This book is about the implications of novels for young readers that tell their stories by alternating between different narrative lines focused on different characters It asks if you make sense of fiction by identifying with one main character how do you handle two or more of them Do novels with alternating narratives diverge from longstanding conventions and represent a significant change in literature for young readers If not how do these novels manage to operate within the parameters of those conventions This book considers answers to these questions by means of a series of close readings that explore the structural educational and ideological implications of a variety of American British Canadian and Australian novels for children and for young adults Double Trouble Sheldon Jaffery,1992-01-01 It was the 1950s in postwar America and paperback books were the hot new product in the publishing industry Of course to stand out from the crowd and sell one needed a gimmick Into this newly exuberant market came a publishing house named Ace Books with the seductive promise of two books for the price of one It also had the eye catching premise of two separate covers joined at the spine like Siamese twins Finished with one book Flip the paperback over and begin again with a new novel complete with its own package It was something completely different and it sold Double Trouble tours the short yet popular era of the Ace Mystery Doubles and includes both author title

 Britain and the United States underwent dramatic expansions and reorganization that brought about an increased traffic in
 books and periodicals around the world Focusing on adventure fiction published from 1899 to 1919 Patrick Scott Belk looks
 at authors such as Joseph Conrad H G Wells Conan Doyle and John Buchan to explore how writers of popular fiction engaged
 with foreign markets and readers through periodical publishing Belk argues that popular fiction particularly the adventure
 genre developed in ways that directly correlate with authors experiences and shows that popular genres of the late
 nineteenth and early twentieth centuries emerged as one way of marketing their literary works to expanding audiences of
 readers worldwide Despite an over determined print space altered by the rise of new kinds of consumers and transformations
 of accepted habits of reading publishing and writing the changes in British and American publishing at the turn of the
 twentieth century inspired an exciting new period of literary invention and experimentation in the adventure genre and the
 greater part of that invention and experimentation was happening in the magazines *BTEC First Public Services*
