Robert L. Maxwell

Sir John Harvey Jones:

Sir John Harvey-Jones John Harvey-Jones, 2002-10-01 Sir John Harvey Jones was one of Britain's best known and most respected business leaders. From being Chairman of ICI he shot to fame as the star of the BBC TV series *Troubleshooter*. Here he talks in depth about his life and career and reveals key advice for today's business leaders. *Making It Happen* John Harvey-Jones, 2002-01-01 How do you galvanize a company so that from top to bottom it is geared for success? The author's experience of leadership is second to none and his achievements at ICI speak for themselves. But how did he salvage ICI from its slump? **Troubleshooter** John Harvey-Jones, 1990 *Troubleshooter Returns* John Harvey-Jones, 1996 Sir John Harvey Jones looks at aspects of British life that have shaped his own career and continue to influence Britain's progress today. He returns to India where he was brought up and also looks at schools and businesses. *Business Environment* John Kew, John Stredwick, 2005 The text offers an accessible approach to the subject area with a strong focus on the business rather than purely an economic context. The style is practical and case study led rather than theoretical and academic. The practical implications of theories will be emphasised and practical examples used. This accessible text gives a good understanding of the business environment, outlining the key environmental influences: economic, social, legal, as an aid to developing an appreciation of business strategy at every level. The practical implications of theory are emphasised and supported by examples. The text includes chapter objectives, student activities, end of chapter questions, a glossary and lists of further reading, and there is also a tutor support website. The text is designed to cater for all students studying an undergraduate or postgraduate module in the business environment area, the new *Managing in a Strategic Business Context* module as part of the new CIPD Leadership and Management. *Naval Eyewitnesses* James Goulty, 2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there. *The Northern Mariner*. Although many books have been written about naval actions during the Second World War, histories and memoirs in particular, few books have attempted to encompass the extraordinary variety of the experience of the war at sea. That is why James Goulty's vivid survey is of such value. Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels, from battleships, aircraft carriers and submarines to merchant ships and fishing boats. Their recollections are as varied as the ships they served in, and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it. Throughout the book, the emphasis is on the experience of individuals, their recruitment and training, their expectations and the reality they encountered on active service in many different offensive and defensive roles, including convoy duty and coastal defence, amphibious operations, hunting U-boats and surface raiders, mine sweeping and manning landing and rescue craft. A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties: seamen who were wounded or killed on board or were lost when their ships sank. A fascinating inside view of the maritime warfare emerges.

which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea **The John Adair Lexicon of Leadership** John Adair,2011-03-03

From the world renowned leadership expert John Adair comes this unique volume of all his classic works including How to Grow Leaders The Inspirational Leader Leadership and Motivation Not Bosses but Leaders Strategic Leadership and the international best seller Leadership of Muhammad With his distinctive insight into how leadership is learned John Adair presents six business books that cross boundaries into culture history strategy and motivation Leadership Lexicon is an essential volume and an exclusive opportunity to own all of Adair s ground breaking works that will help you transform your understanding of how leadership works and learn the skills to transform you into a leader **All Together Now** John

Harvey-Jones,1994 In this study of British industry one in a series of business books former chairman of ICI Sir John Harvey Jones argues that people are the most under exploited resource in industry being the one constant against the rapid changes in hardware and technology Sir John puts forward the claim that staff are underused and underestimated looks at recruitment and selection coaching and daily management of staff and gives his own blueprint for people managing that could put Britain at the forefront of world business **Masculinity and the British Organization Man since 1945**

Michael Roper,1994-01-20 The post war period is often regarded as a time when Britain underwent its managerial revolution the family firm and the gentleman amateur giving way to the large bureaucracy and the trained management expert Yet the conception of modern management as an objective process could hardly be further from the truth Drawing on detailed life history interviews with the post war generation of organization men this study explores the intimacies that operate among men in management It argues that despite the rise of professional management relations between managers continue to function in highly subjective ways The pleasure of technical innovation or of seeing a new product through to the market the mixture of rivalry and patronage that surrounds management succession the hard bargaining of industrial relations at every level managerial functions involve the dramatization of emotions among men By challenging the enduring myth of the rational organization man this book sheds new light on gender segregation in management It argues that the exclusion of women from senior positions cannot be understood simply as the outcome of unprofessional practices A focus on the emotional relations between male managers reveals the psychic dimensions of exclusionary behaviour An emotional economy flourishes among men in management but its workings have been hidden by the myth of the rational organization man
