Subversive Imagination:

The Subversive Imagination Carol Becker, 1994 Looks at the issue of the artist's responsibility to society and questions the ethical mutual responsibilities between artists and society The Subversive Imagination: Decolonizing the imagination

Carol Becker, 2013 *Decoys and Disruptions* Martha Rosler, 2004 The first comprehensive collection of writings by Martha Rosler considers the intersection of art and politics the operation of art systems feminist art practices and the media

Disruptive Grace Walter Brueggemann, 2011 Walter Brueggemann has been one of the leading voices in Hebrew Bible interpretation for decades his landmark works in Old Testament theology have inspired and informed a generation of students scholars and preachers These chapters gather his recent addresses and essays on every part of the Hebrew Bible many of them never published before bringing his erudition to bear on those practices prophecy lament prayer faithful imagination and a holy economics that alone may usher in a humane and peaceful future for our cities *Apostle to the Conquered, paperback edition* Davina C. Lopez, 2010-10-01 *Apostle to the Conquered* reveals the subversive heart of Paul's theology reframing his conversion in terms of consciousness and his exhortations as a politics of the new creation Art and Sustainability Sacha Kagan, 2014-03-15 What is the cultural dimension of sustainability This book offers a thought provoking answer with a theoretical synthesis on cultures of sustainability Describing how modernity degenerated into a culture of unsustainability to which the arts are contributing Sacha Kagan engages us in a fundamental rethinking of our ways of knowing and seeing the world We must learn not to be afraid of complexity and to reawaken a sensibility to patterns that connect With an overview of ecological art over the past 40 years and a discussion of art and social change the book assesses the potential role of art in a much needed transformation process Picture Imperfect Russell Jacoby, 2005-04-06 The choice we have is not between reasonable proposals and an unreasonable utopianism Utopian thinking does not undermine or discount real reforms Indeed it is almost the opposite practical reforms depend on utopian dreaming Russell Jacoby *Picture Imperfect* Utopianism suffers from an image problem A recent exhibition on utopias in Paris and New York included photographs of Hitler's *Mein Kampf* and a Nazi concentration camp Many observers judge utopians and their sympathizers as foolhardy dreamers at best and murderous totalitarians at worst However as noted social critic and historian Russell Jacoby argues in this salient polemical and innovative work not only has utopianism been unfairly characterized a return to an iconoclastic utopian spirit is vital for today's society Shaped by the works of Theodor Adorno Walter Benjamin Ernst Bloch Gustav Landauer and other predominantly Jewish thinkers iconoclastic utopianism revives society's dormant political imagination and offers hope for a better future Writing against the grain of history Jacoby reexamines the anti utopian mindset and identifies how utopian thought came to be regarded with such suspicion He challenges standard readings of such anti utopian classics as *1984* and *Brave New World* and offers stinging critiques of the influential liberal and anti utopian theorists Hannah Arendt Isaiah Berlin and Karl Popper He argues that these thinkers mistakenly equate utopianism

with totalitarianism The reputation of utopian thought has also suffered from the failures of what Jacoby terms the blueprint utopian tradition and its oppressive emphasis on detailing all aspects of society and providing fantastic images of the future In contrast the iconoclastic utopians like those who follow God's prohibition against graven images resist both the blueprinters obsession with detail and the modern seduction of images Jacoby suggests that by learning from the hopeful spirit of iconoclastic utopians and their willingness to accept new possibilities for society we open ourselves to new and more imaginative ideas of the future

Symbiosis Ray Broadus Browne, Marshall William Fishwick, 1988 These essays written by experts in their fields demonstrate how necessary it is in the study of the humanities and social sciences to realize the interdependency of the fields and how rich the resulting study can be
