The Communi:

The Community Forests of Mexico David Barton Bray, Leticia Merino-Pérez, Deborah Barry, 2005-08-01 This is an important and comprehensive book that is timely original and of uniformly high quality There is relatively little familiarity outside of Mexico with the incredibly rich experience of community forest management there Certainly no comprehensive review such as this book exists that covers so many aspects of the subject The book will appeal to scholars from both social and biophysical sciences interested in forest management and in broader conservation and development issues Marianne Schmink Director of the Center for Latin American Studies Tropical Conservation and Development Program University of Florida Mexico leads the world in community management of forests for the commercial production of timber Yet this success story is not widely known even in Mexico despite the fact that communities around the globe are increasingly involved in managing their own forest resources To assess the achievements and shortcomings of Mexico's community forest management programs and to offer approaches that can be applied in other parts of the world this book collects fourteen articles that explore community forest management from historical policy economic ecological sociological and political perspectives The contributors to this book are established researchers in the field as well as many of the important actors in Mexico's nongovernmental organization sector Some articles are case studies of community forest management programs in the states of Michoacán Oaxaca Durango Quintana Roo and Guerrero Others provide broader historical and contemporary overviews of various aspects of community forest management As a whole this volume clearly establishes that the community forest sector in Mexico is large diverse and has achieved unusual maturity in doing what communities in the rest of the world are only beginning to explore how to balance community income with forest conservation In this process Mexican communities are also managing for sustainable landscapes and livelihoods

The Communication to the Public of Musical Works Online in the European Union's Legislation Lídia Ballesta Martí, 2025-07-01 This book offers an in depth analysis of EU copyright legislation and the evolving jurisprudence of the Court of Justice of the European Union CJEU to assess whether the current legal framework provides adequate protection for the right of communication to the public in musical works It critically examines whether EU law strikes a fair balance between the interests of rightsholders online music service providers and users Technological innovation over the past two decades has dramatically reshaped the music industry and challenged traditional copyright norms The emergence of digital distribution platforms and music streaming services has made it imperative to rethink how the right of communication to the public is protected in the online environment In response the EU introduced a series of reforms aimed at modernizing copyright rules for the Digital Single Market But how effective are these measures And do they truly reflect the diverse interests at stake This comprehensive volume explores both the international and EU legal frameworks governing the right of communication to the public It offers a detailed interpretation of relevant legislation and landmark case law with a particular focus on the controversial liability regime

established by Article 17 of Directive 2019/790. The book also addresses enforcement challenges including cross border issues of jurisdiction and applicable law. Beyond legal analysis the book proposes thoughtful practical solutions to help create a more equitable digital music ecosystem. Written in a clear and accessible style it demystifies complex legal concepts for a broad readership including IP lawyers, music creators, platform operators, policymakers and informed users.

The Community Development Quota Program in Alaska National Research Council, Division on Earth and Life Studies, Polar Research Board, Ocean Studies Board, Commission on Geosciences, Environment and Resources, Committee to Review the Community Development Quota Program, 1999-06-03. This book reviews the performance and effectiveness of the Community Development Quotas (CDQ) programs that were formed as a result of the Sustainable Fisheries Act of 1996. The CDQ program is a method of allocating access to fisheries to eligible communities with the intent of promoting local social and economic conditions through participation in fishing related activities. The book looks at those Alaskan fisheries that have experience with CDQs such as halibut, pollock, sablefish and crab and comments on the extent to which the programs have met their objectives helping communities develop ongoing commercial fishing and processing activities creating employment opportunities and providing capital for investment in fishing processing and support projects such as infrastructure. It also considers how CDQ type programs might apply in the Western Pacific.

Managing Mental Health in the Community Angela Foster, Dr Vega Zagier Roberts, Vega Zagier Roberts, 2003-09-02. Managing Mental Health in the Community is a guide to best practice in the management of community care for people with mental health problems. A major theme is how to balance the triangle of care that represents the needs and concerns of the user, carer, professional or family and community. Rather than focusing on the mechanics of the task, this book aims to encourage reflective practice amongst staff, managers and policy makers. The experienced practitioners who contribute not only challenge some of the assumptions prevalent in the field but also present some tried and tested interventions used to enable users, staff and managers to function more effectively in community settings. They consider how community care has developed the fundamental concepts of community care, how management is affected by practice, how care systems are designed. Managing Mental Health in the Community should be essential reading for Mental Health Practitioners, Managers, Social Workers, Policy Makers, Organizational Consultants and all those professionals who are committed to improving the quality of mental health services provided in the community.

The Temple and the Community in Qumran and the New Testament Bertil Gärtner, 2005-10-06. This is the first of a series of monograph supplements to the journal New Testament Studies. The main purpose of the series is to make possible publication of work

which is too long for inclusion in the journal The monographs will be published in either English French or German the present one is in English Dr G rtner s purpose is to follow in detail the parallels between the New Testament and Qumran writings in their concept of the community Christian or Essene as a spiritual temple The whole complex of relationships between Qumran and the early Church is studied with the purpose of extending our knowledge of the Jewish background of the New Testament Dr G rtner s conclusions lend strong support to the view that it is from this Qumran type of Judaism that the Christian Church arose
