Subjects Citizens And Refugees:

Subjects, Citizens, and Refugees Saradindu Mukherji, 2000 Cross border refugee movements have international dimensions involving the country of origin and the host country This book studies the refugee problem originating in the Chittagong Hill Tracts of the then East Pakistan and now Bangladesh The hill people of this region mostly Buddhists under the Pakistanies and Bangladeshis suffered cultural religious and economic persecution and ethnic cleansing and sought refuge in India This book focuses on this post colonial post 1947 period both during the Pakistani and Bangladeshi era with a view to probe the origin of the refugee problem and its subsequent development It also looks into the refugee experience and goes into the humanitarian and applied dimension of the problem The book concludes with the author's insight on how such humanitarian emergencies can be anticipated and steps initiated to prevent it so as to minimize the sufferings of forced migration

Citizen Refugee Udit Sen, 2018-08-30 This innovative study explores the interface between nation building and refugee rehabilitation in post partition India Relying on archival records and oral histories Udit Sen analyses official policy towards Hindu refugees from eastern Pakistan to reveal a pan Indian governmentality of rehabilitation This governmentality emerged in the Andaman Islands where Bengali refugees were recast as pioneering settlers Not all refugees however were willing or able to live up to this top down vision of productive citizenship Their reminiscences reveal divergent negotiations of rehabilitation from below Educated refugees from dominant castes mobilised their social and cultural capital to build urban squatters colonies while poor Dalit refugees had to perform the role of agricultural pioneers to access aid Policies of rehabilitation marginalised single and widowed women by treating them as permanent liabilities These rich case studies dramatically expand our understanding of popular politics and everyday citizenship in post partition India

Refugeehood and the Postconflict Subject Olga Maya Demetriou, 2018-08-27 Being a refugee is not simply a matter of law determination procedures or the act of flight It is an ontological condition structured by the politics of law affect and territory Refugeehood

and the Postconflict Subject explores the variable facets of refugeehood their interconnections and their intended and unintended consequences Grounded on more than a decade of research on the island of Cyprus Olga Maya Demetriou considers how different groups of refugees coexist and how this coexistence invites reinterpretations of the law and its politics The long standing political conflict in Cyprus produced not only the paradigmatic formally recognized refugee but also other groups of displaced persons not so categorized By examining the people and circumstances Demetriou reveals the tensions and contestations within the international refugee regimes and argues that any reinterpretation that accounts for these tensions also needs to recognize that these minor losses are not incidental to refugeehood but an intrinsic part of the wider issues

Making Refugees' Political Agency Visible Amelie Harbisch, 2025-01-21 This book centres refugees and asylum seekers as agents of global politics broadening our thinking about political agency beyond statism citizenship and organized political protest Arguing that to understand forced migration we must understand the construction of refugees as individual human subjects and how subconscious ideas about refugees influence daily practices and policies the author studies how refugees make meaning about themselves Forced migration is a key formative phenomenon of international politics but debates habitually discuss displacement only as an abstract number economic challenge or security issue This volume shifts attention to the individual human subjects as overlooked agents of international relations To this end the book rethinks individual subjects altogether and develops a comprehensive practice theoretical framework of subject construction Through extensive ethnographic data generated with refugees in Germany and Austria the author reveals how refugees are depoliticized and how they combat this using creativity humour and intercultural resources This volume highlights people s agency despite being subjected to powerful ideas and mechanisms It will appeal to scholars and students of International Relations Sociology Political Science and Migration Studies

From Subject to Citizen Alastair Davidson, 1997-05-12 This important theoretically sophisticated work explores the concepts of liberal democracy citizenship and rights Grounded in critical original research the book examines Australia s political and legal institutions and traces the history and future of citizenship and the state in Australia The central theme is that making proof of belonging to the national culture a precondition of citizenship is inappropriate for a multicultural society such as Australia This becomes an object lesson for the multicultural regional polities forming throughout the world

India's Foreign Relations, 1947-2007 Jayanta Kumar Ray, 2013-04-03 This book analyses India s relations with its neighbours China Pakistan Bangladesh Sri Lanka and other world powers USA UK and Russia over a span of 60 years It traces the roots of independent India s foreign policy from the Partition and its fallout its nascent years under Nehru and non alignment to the influence of economic liberalization and globalization The volume delves into the underlying reasons of persistent problems confronting India s foreign policy makers as well as foreign policy interface with defence and domestic policies This book will be indispensable to students scholars and teachers of South Asian studies international relations political science and modern Indian history

Globalizing

Citizenship Kim Rygiel, 2011-01-01 The events of 9 11 exposed and enhanced tensions between global capitalism and the nation state Governments struggle more than ever to govern populations and manage cross border traffic without building new barriers to trade and commerce What does citizenship mean in this context Is it in crisis Kim Rygiel explores these questions by examining border and detention policies in the United States the United Kingdom Canada and Australia as part of a larger politics of citizenship that preceded 9 11 Building on Foucault s concept of biopolitics she argues that citizenship is becoming a globalizing regime to govern mobility as nations harmonize border and detention policies outsource state functions to international organizations and private companies and rely on technologies of governing to discipline the body The new mobility regime is not only deepening boundaries based on race class and gender it is causing Western nations to embrace a more technocratic depoliticized understanding of citizenship

States and Strangers Nevzat Soguk, 1999 Looks at the role of refugees in international relations Refugees may flee their country but can they escape the confining defining logic of all the voices that speak for them As refugees multiply in our troubled world more and more scholars studies and pundits focus on their plight Most of these analyses says Nevzat Soguk start from a model that shares the assumptions manifested in traditional definitions of citizen nation and state Within this hierarchy he argues a refugee has no place to go States and Strangers questions this paradigm particularly its vision of the territoriality of life A radical retheorization of the refugee from a Foucauldian perspective the book views the international refugee regime not as a simple tertiary response arising from the practice of states regarding refugee problems but as itself an aspect of the regimentation of statecraft The attendant discourse negates the multiplicity of refugee events and experience by assigning the refugee an identity someone without the citizen s grounding within a territorial space the state renders him voiceless and deprives him of representation and protection States and Strangers asks how this happens and how it can be avoided Using historical archival research and interpretive strategies drawn from a genealogical approach Soguk considers the role of the refugee in the emergence and maintenance of the sovereign territorial state from the late seventeenth century to contemporary times ISBN 0 8166 3166 2 Cloth jacket 00 00 62 95x 340 Pages 5 7 8 x 9 March Borderlines Series volume 11 Translation inquiries University of Minnesota Press
