theory Features a brief introduction to postcolonial theory and a list of suggested further reading that includes the texts in which many of these terms originated Each entry includes the origins of the term where traceable a detailed explanation of its perceived meaning and examples of the term's use in literary cultural texts Incorporates terms and concepts from multiple disciplines including anthropology literary studies science economics globalization studies politics and philosophy Provides an ideal companion text to the forthcoming *Postcolonial Studies An Anthology* which is also edited by Pramod K Nayar a highly respected authority in the field **The Role of Dictionary Use in the Comprehension of Idiom Variants** Renata Szczepaniak, 2012-03-12 The book takes up the subject of dictionary use from the perspective of advanced learners The study aims to explore the effects of the use of a monolingual learner's dictionary on students' performance in a complex comprehension task i.e. the task of interpreting fragments with modified idioms which often disrupt the fluent reading process The theoretical part summarises the results of lexicographic research in the field of receptive dictionary use and discusses its methodological aspects Moreover it introduces relevant elements of the reading theory and analyses the nature of idiomatic expressions their transformations in particular from a psycholinguistic point of view Finally problems connected with the presentation of idioms in monolingual learner's dictionaries are highlighted The major empirical part reports on an experiment whose aim was to find connections between the consultation process the way of presenting lexicographic information on idioms and comprehension scores The results reveal a mildly positive influence of the monolingual learner's dictionary on reading comprehension performance Among the reasons for underachievement were misinterpretation of entries and insufficient processing of dictionary information in context **A New English Dictionary on Historical Principles**, 1893 **A New English Dictionary on Historical Principles** James Augustus Henry Murray, 1893 **Colonial Tropes and Postcolonial Tricks** Lesley Wylie, 2009-01-01 This volume offers a new reading of the Spanish American novela de la selva genre often interpreted as a belated imitation of European travel literature Arguing against the commonly held opinion of the genre's derivative nature *Colonial Tropes and Postcolonial Tricks* examines how novela de la selva fiction reimagined the tropics from a Latin American perspective and redefined tropical landscape aesthetics and ethnography through parodic rewritings of European perspectives Analyzing four emblematic novels of the genre this book considers the crucial place of the jungle as a locus for the contestation of national and literary identity by post-independence Latin American writers **The Colonial Harem** Malek Alloula, 1987 *The Century Dictionary and Cyclopaedia: The Century dictionary ... prepared under the superintendence of William Dwight Whitney ... rev. & enl. under the superintendence of Benjamin E. Smith*, 1911 **Time, History and the Religious**

Imaginary in South Asia Anne Murphy, 2012-03-12 Religious imaginary is a way of conceiving and structuring the world within the conceptual and imaginative traditions of the religious Using religious imaginary as a reference this book analyses temporal ideologies and expressions of historicity in South Asia in the early modern pre colonial and early colonial period Chapters explore the multiple understandings of time and the past that informed the historical imagination in various kinds of literary representations including historiographical and literary texts hagiography and religious canonical literature The book addresses the contributing forces and comparative implications of the formation of religious and communitarian sensibilities as expressed through the imagination of the past and suggests how these relate to each other within and across traditions in South Asia By bringing diverse materials together this book presents new commonalities and distinctions that inform a larger understanding of how religion and other cultural formations impinge on the concept of temporality and the representation of it as history

Reinventing Community Jane Hiddlestone, 2017-12-02 During recent years critics have increasingly expressed their loss of faith in existing cultural and political collective frameworks drawing attention instead to irreducible singularity and to radical incommensurability between diverse positions or groups Hiddlestone analyses and challenges this trend bringing together political theoretical and literary analysis and juxtaposing the works of critical theorists such as Derrida Lyotard and Nancy with literature by writers of North African immigrant origin She presents a critique of those writers who underline the absence of communal identification proposes a new emphasis on relational networks interconnecting diverse cultural groups and argues for a more subtle understanding of the complex interplay of the singular and the collective in contemporary French writing

German Colonialism and National Identity Michael Perraudin, Juergen Zimmerer, 2010-09-14 German colonialism is a thriving field of study From North America to Japan within Germany Austria and Switzerland scholars are increasingly applying post colonial questions and methods to the study of Germany and its culture However no introduction on this emerging field of study has combined political and cultural approaches the study of literature and art and the examination of both metropolitan and local discourses and memories This book will fill that gap and

offer a broad prelude of interest to any scholar and student of German history and culture as well as of colonialism in general. It will be an indispensable tool for both undergraduate and postgraduate teaching.

