The Colour Line P. G. Wodehouse, 2004-06 NOTE THIS IS a DOWNLOADABLE E BOOK There are some men who in the battle of life seem consistently to get the loser s end and this after a time tends to remove the steel from their character Lancelot Purvis was one of these All through his early boyhood he had had much to suffer from the juvenile population of his native town on whose immature minds the name Lancelot had had the worst effects When he was thirteen he caught measles and shot up five or six inches attaining a height which intimidated his peers into leaving him alone But by that time the mischief was done and Lancelot was a hopelessly mild boy **Delphi Collected Works of P. The Problem of the Color Line at the Turn of the Twentieth Century W. E. B. Du Bois, 2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece The Souls of Black Folk The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world s preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler s brilliant original and quite riveting introduction If you are coming to Du Bois for the first time or the 500th time this book is a must read Robin D G Kelley author of Freedom Dreams The Black Radical Imagination **The Problem of the Color[blind]** Brandi Wilkins Catanese, 2012-10-16 Catanese s beautifully written and cogently argued book addresses one of the most

persistent sociopolitical questions in contemporary culture She suggests that it is performance and the difference it makes that complicates the terms by which we can even understand multicultural and colorblind concepts A tremendously illuminating study that promises to break new ground in the fields of theatre and performance studies African American studies feminist theory cultural studies and film and television studies Daphne Brooks Princeton University Adds immeasurably to the ways in which we can understand the contradictory aspects of racial discourse and performance as they have emerged during the last two decades An ambitious smart and fascinating book Jennifer DeVere Brody Duke University Are we a multicultural nation or a colorblind one The Problem of the Color blind examines this vexed question in American culture by focusing on black performance in theater film and television The practice of colorblind casting choosing actors without regard to race assumes a performing body that is somehow race neutral But where exactly is race neutrality located in the eyes of the spectator in the body of the performer in the medium of the performance In analyzing and theorizing such questions Brandi Wilkins Catanese explores a range of engaging and provocative subjects including the infamous debate between playwright August Wilson and drama critic Robert Brustein the film career of Denzel Washington Suzan Lori Parks s play Venus the phenomenon of postblackness as represented in the Studio Museum in Harlem s Freestyle exhibition the performer Ice Cube s transformation from icon of gangsta rap to family movie star and the controversial reality television series Black White Concluding that ideologies of transcendence are ahistorical and therefore unenforceable Catanese advances the concept of racial transgression a process of acknowledging rather than ignoring the racialized histories of performance as her chapters move between readings of dramatic texts films popular culture and debates in critical race theory and the culture wars

The Rhetoric of Racism Revisited Mark Lawrence McPhail, 2002 Looks at the rhetorical dynamics of racism how in addition to social and material structures and institutions language can be a cause and facilitator of racism Thoroughly discusses essentialism and racial difference theories of complicity and coherence and the theory of racism as a problem of psychiatry back cover
