

The book cover features a photograph of an ancient Roman underground structure, likely a catacomb or a subterranean chamber. The walls are made of brick and stone, with several arched openings leading to other rooms. The lighting is dramatic, with strong highlights and deep shadows, emphasizing the textures of the masonry. The title 'SUBTERRANEAN ROME' is printed in large, white, serif capital letters across the top half of the cover.

SUBTERRANEAN ROME

IVANA DELLA PORTELLA
Photography by Mark E. Smith

Subterranean Rome

Hope Malleson, M. A. R. Toker

Subterranean Rome:

Subterranean Rome Leonard Victor Rutgers, 2000 The catacombs the long underground galleries into which the early Christian community of Rome buried its dead have always fascinated visitors to Rome Containing the graves of hundreds of thousands of early Christian believers as well as the tombs of famous martyrs and no less famous popes the catacombs are truly awe inspiring places It is here in the dark and winding galleries of these enormous subterranean cities of the dead that one encounters the earliest physical evidence of a community that changed the course of Western civilization once and for all In this long awaited book the first general study on the catacombs to appear in English in a long time readers are taken on an underground tour by one of the world s foremost specialists in catacomb archaeology In addition to providing practical information for those wishing to enter the catacombs as visitors or pilgrims this book explains how recent archaeological discoveries in the catacombs of Rome have changed and continue to change our understanding of how Rome s early Christian community expressed its faith while coping with the realities of everyday life This book is essential reading for all those wishing to possess an up to date manual on why the early Christian and the Jewish catacombs occupy a place of such central importance in the celebrations surrounding the year 2000 Roma sotterranea Ivana Della Portella, 2002 Provides a cross section that embodies the variegated panorama of subterranean Rome Subterranean Rome Ivana Della Portella, 2000 Beneath the pavements of monumental Rome the Rome of the imperial Fora and the great basilicas lies another Rome secret and less flamboyant where everyday buildings open up to reveal unsuspected treasures of art and history This is subterranean Rome Though perhaps somewhat less magnificent or picturesque than the city above ground it is equally or even more evocative and fascinating Like a kind of Atlantis buried beneath its centuries old covering its gardens temples baths and nymphaeums tell us a story of ancient times made up of light and life but also of shadows persecution and death Here we find the mysterious temples dedicated to the cult of the god Mithras that seem to bring alive the magical atmosphere of initiation and sacrifice Here too are nymphaeums places of pleasure and physical and spiritual refreshment columbaria with their astonishing funerary architecture hypogaeums and underground passages that still preserve precious works of art beneath churches palaces and even in the basements of unpromising looking houses However subterranean Rome does not consist only of mysterious and sacred places for we also find urban and secular structures like the quarters of the Seventh Cohort of Guards or the famous Golden House the Domus Aurea With evocative photographs several published here for the first time this book reveals the hidden world of subterranean Rome guides us through the most fascinating sites in many cases previously unvisited and frequently difficult of access It represents a journey in time that explores the most ancient roots of western culture Jacket Roma Sotterranea Giovanni Battista de Rossi, James Spencer Northcote, William-R. Brownlow, 1869 The Seven Hills of Rome Grant Heiken, Renato Funiciello, Donatella de Rita, 2013-10-24 From humble beginnings Rome became perhaps the greatest intercontinental power in the world Why did this historic city become so

much more influential than its neighbor nearby Latium which was peopled by more or less the same stock Over the years historians political analysts and sociologists have discussed this question ad infinitum without considering one underlying factor that led to the rise of Rome the geology now hidden by the modern city This book demonstrates the important link between the history of Rome and its geologic setting in a lively fact filled narrative sure to interest geology and history buffs and travelers alike The authors point out that Rome possessed many geographic advantages over surrounding areas proximity to a major river with access to the sea plateaus for protection nearby sources of building materials and most significantly clean drinking water from springs in the Apennines Even the resiliency of Rome s architecture and the stability of life on its hills are underscored by the city s geologic framework If carried along with a good city map this book will expand the understanding of travelers who explore the eternal city s streets Chapters are arranged geographically based on each of the seven hills the Tiber floodplain ancient creeks that dissected the plateau and ridges that rise above the right bank As an added bonus the last chapter consists of three field trips around the center of Rome which can be enjoyed on foot or by using public transportation

Rome Hope Malleon, M. A. R. Tucker, 2021-04-25 In Rome readers are invited to traverse the cobblestoned paths of the Eternal City through a captivating anthology that seeks to explore its immortal allure This collection presents a rich tapestry of narratives essays and reflections that collectively celebrate Rome s enduring significance as a cradle of civilization art and philosophy Varying literary styles seamlessly intertwine to paint a multifaceted portrait of the city offering diverse perspectives that range from historical accounts to poetic musings The anthology s significance lies not only in its celebration of Rome s past but also in its exploration of the city s influence on contemporary thought and culture Curated with immense care by Hope Malleon and M A R Tucker the anthology brings together contributions from an array of voices distinguished both by their backgrounds and by their engagement with Roman themes The editors steeped in historical scholarship and literary finesse guide these narratives with a deft hand ensuring that the myriad stories coalesce around a shared fascination with Rome s timeless narrative Collectively the authors reach back and forward through time bridging epochs and cultural movements enriching the readers with a profound understanding of the city s impacts across the ages Rome presents a unique opportunity to engage with a multitude of perspectives on one of history s most significant cities As readers delve into this curated collection they gain not only an appreciation for Rome s historical tapestry but also insights into the evolving dialogue between its storied past and vibrant present Scholars enthusiasts and curious readers alike will find immense educational value and inspiration in the anthology where each turn of the page fosters a deeper connection with the eternal city and its profound legacy
