collaborative nature of curatorial practices debunking the twin myths of autonomous artists and sovereign artistic directors and treating presentation and reception as separate processes Employing set theory to distinguish curated exhibitions from uncurated exhibitions installation art and collections it demonstrates how exhibitions grant spectators access to concepts that aid their capacity to grasp artifacts as artworks To inform and illuminate current debates in curatorial practice Spaid draws on a range of case studies from Impressionism Dada and Surrealism to more contemporary exhibitions such as Maurizio Cattelan All 2011 and Damien Hirst 2012 In articulating the process that cycles through exploration interpretation presentation and reception curating bears resemblance to artistic direction more generally **Fab Howard**