Relating Worlds of Racism Philomena Essed, Karen Farquharson, Kathryn Pillay, Elisa Joy White, 2018-08-20. This international edited collection examines how racism trajectories and manifestations in different locations relate and influence each other. The book un.masks and foregrounds the ways in which notions of European Whiteness have found form in a variety of global contexts that continue to sustain racism as an operational norm resulting in exclusion, violence, human rights violations, isolation, and limited full citizenship for individuals who are not racialised as White. The chapters in this book specifically implicate European Whiteness whether attempting to reflect, negate, or obtain it in social structures that facilitate and normalise racism. The authors interrogate the dehumanisation of Blackness, arguing that dehumanisation enables the continuation of racism in White dominated societies. As such, the book explores instances of dehumanisation across different contexts, highlighting that although the forms may be locally specific, the outcomes are continually negative for those racialised as Black. The volume is refreshingly extensive in its analyses of racism beyond Europe and the United States, including contributions from Africa, South America, and Australia, and illuminates previously unexplored manifestations of racism across the globe.

Hybridity Anjali Prabhu, 2012-02-01. This critical engagement with some of the most prominent contemporary theorists of postcolonial studies reevaluates recent theories of hybridity and agency. Challenging the claim that hybridity provides a site of resistance to hegemonic and homogenizing forces in an increasingly globalized world, Anjali Prabhu pursues the ways in which hybridity plays out in the Creole postcolonial societies of Mauritius and La Reunion, two small islands in the Indian Ocean, and offers an introduction to the literature and culture of this lesser known region of Francophonie. She also reconsiders two major theorists from the Francophone context, Edouard Glissant and Frantz Fanon, through a provocatively Marxist framing that reveals these two writers shared more in common about agency and society than has previously been recognized.

Negotiating Sexual Idioms, 2008-01-01. *Negotiating Sexual Idioms: Image, Text, Performance* affords new theoretical approaches and insights into the complexity of sexual discourse pervading contemporary cultures, exploring sexuality's role in dominant conceptualisations of self and society in patterns of political belonging and exclusion and in societal transformations. Opening with a substantial critical introduction, this collection of twelve essays and creative pieces contributes to significant current debates regarding sexual rights and their violation, queer theory and identity politics, sexual fantasy formations and strategies of pleasure and the celebration of sexual diversity. Topics explored through a variety of disciplinary frameworks including gender and film studies, religious philosophy, neo-Victorian and postcolonial literature, sociology, pornography, and performance art. The volume positions the subjects of sex and sexuality as crucial to our ethical understanding of the human, both in individual and communal terms, exploring how claims for sexual subjectivity and citizenship are formulated and the entitlements they entail. The analytical insights offered signal important new directions for critical engagement with the socio-political construction of

