Sudan Nations In Conflict:

Livelihoods in Sudan amid armed conflict: Evidence from a national rural household survey Kirui, Oliver K., Ahmed, Mosab, Siddig, Khalid, Taffesse, Alemayehu Seyoum, Abushama, Hala, Dorosh, Paul A., Fakh, Ali, Terefe, Fekadu, Nohra, Nada, AlAzzawi, Shireen, Intini, Vito, Merouani, Walid, 2024-04-19 Analysis of a comprehensive survey of Sudanese rural households conducted from November 2023 to January 2024 by IFPRI and UNDP reveals significant socioeconomic impacts of the ongoing armed conflict on the Sudanese population underscoring the need for immediate and targeted policy and programmatic interventions The conflict has severely disrupted rural household incomes and exacerbated existing vulnerabilities related to their housing and access to infrastructure and services Most households live in inadequate housing conditions with disparities in access to water electricity and sanitation services posing additional challenges Rural households low access to assets including agricultural land further complicates their livelihoods The conflict primarily concentrated in urban areas particularly Khartoum has triggered mass migration with significant numbers relocating to states like Aj Jazirah and Gedaref These migrants often from relatively better off backgrounds face substantial income losses necessitating basic needs support and enhanced provision of public services particularly for the large families that are more likely to migrate Agriculture a critical sector for rural livelihoods has been significantly affected across all states Most households reported not cultivating land during the summer season of 2023 due to the conflict The sharp reduction in the area of crops planted underscores the need for support for farming activities particularly for smallholder households The survey highlights extensive exposure to shocks among rural households with personal shocks such as illnesses among household members being the most common Natural and climatic shocks although less prevalent alongside conflict related shocks like theft and violence emphasize the complex challenges faced by these communities Market access and disruptions have further impacted rural households with a considerable proportion of rural households unable to sell or buy goods primarily due to high prices and sharp reductions in income for most households These market challenges coupled with the overall economic instability necessitate interventions aimed at maintaining and improving market accessibility and functionality to promote recovery and resilience The findings from the analysis of the survey data lend support to designing and implementing comprehensive strategies that address the immediate needs of displaced populations and other rural households affected by income losses and market disruptions Enhancing public services supporting livelihoods building resilience through shock responsive social protection systems agricultural and economic interventions and ensuring equitable access to resources and markets for all households particularly those headed by women and vulnerable groups are the principal policy recommendations that emerged from this analysis This study of rural household livelihoods amid the armed conflict in Sudan provides a foundation for targeted interventions and policy reforms aimed at mitigating the conflict s impacts and fostering long term resilience and economic stability Forging Two Nations Insights on Sudan and South

Sudan Grawert, Elke, 2014-03-16 Most of the papers in this book were presented during the 9th International South Sudan and Sudan Studies Conference of the Sudan Studies Association USA and the Sudan Studies Society UK 150 scholars from numerous academic disciplines experts in conflict transformation and development staff of non governmental organisations NGOs former and current senior officers from ministries and military institutions from Sudan South Sudan and seventeen further countries participated in the conference They engaged in vivid discussions on historical and recent cleavages in the societies of Sudan and South Sudan inequality and exclusion in numerous variations and on rapid social change accompanied by urbanisation and land conflicts The severe economic crisis following the separation and the importance of creating political solutions instead of using technical approaches to work on the multitude of challenges affecting each of the two countries and the interrelations between them were also scrutinised The participants intensely exchanged views and experiences on the difficulties and successes in taking responsibility rather than being dependent on foreign assistance Discussions revealed strong potentials in both societies to overcome such problems to initiate processes of reconciliation and to consolidate peace They shed light on the complex processes of nation building and the creation of meaningful constitutions This book attempts to capture at least some of this multitude of insights and aspects that had shaped the conference

Sudan, Darfur and the Nomadic Conflicts Philip Steele, 2012-08-01 The different peoples making up Sudan have a long history of ethnic conflict There has been civil war between the north and the south as well as conflict among the various ethnic communities and nomadic groups living within these regions Readers examine the civil unrest that has divided the country for decades as well as the rebellion and massacres of the Darfur region Factors contributing to the area s ongoing conflicts including clashes over oil water land and human rights are also explored In addition future prospects for Sudan and the new Republic of South Sudan which seceded in July 2011 are discussed **Political Governance and the African**

