Mapping Marriage Law in Spanish Gitano Communities Susan Drummond, 2011-11-01 Comparative law and legal anthropology have traditionally restricted themselves to their own fields of inquiry Mapping Marriage Law in Spanish Gitano Communities turns this tendency on its head and investigates what happens when the voices of each discipline are invited to speak to each other Susan Drummond forges this hybrid form of comparative work through small and large scale studies of Gitano marriage law as it emerges in a Western European state in a modern urban centre and in particular communities and families Drummond s mapping of Gitano marriage law is grounded in ethnographic fieldwork in Andalucia The study draws initially from the tradition of comparative law to focus on the emergence of Spanish state family law in a predominantly national and international context Drummond then adopts the role of legal anthropologist to examine a particular legal culture that exists within and also beyond the Spanish state that of the Gitanos and the transnational Roma Ultimately she brings the international national and cultural dimensions of law into play with one another and contemplates how all of these influences bear on the spirit of Andalusian Gitano marriage law The result is an ethos of marriage law in a thoroughly mixed legal jurisdiction Mapping Marriage Law in Spanish Gitano Communities will appeal to scholars and students in comparative law and legal anthropology as well as readers interested in Roma studies in general and the Gitanos in particular

Gypsies David Cressy, 2018-06-28 Gypsies Egyptians Romanies and more recently Travellers Who are these marginal and mysterious people who first arrived in England in early Tudor times Are claims of their distant origins on the Indian subcontinent true or just another of the many myths and stories that have accreted around them over time Can they even be regarded as a single people or ethnicity at all Gypsies have frequently

been vilified and not much less frequently romanticized by the settled population over the centuries Social historian David Cressy now attempts to disentangle the myth from the reality of Gypsy life over more than half a millennium of English history In this the first comprehensive historical study of the doings and dealings of Gypsies in England he draws on original archival research and a wide range of reading to trace the many moments when Gypsy lives became entangled with those of villagers and townsfolk religious and secular authorities and social and moral reformers Crucially it is a story not just of the Gypsy community and its peculiarities but also of England's treatment of that community from draconian Elizabethan statutes through various degrees of toleration and fascination right up to the tabloid newspaper campaigns against Gypsy and Traveller encampments of more recent years

Conflicting Paths Harvey J. Graff, 1995 We grow up so simple it just seems to happen and yet there are endless variations in the way we do it What part does culture play in the process How much do politics and economics have to do with it As the nation has matured have the ways people grow up changed too This book traces the many paths to adulthood that Americans have pursued over time Spanning more than two centuries of intense transformation in the lives of individuals and the life of a nation *Conflicting Paths* is an innovative history of growing up in America Harvey J Graff a distinguished social historian mines more than five hundred personal narratives for what they can tell us about the passage from childhood to maturity Drawing on diaries memoirs autobiographies and letters he builds a penetrating complex firsthand account of how childhood adolescence and youth have been experienced and understood as functions of familial and social relations as products of biology and physiology and as cultural and political constructs These first person testimonies cross the lines of time and space gender and class ethnicity age and race In these individual stories and the larger story they constitute Graff exposes the way social change including institutional developments and shifting attitudes expectations and policy and personal experience intertwine in the process of growing up Together these narratives form a challenging subtle guide to historical experiences and to the epochal remaking of growing up The most socially inclusive and historically extensive of any such research Graff's work constitutes an important chapter in the story of the family the formation of modern society and the complex interweaving of young people tradition and change
