**Romantic and Revolutionary Theatre, 1789-1860** Donald Roy, 2003-06-05 Taking as notional parameters the upheaval of the French Revolution and the events leading up to the Unification of Italy, this volume charts a period of political and social turbulence in Europe and its reflection in theatrical life. Apart from considering external factors like censorship and legal sanctions on theatrical activity, the volume examines the effects of prevailing operational conditions on the internal organization of companies, their repertoire, acting, stage presentation, playhouse architecture, and the relationship with audiences. Also covered are technical advances in stage machinery, scenography, and lighting; the changing position of the playwright; and the continuing importance of various street entertainments, particularly in Italy, where dramatic theatre remained the poor relation of the operatic and itinerant acting troupes. Still, constituted the norm. The 460 documents, many of them illustrated, have been drawn from sources in Britain, France, and Italy and have been annotated and translated where appropriate.

*Dante's Performance* Francesco Ciabattini, 2024-08-06 Through an historical and philological lens, this book explores passages from Dante's *Commedia* which reveal elements inspired by processions, pageants, liturgical drama, psalm singing, or dance performance. The sacred poem finds influence in medieval theories of the performing arts, as well as actual performances which Dante would have seen in churches or town squares. *Dante's Performance* opens a new perspective from which to consider the *Commedia*. Dante expected his contemporary readers to recognize references to, and echoes of, psalms, sacred plays, and performative practices. Twenty-first century readers are tasked with reconstructing a cultural framework which allows us to grasp those same textual references. From the dramatization of the harrowing of hell in *Inferno IX* to Beatrice's celebratory return on top of Mount Purgatory, to the songs of the blessed, this study connects Dante's language to coeval theoretical and practical texts about performance. If hell is the Middle Ages' theatrum diaboli, purgatory stages a performed purification through songs and acting, while paradise offers the spectacle of blessed spirits within the heavenly spheres, as an aid to human understanding.
