The Monterrey Elite And The Mexican State 1880 1940 Texas Pan American Series:

The Monterrey Elite and the Mexican State, 1880-1940 Alex M. Saragoza, 2014-10-14 After the Revolution of 1910 a powerful group of Monterrey businessmen led by the Garza Sada family emerged as a key voice of the Mexican private sector. The Monterrey Elite and The Mexican State is the first major historical study of the Grupo Monterrey, the business elite that transformed Monterrey into a premier industrial center, the Pittsburgh of Mexico. Drawing on archival resources in the United States and Mexico and the work of previous scholars, Alex Saragoza examines the origins of the Monterrey elite. He argues that a pact between the new state and business interests was reached by the 1940 presidential elections, an accord that paved the way for the alliance for profits that has characterized relations between the Mexican state and capitalists since that time. More than a standard business history, this study delves into both the intimate social world of the Garza Sadas and their allies and the ideas, beliefs, and vision of the Monterrey elite that set it apart from and often against the Mexican government. In so doing, *The Monterrey Elite and the Mexican State* reveals the underlying forces that led to the most historic battle between the private sector and the Mexican state, the dramatic showdown in 1936 between the Garza Sadas and then President Lázaro Cárdenas in Monterrey, Nuevo León.

When Capitalists Collide Robert Vitalis, 2018-07-10 Robert Vitalis's empirically rich study challenges the left nationalist paradigm through which twentieth-century Egyptian history and politics has generally been interpreted. He argues with those who explain Egyptian economic development primarily in terms of class and of power struggles between British and Egyptian entrepreneurs and politicians. Vitalis offers a rare, detailed view of the objectives and political strategies of both international firms and Egypt's own big business rivals. He highlights the career of Muhammad Ahmad Abbud, modern Egypt's most successful businessman. Vitalis's argument can be effectively applied to many other developing countries, and his book makes a major contribution to ongoing debates regarding class, underdevelopment, and nationalism. Globalizing the Lower Rio Grande Kyle B. Carpenter, 2024-10-15 Often obscured in the history of the nineteenth-century US-Mexico borderlands, European-born entrepreneurs played a definitive role in pushing the Rio Grande

borderlands into Atlantic markets These borderlands entrepreneurs tried to transform the Lower Rio Grande and its surroundings from a regional crossroads of trade to a hub of the Atlantic economy Though they were often stymied by mismanagement notions of ethnic and cultural superiority and eruptions of violence these entrepreneurs persistently attempted to remake the region into a modern commercial utopia Their actions challenged United States imperial expansion into the Rio Grande borderlands as they tried to modernize the region according to European cultural precepts through constructing colonies populated with Europeans building strong networks of local and global significance and striving to dominate trade in the region Globalizing the Lower Rio Grande reframes the narrative of the borderlands through the perspectives of Europeans who actively shaped the historical trajectory of the region It highlights the actions of folks like English born John C Beales who convinced a party of Europeans to trek overseas and overland to the isolated Las Moras Creek to build a colony from scratch Alexander Bourgeois d Orvanne former mayor of Clichy la Garenne in France who manipulated powerful French and German leaders to support a settlement scheme on the Rio Grande Spanish born Jos San Rom n and the way he constructed massive transatlantic networks of credit and exchange and Joseph Kleiber from Strasbourg who facilitated the construction of a European owned railroad line along the Rio Grande Though ultimately undermined and outmaneuvered by their American rivals European born borderlands entrepreneurs like these collectively globalized the Lower Rio Grande
