## Stone Palaces:

**A Descriptive and Historical Account of Various Palaces, and Public Buildings, English and Foreign** James Norris Brewer, 1810 Inigo's Stones Tom Williamson, 2012-04-01 Written by a geologist rather than an art historian Inigo's Stones has a down to earth narrative which reveals Inigo Jones as a stone expert who dealt with masons to become a shrewd businessman bringing Portland stones to London and founding the modern Portland stone industry Why are so many of London's famous buildings for example Buckingham Palace the British Museum the Bank of England the government offices in Whitehall faced with stones from the Isle of Portland more than a hundred miles away Until now the reasons that prompted famous architect Inigo Jones to bring blocks of this creamy limestone all the way by sea from the Royal Manor of Portland and thereby found the modern Portland stone industry had been something of a mystery Working with archival research specialist James Derriman geologist Tom Williamson has now reconstructed a scenario that solves the mystery It is a complex tale that involves the marriage of Inigo's chief Banqueting House mason Nicholas Stone to the daughter of the City Mason of booming Amsterdam a nasty incident at the stone loading pier at Portland and Inigo Jones's struggles to pay stone workers from King James's bankrupt Treasury The new findings presented in Inigo's Stones also see Inigo Jones studying Roman stones and marbles in Italy with Lord and Lady Arundel initiating the first geological study of Stonehenge searching for Portland stones big enough to replicate the Carystian marble monoliths of the Roman temple of Antoninus and Faustina in London and procuring Irish marbles to reflect imperial glory on his friend King Charles I Inigo emerges not just as a Court propagandist and Vitruvian architect but also as a resourceful businessman doing his best to cope at a time when the government was even shorter of cash than it is today Reflecting on the questions raised by Inigo's work for the Stuart kings the author Tom Williamson extends the story to cover the whole field of how rulers have used stones and marbles to project imperial power Focusing on the stones of three once mighty empires the Roman the Mughal and the British the book ends with a surprising twist

International Heritage and Historic Building Conservation Zeynep Aygen, 2013 The majority of books in English on historic building conservation and heritage preservation training are often restricted to Western architecture and its origins Consequently the history of building conservation the study of contemporary paradigms and case studies in most universities and within wider interest circles predominantly in the UK Europe and USA focus mainly on Europe and sometimes the USA although the latter is often excluded from European publications With an increasingly multicultural student body in Euro American universities and with a rising global interest in heritage preservation there is an urgent need for publications to cover a larger geographical and social area including not only Asia Australia Africa and South America but also previously neglected countries in Europe like the new members of the European Community and the northern neighbour of the USA Canada The inclusion of the other in built environment education in general and in building conservation in particular is a pre requisite of cultural interaction and widening participation International Heritage and Historic Building Conservation

assesses successful contemporary conservation paradigms from around the world The book evaluates conservation case studies from previously excluded areas of the world to create an integrated account of Historic Building Conservation that crosses the boundaries of language and culture and sets an example for further inclusive research Analyzing the influence of financial constraints regional conflicts and cultural differences on the heritage of disadvantaged countries this leading edge volume is essential for researchers and students of heritage studies interested in understanding their topics in a wider framework     **The Foundation Library for Young People** George Edwin Rines,1911
