Teaching Through Embodied Learning positions drama as an underutilised but valuable tool for enhancing the learning of information in primary science texts Creating a tableau is an established drama practice for exploring key moments in fiction texts and historical events but less frequently applied with non-fiction texts Based on doctoral research that studied the impact of having students create a tableau in response to reading informational texts about the solar system it presents the idea that using drama with informational texts causes students to read purposefully and respond aesthetically thus positively impacting reading behaviour comprehension and social behaviour The book addresses the neglect of the body in learning and positions this against a narrow curriculum that is focused on print and seated learning Within a current context it acknowledges increasing concerns by educational leaders and academics of the need for a broad and balanced curriculum and pedagogical practice In support of these concerns the book places tableau as an embodied learning mode that broadens curriculum experience and discusses recent research that highlights the role of drama and the body in enhancing cognition Teaching Through Embodied Learning will be essential reading for academics researchers and postgraduate students in the fields of education and drama education It will also greatly appeal to teacher educators drama teachers and academics in literacy departments      **A New English Dictionary on Historical Principles**, 1897      *Be the CEO of Your Own Health* Maria Teresa Kline, 2020-01-07 A health and lifestyle guide that shows readers how to make healthy nutrition and exercise choices in order to achieve optimal wellness and longevity The biggest impact a person can make on their life is achieving and sustaining great health Certified health educator and life coach Maria Teresa Kline has a tried and proven method of doing just that She has done the research on highly effective alternative healing methods and cutting edge practices to maintain long term wellbeing In *Be the CEO of Your Own Health* discover how to take the guesswork out of what is beneficial for you and what isn't and learn once and for all what food and exercise are best for your body In this accessible handbook to healthy living readers learn The secrets to feeling good all of the time How to make your genetics and habits work for you instead of against you What food combining is and how to use it without giving up foods you love How to exercise in a way that is both enjoyable and maximizes benefits Alternative ways to heal the body using scientific breakthroughs that eliminate most ailments      *A New English Dictionary on Historical Principles* James Augustus Henry Murray, 1897      Clinical lectures Grigori Antonovich Zakharin, 1899      The West Coast, 1911      **Break It Down** Steve Parker, 2006-11-14 This series offers essential curriculum support for struggling readers on the topic of the human body and how it works Amazing facts and statistics are used throughout along with stories and photos that link to the content Readers are encouraged to think about their own bodies as they read to connect with the subject matter and make it relevant for them
