homogenizing power on Muslim peoples This is the central paradox of Islam today at a time of such unprecedented weakness in one sense how has the Islamic Awakening a broad and diverse movement of contemporary Islamic renewal emerged as such a resilient and powerful transnational force and what implications does it have for the West In One Islam Many Muslims Worlds Raymond W Baker addresses this question Two things are clear Baker argues Islam s unexpected strength in recent decades does not originate from official political economic or religious institutions nor can it be explained by focusing exclusively on the often criminal assertions of violent marginal groups While extremists monopolize the international press and the scholarly journals those who live and work in the Islamic world know that the vast majority of Muslims reject their reckless calls to violence and look elsewhere for guidance Baker shows that extremists draw their energy and support not from contributions to the reinterpretation and revival of Islamic beliefs and practices but from the hatreds engendered by misguided Western policies in Islamic lands His persuasive analysis of the Islamic world identifies centrists as the revitalizing force of Islam saying that they are responsible for constructing a modern cohesive Islamic identity that is a force to be reckoned with

Useful Fictions Michael Austin, 2011-01-01 We tell ourselves stories in order to live Joan Didion observed in The White Album Why is this Michael Austin asks in Useful Fictions Why in particular are human beings whose very survival depends on obtaining true information so drawn to fictional narratives After all virtually every human culture reveres some form of storytelling Might there be an evolutionary reason behind our species need for stories Drawing on evolutionary biology anthropology narrative theory cognitive psychology game theory and evolutionary aesthetics Austin develops the concept of a useful fiction a simple narrative that serves an adaptive function unrelated to its factual accuracy In his work we see how these useful fictions play a key role in neutralizing the overwhelming anxiety that humans can experience as their minds gather and process information Rudimentary narratives constructed for this purpose Austin suggests provided a cognitive scaffold that might have become the basis for our well documented love of fictional stories Written in clear jargon free prose and employing abundant literary examples from the Bible to One Thousand and One Arabian Nights and Don Quixote to No Exit Austin s work offers a new way of understanding the relationship between fiction and evolutionary processes and perhaps the very origins of literature

American and Muslim Worlds before 1900 John Ghazvinian, Arthur Mitchell Fraas, 2020-02-06 American and Muslim Worlds before 1900 challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and deep seam of history between the two which provides an important context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of

enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

**Covering Muslims** Erik Bleich, A. Maurits van der Veen, 2021 An examination of how American newspaper articles on Muslims are strikingly negative by any measure For decades scholars and observers have criticized negative media portrayals of Muslims and Islam Yet most of these critiques are limited by their focus on one specific location a limited time period or a single outlet In Covering Muslims Erik Bleich and A Maurits van der Veen present the first systematic large scale analysis of American newspaper coverage of Muslims through comparisons across groups time countries and topics The authors demonstrate conclusively that coverage of Muslims is remarkably negative by any measure They show that American newspapers have been consistently negative across the two decade period between 1996 and 2016 and that articles on Muslims are more negative than those touching on groups as diverse as Catholics Jews Hindus African Americans Latinos Mormons or atheists Strikingly even articles about mundane topics tend to be negative The authors suggest that media outlets both within and outside the United States may contribute to pervasive Islamophobia and they encourage readers and journalists to tone check the media rather than simply accepting negative associations with Muslims or other marginalized groups

**Hamka's Great Story** James R. Rush, 2016-06-07 Hamka s Great Story presents Indonesia through the eyes of an impassioned popular thinker who believed that Indonesians and Muslims everywhere should embrace the

thrilling promises of modern life and navigate its dangers with Islam as their compass Hamka Haji Abdul Malik Karim Amrullah was born when Indonesia was still a Dutch colony and came of age as the nation itself was emerging through tumultuous periods of Japanese occupation revolution and early independence He became a prominent author and controversial public figure In his lifetime of prodigious writing Hamka advanced Islam as a liberating enlightened and hopeful body of beliefs around which the new nation could form and prosper He embraced science human agency social justice and democracy arguing that these modern concepts comported with Islam's true teachings Hamka unfolded this big idea his Great Story decade by decade in a vast outpouring of writing that included novels and poems and chatty newspaper columns biographies memoirs and histories and lengthy studies of theology including a thirty volume commentary on the Holy Qur'an In introducing this influential figure and his ideas to a wider audience this sweeping biography also illustrates a profound global process how public debates about religion are shaping national societies in the postcolonial world The Story of Islamic Philosophy Salman H. Bashier, 2012-07-11 In this innovative work Salman H Bashier challenges traditional views of Islamic philosophy While Islamic thought from the crucial medieval period is often depicted as a rationalistic elaboration on Aristotelian philosophy and an attempt to reconcile it with the Muslim religion Bashier puts equal emphasis on the influence of Plato's philosophical mysticism This shift encourages a new reading of Islamic intellectual tradition one in which boundaries between philosophy religion mysticism and myth are relaxed Bashier shows the manner in which medieval Islamic philosophers reflected on the relation between philosophy and religion as a problem that is intrinsic to philosophy and shows how their deliberations had the effect of redefining the very limits of their philosophical thought The problems of the origin of human beings human language and the world in Islamic philosophy are discussed Bashier highlights the importance of Ibn ufa'yl's *ayy ibn Ya'q n* a landmark work often overlooked by scholars and the thought of the great Sufi mystic Ibn al Arab to the mainstream of Islamic philosophy