Peer Review Mechanism Omololu Fagbadebo, Isioma U. Ile, 2025-04-15 This book presents a comparative analysis of political governance and includes case studies from various African countries It further sheds light on the paradox of poverty despite Africa s plentiful resources and traces its roots in historical legacies of colonialism and leadership failures The book examines the African Peer Review Mechanism APRM initiated by the African Union AU in 2003 and explores the APRM s role in promoting sustainable development political stability and integration Against this background the book dissects the four thematic areas of the APRM with a focal point on democratic and political governance illuminating challenges and proposing solutions In case studies on selected African countries contributors present governance structures highlighting the struggle for accountability representation and public participation The book highlights alarming indicators of weak governance including corruption and declining public engagement and reflects Africa s journey toward effective governance By doing so the book scrutinizes African governing systems responses to crises and offers valuable insights into the continent s quest for progress and transformation *Hawks and Doves in Sudan's Armed Conflict* Suad M. E. Musa, 2018 Analyses the

involvement of the agro pastoral al Hakkamat Baggara women of Darfur in Sudan s recent civil wars and the implications of this for conflict resolution and peacebuilding Armed Conflict Survey 2022 The International Institute for Strategic Studies (IISS),2022-11-18 The Armed Conflict Survey 2022 provides an exhaustive review of the political military and humanitarian dimensions of 33 active armed conflicts globally in the period from 1 March 2021 to 30 April 2022 The review is complemented by a strategic analysis of national regional and global drivers and conflict outlooks providing unique insights into the geopolitical and geo economic threads linking conflicts across the world as well as into emerging flashpoints and political risks This edition includes a special feature on climate security given the increasingly urgent need to understand the complex interlinkages between climate change climate vulnerability and conflict amid accelerating global warming Reflecting the growing importance of geopolitical factors in the current global conflict landscape The Armed Conflict Survey 2022 features the IISS Armed Conflict Global Relevance Indicator which compares the global relevance of armed conflicts in terms of their geopolitical impact as well as their human impact and intensity This edition also includes maps infographics and key statistics as well as the accompanying Chart of Armed Conflict States of Disorder, Ecosystems of Governance Adam Day,2022-03-28 Today s vision of world order is founded upon the concept of strong well functioning states in contrast to the destabilizing potential of failed or fragile states This worldview has dominated international interventions over the past 30 years as enormous resources have been devoted to developing and extending the governance capacity of weak or failing states hoping to transform them into reliable nodes in the global order But with very few exceptions this project has not delivered on its promise countries like Somalia Afghanistan South Sudan and the Democratic Republic of the Congo DRC remain mired in conflict despite decades of international interventions States of Disorder addresses the question Why has UN state building so consistently failed to meet its objectives It proposes an explanation based on the application of complexity theory to UN interventions in South Sudan and DRC where the UN has been tasked to implement massive stabilization and state building missions Far from being ungoverned spaces these settings present complex dynamical systems of governance with emergent properties that allow them to adapt and resist attempts to change them UN interventions based upon assumptions that gradual increases in institutional capacity will lead to improved governance fail to reflect how change occurs in these systems and may in fact contribute to underlying patterns of exclusion and violence Based on more than a decade of the author s work in peacekeeping this book offers a systemic mapping of how governance systems work and indeed work against UN interventions Pursuing a complexity driven approach instead helps to avoid unintentional consequences identifies meaningful points of leverage and opens the possibility of transforming societies from within

Nationalism and Intra-State Conflicts in the Postcolonial World Fonkem Achankeng,2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated

intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles **Conflict and Forced Migration** Gil Richard Musolf, 2019-10-21 This timely collection brings together a wide variety of contributors from scholars and a psychiatric social worker to former refugees who were resettled in the United States and a mural artist to explore the current face of migration conflict **Survival October-November 2021: The Limits of Power** The International Institute for Strategic Studies (IISS), 2023-04-21 Survival the IISS s bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment In this issue Anatol Lieven argues that realist support for prudence and restraint in foreign policy does not equate to chauvinism isolationism and opposition to international cooperation Toby Dodge assesses that the United States attempt to comprehensively transform Afghanistan was based on its erroneous presumption that the liberal peacebuilding model was universally applicable Audrey Kurth Cronin contends that the logic of fighting terrorists far from the US homeland no longer holds as the US faces resource constraints and rising domestic terrorism Jens Ringsmose and Sten Rynning analyse the potential priorities and scope of NATO s next Strategic Concept and how it can bridge the Alliance s political military divide And eight more thought provoking pieces as well as our regular Book Reviews and Noteworthy column Editor Dr Dana Allin Managing Editor Jonathan Stevenson Associate Editor Carolyn West Assistant Editor Jessica Watson

Yeah, reviewing a books **Sudan Nations In Conflict** could grow your close connections listings. This is just one of the solutions for you to be successful. As understood, achievement does not recommend that you have wonderful points.

Comprehending as capably as covenant even more than additional will find the money for each success. next-door to, the publication as well as perception of this Sudan Nations In Conflict can be taken as without difficulty as picked to act.
