Styles Of Urban Policing Organization Environment And Police Styles In Selected American Cities:

Styles of Urban Policing Jeffrey Slovak,1988-09 Using data from 42 sizable American cities on their environments and police organizational structures the book documents the importance of organizational structure on police action by predicting arrest rates for 2 types of serious criminal offenses It applies this research perspective to neighborhoods in analyses of policing styles in three cities Elyria Ohio Columbia S C and Newark N J The study examines the kinds of data on police action available from a police dispatch log as well as particular information recording processes used in the three sites Two key indicators of police style are the rate of police aggressiveness and the degree to which local police work is legalistic watchmanlike or service oriented These measures are used to analyze variations in policing styles across both neighborhoods and cities providing support to the theory that organization rather than environment determines local policing styles This view receives additional support from indepth analyses of social demographic and economic characteristics of the three sites Tables references and index

Styles of Urban Policing Jeffrey S. Slovak,1986-01-01 Organizational Structure in American Police Agencies Edward R. Maguire,2012-02-01 Although most large police organizations perform the same tasks there is tremendous variation in how individual organizations are structured To account for this variation author Edward R Maguire develops a new theory that attributes the formal structures of large municipal police agencies to the contexts in which they are embedded This theory finds that the relevant features of an organization s context are its size age technology and environment Using a database representing nearly four hundred of the nation s largest municipal police agencies Maguire develops empirical measures of police organizations and their contexts and then uses these measures in a series of structural equation models designed to test the theory Ultimately police organizations are shown to be like other types of organizations in many ways but are also shown to be unique in a number of respects

Criminal Justice Theory Edward Maguire,David Duffee,2015-02-11 Criminal Justice Theory Second Edition is the first and only text edited by U S criminal justice educators on the theoretical foundations of criminal justice not criminological theory This new edition includes entirely new chapters as well as revisions to all others with an eye to accessibility and coherence for upper division

Contemporary Research on Police Organizations George W. Burruss,Matthew J. Giblin,Joseph A. Schafer,2019-12-18 Much research on policing focuses on individual officer decision making in the field but officers are positioned within organizations Organizational characteristics including structures policies management training culture traditions and the environmental context affect individual officer behavior and attitudes Recent high profile controversies surrounding policing have generated interest in examining what factors may have led to current crises In this book contributors discuss how police department priorities are made how departments respond to sexual assault complaints how forensic scientists deal with job stress and satisfaction how police use gun crime incident reviews for problem solving and information sharing how police officers view the use of body worn cameras given their

perceptions of organizational justice and how officers view their work culture The purpose of this book is to give policy makers and scholars some guidance on the interplay between the individual and the organization By understanding this dynamic police administrators should be able to better devise reform efforts This book was originally published as a special issue of the Journal of Crime and Justice *Measurement and Analysis of Crime and Justice, Vol. 4, Criminal Justice 2000, (July 2000)*, 2000 *Criminal Justice 2000*, 2000 **Criminal Justice 2000: Measurement and analysis of crime and justice**, 2000 *The Politics of Policing in Greater China* Sonny Shiu-Hing Lo, 2016-11-21 This book examines the politics of policing in Greater China including mainland China Taiwan Hong Kong and Macao As the author shows police ideological indoctrination is strongest in mainland China followed by Hong Kong and Taiwan where the police is under increasing political stress in the aftermath of rising public protests and socio political movements Macao s police on the other hand is far less politicized and indoctrinated than their mainland Chinese counterpart This book demonstrates that policing in China is a distinctive and extensive topic as it involves not only crime control but also crisis management and protest control governance and corruption or anti corruption the management of customs and immigration the control over legal and illegal migrants the transfer of criminals and extradition and intergovernmental police cooperation and coordination As economic integration is increasing rapidly in Greater China this region s policing deserves special attention **Urban Politics, Crime Rates, and Police Strength** Thomas Dain Stucky, 2005 Stucky criminal justice Indiana Purdue U at Indianapolis analyzes the relationship between politics crime and police employment expenditures and arrests Using political resource theory he examines how resources are managed and provides an institutional resource perspective about crime and politics while discussing social disorganization
