Subaltern Studies Ranajit Guha,1982 **Writing Cultural History in Colonial and Postcolonial India** Henry Schwarz,2016-11-11 During the colonial period in India English historians portrayed the British conquest and domination of India as the realization of a historic destiny absorbing the particular history of India into the overarching narrative of the Empire When Indian scholars educated in the British system began to write their own histories of the period they had to struggle to reclaim their past and to make the Indian people the subject of their history Henry Schwarz explores this struggle through an analysis of Indian cultural histories written between 1870 and the present Focusing on English language texts written by Bengali historians on the subjects of literature and culture Schwarz critically analyzes landmark works of the genre and compares Indian writing about cultural heritage to the dominant forms of European historiography prevalent during the colonial period Indian historians incorporated European aesthetic standards and theories of history into their writing yet they managed to transform these ideas in ways that challenged British ideological domination Schwarz shows how in writing a distinctly Indian history of India they produced a unique historiographical style of great complexity deploying brilliant reconfigurations of the dominant themes styles ideologies and tropes that characterize acceptable modes of history writing in the West Moving from the late nineteenth century to the present Schwarz identifies six distinct modes of translation and transformation produced by these writers ranging from liberal nationalist text to those of writers associated with the Subaltern Studies project He analyzes the narrative modes employed during the period and traces the movement toward the metaphoric and ironic styles of the post Independence era Writing Cultural History in Colonial and Postcolonial India provides a needed counterweight to the emphasis on colonial discourse that has come to dominate recent postcolonial scholarship By examining how the colonized interpreted and transformed the experience of oppression through their own work this book represents postcolonial studies written from the other side **Routledge Handbook of the History of Colonialism in South Asia** Harald Fischer-Tiné,Maria Framke,2021-09-01 The Routledge Handbook of the History of Colonialism in South Asia provides a comprehensive overview of the historiographical specialisation and sophistication of the history of colonialism in South Asia It explores the classic works of earlier generations of historians and offers an introduction to the rapid and multifaceted development of historical research on colonial South Asia since the 1990s Covering economic history political history and social history and offering insights from other disciplines and turns within the mainstream of history the handbook is structured in six parts Overarching Themes and Debates The World of Economy and Labour Creating and Keeping Order Science Race Religion Law and Education Environment and Space Culture Media and the Everyday Colonial South Asia in the World The editors have assembled a group of leading international scholars of South Asian history and related disciplines to introduce a broad readership into the respective subfields and research topics Designed to serve as a comprehensive and nuanced yet readable introduction to the vast field of the history of colonialism in
