Sinhalese Village In Sri Lanka Coping With Uncertainty:

A Sinhalese Village in Sri Lanka Victoria J. Baker, 1998 The most current and detailed case study of South Asia available this book documents the ways in which the members of a remote agricultural village cope with the dangers that plague them by employing a complex system of ritual practices and beliefs in supernatural forces The book also addresses topics commonly neglected in other case studies such as formal education problems in remote areas the independent and self confident women of the developing world and the trials of developmental work in these areas

Childhood in a Sri Lankan Village Bambi L. Chapin, 2014-06-30 Like toddlers all over the world Sri Lankan children go through a period that in the U S is referred to as the terrible twos Yet once they reach elementary school age they appear uncannily passive compliant and undemanding compared to their Western counterparts Clearly these children have undergone some process of socialization but what Over ten years ago anthropologist Bambi Chapin traveled to a rural Sri Lankan village to begin answering this question getting to know the toddlers in the village then returning to track their development over the course of the following decade *Childhood in a Sri Lankan Village* offers an intimate look at how these children raised on the tenets of Buddhism are trained to set aside selfish desires for the good of their families and the community Chapin reveals how this cultural conditioning is carried out through small everyday practices including eating and sleeping arrangements yet she also explores how the village's attitudes and customs continue to evolve with each new generation Combining penetrating psychological insights with a rigorous observation of larger social structures Chapin enables us to see the world through the eyes of Sri Lankan children searching for a place within their families and communities *Childhood in a Sri Lankan Village* offers a fresh global perspective on child development and the transmission of culture

Devas, Demons and Buddhist Cosmology in Sri Lanka Achala Gunasekara-Rockwell, 2022-08-19 This book examines the worship of devas and demons in Sri Lanka illustrating how diverse influences interacted to create the Sinhala Buddhist cosmology The work explains the processes by which apotheosis plays an important role in revitalizing that cosmology The author offers an examination of holy sites associated with the worship of H niyam These sacred spaces each have a unique background historically and the ritualists associated with these sites have divergent understandings concerning H niyam Building upon the examination of the temples the book delves into the iconography of H niyam illustrating his transformation from demon to deity in the manner that he is depicted in imagery associated with his worship The book moves to a discussion of Arit Kiven u Perum l a South Indian adventurer demonstrating the likelihood that he is the historical figure later apotheosized as H niyam Sri Lankan society felt his impact so strongly that in death he became a demon in the Sinhala Buddhist cosmology Finally the book demonstrates that the same apotheosis processes are at work today This book will be of interest to researchers and students engaged in the study of religion anthropology folklore and history specifically in the South Asian context

Encyclopedia of the Peoples of Asia and Oceania Barbara A. West, 2010-05-19 Presents an alphabetical listing of

information on the peoples of Asia and Oceania including origins prehistory history culture languages and relationships to other cultures *Alternative Development* Cathrine Brun,Piers Blaikie,2016-03-23 This book brings together a collection of essays that discuss alternative development and its relevance for local global processes of marginalization and change in the Global South Alternative development questions who the producers of development knowledges and practices are and aims at decentring development and geographical knowledge from the Anglo American centre and the Global North It involves resistance to dominant political economic processes in order to further the possibilities for non exploitative and just forms of development By discussing how to unravel marginalization and voice change through alternative methods actors and concepts the book provides useful guidance on understanding the relationship between theory and practice The main strength of the book is that it calls for a central role for alternative development in the current development discourse most notably related to justice rights globalization forced migration conflict and climate change The book provides new ways of engaging with alternative development thinking and making development alternatives relevant Literacy Development in A Multilingual Context Aydin Y. Durgunoglu,Ludo Verhoeven,2013-12-16 During the past decades literacy has gradually become a major concern all over the world Though there is a great diversity in both the distribution and degree of literacy in different countries there has been an increasing awareness of the number of illiterates and the consequences of being illiterate However literacy is no longer seen as a universal trait When one focuses on culturally sensitive accounts of reading and writing practices the concept of literacy as a single trait does not seem very feasible A multiplicity of literacy practices can be distinguished which are related to specific cultural contexts and associated with relations of power and ideology As such literacy can be seen as a lifelong context bound set of practices in which an individual s needs vary with time and place This volume explores the use of literacy outside the mainstream in different contexts throughout the world It is divided into four sections Section 1 presents an anthropological perspective analyzing the society and the individual in a society Section 2 presents a psychological perspective focusing on the individuals themselves and analyzing the cognitive and affective development of young children as they acquire literacy in their first and second languages Section 3 presents an educational perspective highlighting the variations in educational approaches in different societies as well as the outcomes of these approaches Section 4 summarizes the studies presented in this volume Both theoretical issues and educational implications related to the development of literacy in two languages are discussed An attempt is also made to open up new directions in the study of literacy development in multilingual contexts by bringing these various disciplinary perspectives together