sexuality and its strategic deployment within the cultural imaginary Designed to appeal equally to scholars students and general readers *Negotiating Sexual Idioms* will prove essential reading for those interested in multi disciplinary approaches to reading sex and sexuality within inter cultural contexts from the early modern period to the present day *The Routledge Handbook of Translation and Activism* Rebecca Gould,Kayvan Tahmasebian,2020-06-02 The Routledge Handbook of Translation and Activism provides an accessible diverse and ground breaking overview of literary cultural and political translation across a range of activist contexts As the first extended collection to offer perspectives on translation and activism from a global perspective this handbook includes case studies and histories of oppressed and marginalised people from over twenty different languages The contributions will make visible the role of translation in promoting and enabling social change in promoting equality in fighting discrimination in supporting human rights and in challenging autocracy and injustice across the Middle East Africa Latin America East Asia the US and Europe With a substantial introduction thirty one chapters and an extensive bibliography this Handbook is an indispensable resource for all activists translators students and researchers of translation and activism within translation and interpreting studies *Defining New Idioms and Alternative Forms of Expression* ,2022-05-16 This first volume of ASNEL Papers gathers together a broad range of reflections on and presentations of the social and expressive underpinnings of post colonial literary cultures concentrating on aspects of orality social structure and hybridity the role of women in cultural production performative and media representations theatre film advertising and their institutional forms and the linguistic basis of literature including questions of multilingualism pidgins and creoles and translation Some of the present studies adopt a diachronic approach as in essays devoted to European colonial influences on African literatures the populist colonial roots of Australian drama and the intersection of exogenous and autochthonous languages in the cultural development and identity formation of Cameroon Tanzania and the Swahili speaking regions of Africa Broadly synchronic perspectives which nevertheless take cognizance of developmental determinants range over dominant genres poetry short fiction and the novel children s literature theatre film and cover indigene literatures Australian Aboriginal Maori First Nations and regional creativity in West East and South Africa the Caribbean India and the South East Asian diaspora and the settler colonies of Canada Australia and New Zealand Authors treated within broader frameworks include Chinua Achebe Biyi Bandele Thomas Bole Butake Shashi Deshpande Louis Esson Lorna Goodison Patricia Grace Bland Holt Keri Hulme Witi Ihimaera Kazuo Ishiguro Rita Kleinhart Hanif Kureishi Werewere Liking Timothy Mo V S Naipaul Salman Rushdie and Ruby Slipperjack There are self testimonies from the writers Geoff Goodfellow Darrelyn Gunzburg and Don Mattera poems by David Dabydeen Geoff Goodfellow and Olive Senior Of particular value to this collection are the perspectives offered by African Caribbean and Eastern European contributors **Nation, Constitutionalism and Buddhism in Sri Lanka** Roshan de Silva Wijeyeratne,2013-08-15 *Nation Constitutionalism and Buddhism in Sri Lanka* offers a new perspective on contemporary debates about Sinhalese Buddhist nationalism in Sri Lanka

In this book de Silva Wijeyeratne argues forcefully that Sinhalese Buddhism in the period prior to its engagement with the British colonial State signified a relatively unbounded although at times boundary forming set of practices that facilitated both the inclusion and exclusion of non Buddhist concepts and people within a particular cosmological frame Juxtaposing the premodern against the backdrop of colonial modernity de Silva Wijeyeratne tells us that in contrast modern Sinhalese Buddhism nationalism is a much more reified and bounded concept one imagined through a 19th century epistemology whose purpose was not so much inclusion but a much more radical exclusion of non Buddhist ideas and people In this insightful analysis modern Sinhalese Buddhist nationalism then emerges through the conjunction of discourse power and knowledge at a distinct moment in the trajectory of the colonial State An intrinsic feature of this modernist moment is that premodern categories such as the cosmic order were subject to a bureaucratic re valuation that generated profound consequences for State society relations and the wider constitutional legal imaginary This book goes onto explore how key constitutional and nation building moments were framed within the cultural milieu of modern Sinhalese Buddhist nationalism a nationalism that reveals the power of a re valued Buddhist cosmic order to still inform the present Given the intensification of the Sinhalese Buddhist nationalist project following the defeat of the Tamil Tigers in 2009 this book is of interest to scholars of nationalism South Asian studies the anthropology of ritual and comparative legal history

Religion and the Specter of the West Arvind-Pal S. Mandair, 2009-10-22 Arguing that intellectual movements such as deconstruction postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central Through a case study of Sikhism he launches an extended critique of religion as a cultural universal At the same time he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries India s imperial elite subtly recast Sikh tradition as a sui generis religion which robbed its teachings of their political force In turn Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism Rather than investigate these processes in isolation from Europe Mandair shifts the focus closer to the political history of ideas thereby recovering part of Europe s repressed colonial memory Mandair rethinks the intersection of religion and the secular in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena
