Hasbro's My Little Pony franchise has been mired in controversy since its debut in the early 1980s. Critics dismissed the cartoons as toy advertisements and derided their embrace of femininity. The 2010 debut of the openly feminist My Little Pony: Friendship Is Magic renewed the backlash as its broad appeal challenged entrenched notions about gendered entertainment. This first comprehensive study of My Little Pony explores the history and cultural significance of the franchise through Season 5 of Friendship Is Magic and the first three Equestria Girls films. The brand has continued to be on the receiving end of a sexist double standard regarding commercialism in children's entertainment while masculine cartoons such as the Transformers have been spared similar criticism.

Ponyfinder: Campaign Setting David Silver, 2014-02-14 Adventure in the world of Everglow nestled in delicate balance between the elemental planes. It is a world of magic and mystery where the fey are in control and the humanoid races are secondary. Foremost of the fey are Ponykind who rallied behind their Queen to form the greatest empire Everglow had ever seen. We've brought ponies, griffons, felines, and other strange creatures to life in a world all of their own where they are the primary PCs. Don't want to run a game all about ponies? That's alright. Use our post-empire suggestions to add ponies to any other existing world. Many spells, archetypes, and bloodlines are also usable by non-ponies or other settings. New gods. New spells. New class archetypes. New equipment. New bloodlines. New races. Compatible with Pathfinder and 5E.

But the new discoveries don't end there.
