The Esoteric Secrets of Surrealism Patrick Lepetit, 2014-04-24 A profound understanding of the surrealists connections with alchemists and secret societies and the hermetic aspirations revealed in their works Explains how surrealist paintings and poems employed mythology gnostic principles tarot voodoo alchemy and other hermetic sciences to seek out unexplored regions of the mind and recover lost psychic and magical powers Provides many examples of esoteric influence in surrealism such as how Picasso's *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers* Not merely an artistic or literary movement as many believe the surrealists rejected the labels of artist and author bestowed upon them by outsiders accepting instead the titles of magician alchemist or in the case of Leonora Carrington and Remedios Varo witch Their paintings poems and other works were created to seek out unexplored regions of the mind and recover lost psychic and magical powers They used creative expression as the vehicle to attain what Andr Breton called the supreme point the point at which all opposites cease to be perceived as contradictions This supreme point is found at the heart of all esoteric doctrines including the Great Work of alchemy and enables communication with higher states of being Drawing on an extensive range of writings by the surrealists and those in their circle of influence Patrick Lepetit shows how the surrealists employed mythology gnostic principles tarot voodoo and alchemy not simply as reference points but as significant elements of their ongoing investigations into the fundamental nature of consciousness He provides many specific examples of esoteric influence among the surrealists such as how Picasso's famous *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers* how painter Victor Brauner drew from his father's spiritualist vocation as well as the Kabbalah and tarot and how doctor and surrealist author Pierre Mabille was a Freemason focused on finding initiatory paths where it is possible to feel a new system connecting man with the universe Lepetit casts new light on the connection between key figures of the movement and the circle of adepts gathered around Fulcanelli He also explores the relationship between surrealists and Freemasonry Martinists and the Elect Cohen as well as the Grail mythos and the Arthurian brotherhood **ESOTERIC**

ASTROLOGY - VOL. 6 Dr. Douglas M. Baker, 2015-07-30 Introduction to ESOTERIC ASTROLOGY VOL 6 Colloquialisms and Clichés By Dr Douglas M Baker This volume is a unique dictionary of permutations in the form of colloquial sayings and clichés translated into their astrological equivalents A very valuable reference work for those interpreting astrological charts The modes of expressing a language may indicate powerful subjective forces at play deep in the unconscious structure of the Race using that language This is particularly true of English which has become the international language for reasons not entirely connected with political developments The virility of the Anglo Saxon sub race is based largely on esoteric foundations as anyone will soon find if he studies a simple handbook of Theosophy Idiomatic language reflects the character of the people expressing it and releases numinous energies from their unconscious Anyone who understands the significance of the mantram of invocations and words of power will quickly apprehend the energies that lie packaged with proverbs which

themselves are surfacings of racial wisdom Energy and meaning underlie words as much as they do images and thoughts Equally so the incessant use of certain phrases exhausts their associate energies and degrades them to the level of shallow inanities which we call clichs The clich is resorted to by those who are in a hurry to express something or who are mentally lazy or ill equipped in the language itself Their frequent usage shows him up clich and anyone watching television in which an interview is suddenly thrust upon a trade union leader knows what this does for the latter s image I choose my words with care Phrases like at this moment in time and other banalities such as the point is render the interview a farce and its impact becomes negligible Nevertheless the clich does indicate that the Race is trying to express again and again certain elements of its unconscious By allocating appropriate astrological glyphs to the clich being expressed we can soon come to recognise the qualities of those underlying archetypes This is as true for the individual as it is for the Race Collective unconscious Archetypes Deep racial unconscious Myth legend and fable Individual s Soul s purpose Precepts Superficial racial unconscious Proverbs Individual s personal clich unconscious conversationism colloquialism By correlating any of the above with the appropriate astrological aspect for it related meanings and energies lying deeply or superficially in the native s unconscious or openly in his personality are quickly revealed The deeper structures when they are related through their astrological aspect directly to the Rising Sign and its esoteric ruler etc are indicative of the native s Soul s purpose Permutations of any aspect reveal meanings covering the whole range of a person s nature from the level of his Soul right through to the components of his personality from psyche and Self to ego Douglas M Baker England April 1980 *The Esoteric Basis of Christianity Or Theosophy and Christian Doctrine* William Kingsland,1996-09 [Esoteric Teaching in the Stromateis of Clement of Alexandria](#) Andrew C. Itter,2009 The Stromateis of Clement of Alexandria c 150 215 CE has received much scholarly debate over whether it can be accorded the role of the third and highest phase of his pedagogy This was a treatise that promised an account of the true philosophy of Christ set down for Christians seeking higher knowledge of doctrine This book takes a new approach to deciphering the nature and purpose of these enigmatic books concentrating on the close relationship between method and doctrine and the number and sequence of the texts as they have come down to us The outcome is a concise summary of current scholarship on Clement s method and a fresh picture of how he applies it to the transmission of esoteric doctrines *The Tibetan Book of the Great Liberation* W. Y. Evans-Wentz,2000-09-28 The Tibetan Book of the Great Liberation which was unknown to the Western world until its first publication in 1954 speaks to the quintessence of the Supreme Path or Mah ay ana and fully reveals the yogic method of attaining Enlightenment Such attainment can happen as shown here by means of knowing the One Mind the cosmic All Consciousness without recourse to the postures breathings and other techniques associated with the lower yogas The original text for this volume belongs to the Bardo Th dol series of treatises concerning various ways of achieving transcendence a series that figures into the Tantric school of the Mah ay ana Authorship of this particular volume is attributed to the legendary Padma Sambhava who journeyed

