Women and Leadership Genevieve Brown, Beverly J.

Irby, 2001. While our culture aids and encourages men in their achievement, women are often discouraged. Women as a group have not been as successful as men in the fields which have traditionally been assigned achievement value. Common internal barriers for women include low confidence, perceived lack of advancement opportunities, poor self-image, and weak determination and motivation. Coupled with difficult experiences, such barriers can persuade some women to relinquish their aspirations for a career in administration. In various ways, both subtle and direct, our culture discourages women from expressing their intelligence. For some who weather the difficulties, the results can be highly confirming and motivating. As women strive to achieve professional success and recognition, they still feel societal pressure to assume more conventional roles. Although cultural sexism is a consistent theme in these women's stories, so are strength, determination, and inspiration.

Uneven Connections Robert J. Foster, 2024-03-28. In the first years of the 21st century, economic liberalisation began to transform telecommunications services throughout the Pacific Islands. Government regulators, corporate executives, and everyday consumers hopefully imagined that opening mobile phone markets to competition would result in greater access, lower costs, and accelerated development. Uneven Connections examines the ways in which liberalisation took hold in Papua New Guinea (PNG) when a unit of the Caribbean-based mobile network operator Digicel Group Ltd seized the opportunity to compete with the state-sponsored incumbent. The book highlights how mobile phones entered the lives of urban and rural Papua New Guineans after Digicel's arrival in 2007. In so doing, it describes a moral economy in which companies, consumers, and state agents continually negotiate who owes what to whom. In what ways have these various actors invented and negotiated new forms of both freedom and constraint? Uneven Connections advances understanding of how a so-called digital revolution in PNG unfolded, resulting in outcomes that often confounded the expectations of policy makers and ordinary citizens alike. It assesses the extent to which some of the promises of this revolution have been redeemed and identifies the challenges faced by companies, consumers, and state agents in establishing and experiencing novel forms of uneven

connectivity The book provides a short and selective history of mobile phones in PNG ending with the sale of Digicel s Pacific operations to the Australian company Telstra in 2022 *In This Together* Nancy D O'Reilly,2019-01-01 Thoughts advice and stories from 40 successful women across a variety of careers from authors to actresses CEOs and professors encouraging women to support each other in the workplace and in life along with action plans on how all women can work together to break free from the binds of gender inequality Women worldwide are breaking their silence coming forward against the men that have oppressed and abused them in the MeToo movement It s an exciting liberating moment time of female empowerment but now we have to relearn how to connect with each other Instead of supporting each other through the challenges of a traditionally male dominated working world millions of women have experienced the polar opposite Studies show that 30% of workplace bullies are female employing tactics such as cyber bullying verbal attacks gossiping and shunning to use against each other and many women have garnered mean girl reputations as competitive and unsupportive in the workplace Inside the galvanizing *In This Together* 40 successful and eminent women from a wide range of fields show us how much we can achieve if we embrace our collective power and strength instead of competing against each other such as learning new skills to advance in our careers and ultimately earn more money working to dramatically increase the number of women in leadership positions and even recruiting men to take up workplace equality as their own impassioned cause Empowering stirring and actionable *In This Together* is an indispensable addition to every modern woman s arsenal in our continued fight for the opportunities we deserve **Women-Centric Ideologies in Indian Society** Dr. Pritee Jain,2025-02-09 The book employed a variety of symbols and images to portray women s emotions and sentiments This gives the precision and clarity of her work and a broad appeal among her readers In her works Study also discussed the connection between men and women and portrayal of women The search for women s independence and identity is a liberation and justice quest **Personnel Literature** ,1991 *What Women Want* Larry Stains,Stefan Bechtel,Laurence Roy Stains,2000-04-22 A guide to the minds of women compiled by 2 513 real interviews details the specifics of what women love and hate with tips that can turn any man into an exceptional lover and partner 20 000 first printing **Stories by Charlie** Charles E.
