Sinister Touch 3:

Chemical Lands David D. Vail, 2018 An exploration of the elaborate relationship between farmers aerial sprayers agriculturalists crop pests chemicals and the environment The controversies in the 1960s and 1970s that swirled around indiscriminate use of agricultural chemicals their long term ecological harm versus food production benefits were sparked and clarified by biologist Rachel Carson's *Silent Spring* 1962 This seminal publication challenged long held assumptions concerning the industrial might of American agriculture while sounding an alarm for the damaging persistence of pesticides especially chlorinated hydrocarbons such as DDT in the larger environment In *Chemical Lands Pesticides Aerial Spraying and Health in North America's Grasslands since 1945* David D Vail shows however that a distinctly regional view of agricultural health evolved His analysis reveals a particularly strong ethic in the North American grasslands where practitioners sought to understand and deploy insecticides and herbicides by designing local scientific experiments engineering more precise aircraft sprayers developing more narrowly specific chemicals and planting targeted test crops Their efforts to link the science of toxicology with environmental health reveal how the practitioners of pesticides evaluated potential hazards in the agricultural landscape while recognizing the production benefits of controlled spraying *Chemical Lands* adds to a growing list of books on toxins in the American landscape This study provides a unique Grasslands perspective of the Ag pilots weed scientists and farmers who struggled to navigate novel technologies for spray planes and in the development of new herbicides insecticides while striving to manage and mitigate threats to human health and the environment

And No Birds Sing Craig Waddell,2000 Craig

Waddell presents essays investigating Rachel Carson's influential 1962 book *Silent Spring*. In his foreword Paul Brooks, Carson's editor at Houghton Mifflin, describes the process that resulted in *Silent Spring*. In an afterword Linda Lear, Carson's recent biographer, recalls the end of Carson's life and outlines the attention that Carson's book and Carson herself received from scholars and biographers' attention that focused so minutely on her life that it detracted from a focus on her work. The foreword by Brooks and the afterword by Lear frame this exploration within the context of Carson's life and work. Contributors are Edward P. J. Corbett, Carol B. Gartner, Cheryll Glotfelty, Randy Harris, M. Jimmie Killingsworth, Linda Lear, Ralph H. Lutts, Christine Oravec, Jacqueline S. Palmer, Markus J. Peterson, Tarla Rai Peterson, and Craig Waddell. Together these essays explore *Silent Spring*'s effectiveness in conveying its disturbing message and the rhetorical strategies that helped create its wide influence.
