Chris Ware's Jimmy Corrigan DJ Dycus, 2011-11-15 Without a doubt Chris Ware is one of the preeminent creators of comics today He is a brilliant figure in a generation of extraordinarily talented people Granted there are a lot of innovators in the field right now but no one else in the last seventy years has explored the capabilities of the genre to the same extent as has Ware His genius in part comes from his interest in and understanding of the past accomplishments of figures such as George Herriman and Winsor McCay One might even say that much of his work is somewhat archaeological in nature he is interested in a reclamation of the past Rather than merely excavating the achievements of past masters for the sake of history however Ware is also fortifying expanding and enriching comics so that it might flourish in the present This work begins with a broad examination of the nature of comics First by briefly discussing the cognitive operations involved in processing this hybrid medium then by surveying the generic branches of comics and then by offering an historic examination of its contemporary development which goes back as far as the sixteenth century Next is an analysis of comics in relation to literature film and the visual arts Comics utilizes elements from all of these but it also offers a unique narrative experience This book primarily focuses upon Ware's magnum opus to date Jimmy Corrigan It contextualizes his work within developments in comics over the last fifty years as well as comparing him to other prominent figures such as Will Eisner Art Spiegelman Daniel Clowes Alan Moore Neil Gaiman Lynda Barry and Frank Miller

African Animal Tales Santhus Umoh, 2007-08-02 This book is a collection of humorous stories meant to uplift the human spirit Some of the stories are funny capable of making the reader laugh smile and relax These stories teach instruct educate and elicit

good moral conduct The purpose of a story is not to give a scientific explanation to any issue Instead a story is to teach us about life Stories bring happiness and consolation to the downhearted and the brokenhearted Stories are meant not only for children Everybody listens to and tells stories Grandparents tell their grandchildren stories Parents tell their children stories Storytelling is a means of social communication and education Insightful and fascinating African Animal Tales provide a rare insight into the inner working of animals social life Rev Dr Emmanuel Udoanwankwo Humanistic Wellbeing Joar Vittersø, 2025-02-12 This open access book seeks to change the way we think about happiness and the good life It starts ambitiously by exploring how the biological question What is life can be integrated with the philosophical question What is good It ends with a radical idea for how scientific reasoning can include a value based theory of the good life Anchored in basic knowledge about human nature the new humanistic theory of wellbeing suggests that a life is good to the extent that it allows us to perform our humanness well The theory further defines a well performed humanness as the fulfilment of three universal human needs the need for stability the need for change and the need to and for care To reach this standpoint the author critically examines major concepts in the wellbeing literature such as values happiness life satisfaction affect hedonia eudaimonia and the good life Based on these reviews the author argues that a science of wellbeing cannot be strictly descriptive and value free A life should not be considered good only because it feels good or is thought of as good for the person living it A good life must also be committed to a universal morality Therefore the humanistic theory of wellbeing suggests that it is good to like one's life but even better to like it for the right reasons Emotion and Discourse in L2 Narrative Research Matthew T. Prior, 2015-10-22 This book examines the interactional management of emotionality in second language autobiographical interview research Advancing a discursive constructionist approach it offers a timely methodological and reflexive perspective that brings into focus the dynamic and dilemmatic aspects of interviewee and interviewer identities and experiences and it makes visible the often unexpected and unseen consequences for the research project and beyond The author weaves together critical discussion and empirical analysis based on longitudinal narrative based research with adult immigrants from Southeast Asia living in the US and Canada This interdisciplinary book will be compelling reading for students researchers and others interested in emotion narrative discourse identity interaction interviews and qualitative research People Love Dead Jews: Reports from a Haunted Present Dara Horn, 2021-09-07 Winner of the 2021 National Jewish Book Award for Contemporary Jewish Life and Practice Finalist for the 2021 Kirkus Prize in Nonfiction A New York Times Notable Book of the Year A Wall Street Journal Chicago Public Library Publishers Weekly and Kirkus Reviews Best Book of the Year A startling and profound exploration of how Jewish history is exploited to comfort the living Renowned and beloved as a prizewinning novelist Dara Horn has also been publishing penetrating essays since she was a teenager Often asked by major publications to write on subjects related to Jewish culture and increasingly in response to a recent wave of deadly antisemitic attacks Horn was troubled to realize what all of these assignments had in
