Stuka At War:

Stuka at War Peter Charles Smith,1980 *Stuka at War* Peter Charles Smith,1980 **Hitler's Stuka Squadrons** John Ward,2004 Hitler's Stuka Squadrons is a book that separates fact from fantasy regarding the achievements and military career of the Ju 87 aircraft Able to deliver its bombs accurately onto a target the Stuka wreaked havoc in Poland and France against ground targets and refugee columns Hitler's Stuka Squadrons charts the Ju 87's career in 1939-40 when German aerial superiority ensured aircraft losses were low However against Spitfires and Hurricanes in the Battle of Britain in 1940 the Stuka was shot out of the skies The campaign in Russia saw the re-establishment of the Ju 87's supremacy and would lead to a change in role to one of tank busting Hitler's Stuka Squadrons also covers the individual Stuka squadrons their campaigns tactics and pilots Illustrated with full color artworks which show the various changes in livery and design that the Ju 87 underwent during its career accompanied by a full specifications table that lists range armament performance dimensions ceiling and weights An authoritative book written by an expert on Military history First hand accounts from Stuka pilots Full colored artworks Specifications boxes The Stuka at War Peter Charles Smith,1971 Stuka Volume Two Peter C. Smith,Professor of Health Policy Imperial College Business School & Institute for Global Health Peter C Smith,2008-01-24 During the first phase of World War II the German forces advancing on all fronts the Ju87 Stuka had been an essential element in the Luftwaffe's armory attack However from mid 1943 as the War dragged on the Stuka began incurring heavy losses Dunkirk Warsaw Rotterdam and other early victories became distant memories as severe reversals came about in the East Wherever possible and often against overwhelming resources the Stukas supported the retreating German armies by conducting not just precision dive bombing missions but low level ground attack operations against enemy transport targets gun positions and ships This second and concluding volume in this series examines the role of the Stuka during these years of retreat Aspects of the Stuka's role which the book recounts includes the attacks against the Malta convoys the retreat in North Africa the war over the Arctic the Russian campaign including the battle for Stalingrad and the collapse of the Eastern front This volume contains an impressive selection of historic photos color artworks and first hand accounts from those who flew the aircraft **Stuka Spearhead** Peter C. Smith,1998-09-30 This addition to the Luftwaffe at War Series is a fully illustrated guide to the formative years of the Ju 87 dive bomber which dominated the opening campaigns of World War II *Combat Biplanes of World War II* Peter C. Smith,2015-09-30 Aviation and maritime historian Peter C Smith reveals how both Allied and Axis powers used World War I era aircraft in Combat Biplanes of World War II The era of the combat biplane is usually thought to have been between 1914 and 1938 By the outbreak of World War II most of the advanced air forces of the world had moved on to monoplane aircraft for their front line battle forces both in bomber and fighter capacities Yet despite this many biplanes did still survive both in front line service and in numerous subsidiary roles and not just as training machines but as fully operational warplanes Thus in 1939 the majority of major European powers still retained some albeit

few biplane aircraft Great Britain had the bulk of such obsolescent machines including the Gladiator Swordfish Walrus Vildebeeste and Audax while the inferior Albacore meant to replace the Swordfish had yet to enter service Germany still managed to conduct missions in which biplanes like the He 50 He 51 and Hs 120 excelled Both France and Italy had active biplanes Mussolini's Regia Aeronautica attaching great importance to the type as a fighter aircraft as late as 1941 while the Soviet Union also retained some machines like the Po 2 in front line service right through the war and beyond By the time Japan and the United States entered the war two years later they had mainly rid themselves of biplanes but even here a few specialized types lingered on Combat Biplanes of World War II describes many of these gallant old warriors representing the author's own personal selection from a surprisingly large range of aircraft that despite all predictions fought hard and well
