because Jarosz has spent her entire life studying people As a reviewer of the original Polish edition noted it is not possible to understand Polish society its views and attitudes and the mechanisms for managing them without reading this work This book spans the period from World War II through the communist era in Poland to the present day It contains a wealth of dramatic detail including a vivid account of how the author who has Jewish roots survived the Holocaust as a child This English language edition is updated to include descriptions of recent events The author focuses intensely on her experiences as one of a few surviving witnesses to the horrors of wartime Poland Her sober reflections are interspersed with light hearted anecdotes testifying to Jarosz s resilient sense of humour a cocktail that makes the book a captivating read

Practices of Selfhood Zygmunt Bauman,Rein Raud,2015-05-19 Contemporary understanding of human subjectivity has come a long way since the Cartesian thinking thing or Freud s view of the self struggling with its unconscious We no longer think of ourselves as stable and indivisible units or combinations thereof instead we see the self as constantly reinvented and reorganised in interaction with others and with its social and cultural environments But the world in which we live today is one of uncertainty where nothing can be taken for granted Coping with change is a challenge but it also presents new opportunities Uncertainty can be both liberating and oppressive How does an individual understand her or his position in the world Are we as human beings determined by our genetic heritage social circumstances and cultural preferences or are we free in our choices How does selfhood emerge Does it follow the same pattern of development in all people all cultures all ages Or is it a socio cultural construction that cannot be understood outside its historical context Are the patterns of selfhood fundamentally changing in the present world Does new technology allow us more autonomy or does it tempt us to give up the freedoms we have These are the questions that Zygmunt Bauman and Rein Raud explore in their engaging and wide ranging dialogue combining their competences in sociology philosophy and cultural theory to look at how selfhood is produced in social practice through language efforts of self presentation and self realisation as well as interaction with others An indispensable text for understanding the complexities of selfhood in our contemporary liquid modern world

to new approaches and methods for the study of Jewish acculturation in Russian literature and its effects It attempts to redefine criteria and borders of a discipline situated roughly between Judaica Rossica and Rossica Judaica The monograph describes a series of important literary Russian Jewish cultural events and figures belonging synchronically or diachronically to both disciplines Thus it unites within a new conceptual framework the data accumulated by scholars and disciplines that exist separately in different research spaces that do not overlap Jewish Studies and the history of Russian culture The emerging picture shows the development of a historical plot along the axis of acculturation and anti-Semitism accepting and or trying to be accepted being rejected and or rejecting and being within or without