from India to Tibet in the 8th century as the story goes at the invitation of a Tibetan king Padma Sambhava's text per se is preceded by an account of the great guru's own life and secret doctrines. It is followed by the testamentary teachings of the Guru Phadampa Sangay which are meant to augment the thought of the other gurus discussed herein. Still more useful supplementary material will be found in the book's introductory remarks by its editor Evans Wentz and by the eminent psychoanalyst C. G. Jung. The former presents a 100 page General Introduction that explains several key names and notions such as Nirvana for starters with the lucidity, ease and sagacity that are this scholar's hallmark; the latter offers a Psychological Commentary that weighs the differences between Eastern and Western modes of thought before equating the collective unconscious with the Enlightened Mind of the Buddhist. As with the other three volumes in the late Evans Wentz's critically acclaimed Tibetan series, all four of which are being published by Oxford in new editions, this book also features a new Foreword by Donald S. Lopez.

Esoteric Astrology Torgny Jansson, 2005-12-05. If you are interested in understanding more about your true self, the purpose of life and your spiritual path, *Esoteric Astrology* is the book for you. You will be guided into a deeper dimension of astrology and the spiritual laws behind all life, for example the law of reincarnation and karma. There is a great difference between esoteric astrology that interprets the horoscope from the viewpoint of the soul and traditional astrology that often is preoccupied with outer events and the desires and reactions of the outer self. An esoteric astrologer looks for the purpose of the soul and the inner causes behind what happens to you in life. What are your talents and limitations so that you can make use of and increase your good sides and eliminate or limit the bad habits. The book is written in a simple language; it is a beginner's guide to astrology. You will need no previous knowledge about astrology to read this book. This book is meant for anyone who is interested in spirituality and astrology. But it is also recommended for you who have studied astrology and wish to add a spiritual dimension to the subject. This book includes many important areas such as human relations, how to cast a horoscope, diseases, the purpose of life and an esoteric interpretation of the signs. The book helps you to understand more about yourself. But to this is added astrology for humanity and nations: how astrological energies are influencing and are determinative for society. From the perspective of a spiritual background, this is indeed an entirely new way of looking at our civilization.

Esoteric Orders and Their Work Dion Fortune, 2000-08-13. From the British occultist and author, a classic study of what esoteric orders are and what they can offer initiates. People have been interested in secret traditions since the beginning of time. Fraternal brotherhoods and sisterhoods and secret orders of varying degrees exist in every country, race and religion. In *Esoteric Orders and Their Work*, author Dion Fortune gets to the root of exactly what esoteric orders are, leaving no stone unturned. The chapter *Esotericism, Occultism and Mysticism* defines what esotericism is in relation to exotericism in layman's terms: the inner life versus the outer one. In *The Origin of the Mysteries*, she looks at how esotericism grew hand in hand with the evolution of humankind, discussing how humans evolved from a group soul still present in animals today, i.e. packs of wolves, into a singular soul. *The Paths of the Western Tradition* is

a discussion on the different schools that have developed known as Rays and how students after having formed a solid base of knowledge work through each ray on their way to becoming closer to an esoteric ideal She expounds upon Masters in The Evolution and Functions of the Masters We discover that they are not so much superhuman entities as beings who have learned all they need to know on the physical plane and now teach from the ethereal Chapters such as The Right and Left Hand Paths and The Use and Power of Ritual explain the differences between Black and White Occultism and how long kept secret rituals taught only to initiates are used to further the order s members along their paths Today in the centers of the civilized world there is renewed interest in esoteric schools and although they may be misunderstood by the mainstream some of the noblest people have been among their advocates This book removes the shroud of mystery and fear from esotericism and makes the Western Mystery Tradition accessible to anyone who has ever been curious about this fascinating spiritual path Revised edition contains a new foreword by Gareth Knight and an index **The Esoteric** Hiram Erastus Butler,1898 *The Esoteric* ,1898 *Esoteric Anatomy - Part 1* Dr. Douglas M. Baker,2014-04-09 Introduction to Esoteric Anatomy Part 1 This is an essential reference book for the seeker of Truth and spiritual progress It takes a detailed look at the physical structures in you that underlie your spiritual nature as well as the effects of spiritual awakening on the physiology H P Blavatsky Alice A Bailey and others attempted in the words of their era to help us understand what we truly are They veiled much of it in mystic terms to protect those who might misuse this knowledge Over one hundred images diagrams and charts in this book many in colour will help you to understand this vast and important subject In this first of the two part work Dr Baker draws on his training as a medical doctor to reveal in masterly fashion the exoteric physical and esoteric less dense higher function and interactions within our nature Many diseases are discussed and their karmic causes explained making this volume a must have for those interesting in healing and for those wanting to KNOW THY SELF
