## **The Common Wealth In Ocean Fisheries:**

*The Role and Future of the Commonwealth* Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2012-11-15 The Commonwealth is working for the UK however if the organisation is to reach its potential and influence events the Commonwealth Secretariat needs to sharpen strengthen and promote its diplomatic performance Recently the Commonwealth has appeared less active and less publicly visible The Government does not appear to have a clear and co ordinated strategy for its relations with the Commonwealth The moral authority of the Commonwealth has too often been undermined by the repressive actions of member governments The Committee is disturbed to note the ineffectiveness of the mechanisms for upholding the Commonwealth s values and expresses support for the Eminent Persons Group s proposal for a Commonwealth Charter The Committee also says that it is not convinced that member states are making the most of the economic and trading opportunities offered by the Commonwealth The report welcomes the fact that the Commonwealth continues to attract interest from potential new members and the report says that there are advantages in greater diversity and an extended global reach for the Commonwealth however the application process should be rigorous There is also concern at the continuing evidence of serious human rights abuses in Sri Lanka and the Committee urges the Prime Minister to state publicly his unwillingness to attend the Commonwealth Heads of Government Meeting in Colombo meeting unless he receives convincing and independently verified evidence of substantial and sustainable improvements in human and political rights in Sri Lanka

*From Hook to Plate* Richard Bourne, N. Mark Collins, 2009 This book draws together the views of 24 contributors from across the Commonwealth on the state of marine capture fisheries They confirm the assessments of both the World Bank and the UN Food and Agriculture Organisation that world fisheries are in very poor biological and economic health They explain why fisheries are unsustainable and wasteful and are unlikely to be able to meet the needs of the future without radical change At greatest risk are the livelihoods of those who depend upon fisheries for their daily food and subsistence Their vulnerability is increased and resilience further reduced by the threat of climate change Marine capture fisheries are not delivering what society needs and the authors collectively assert and establish that the greatest barriers are in the deficiencies of current fisheries governance and management arrangements What is needed is a fresh approach to policy and legal frameworks and the political will to effect real change The authors and editors call on the Commonwealth of Nations with its depth of experience and breadth of co operative ability to take a fresh look at the issue and lead the process of change

**Management of Marine Fisheries in Canada** L. S. Parsons, National Research Council Canada, Canada. Department of Fisheries and Oceans, 1993 This report describes and evaluates the impact of the major changes in the management of Canada s marine fisheries in recent decades The report covers the historical and jurisdictional context biological and economic aspects objectives of fisheries management techniques of resources management in general and those used for specific species managing the common property through allocation of access limited entry licensing and
