The Moral Economy Of The State Conservation Community Development And State Making In Zimbabwe:

The Moral Economy of the State William A. Munro, 1998 The Moral Economy of the State examines state formation in Zimbabwe from the colonial period through the first decade of independence Drawing on the works of Gramsci E P Thompson and James Scott William Munro develops a theory of moral economy that explores negotiations between rural citizens and state agents over legitimate state incursions in social life This analysis demonstrates how states try to shape the meanings of citizenship for agrarian populations by redefining conceptions of the public good property rights and community membership The book s focus on the moral economy of the state offers a refreshing perspective on the difficulties experienced by postcolonial African states in building stronger state and rural institutions

The Struggle over State Power in Zimbabwe George Hamandishe Karekwaivanane, 2017-11-09 The establishment of legal institutions was a key part of the process of state construction in Africa and these institutions have played a crucial role in the projection of state authority across space This is especially the case in colonial and postcolonial Zimbabwe George Karekwaivanane offers a unique long term study of law and politics in Zimbabwe which examines how the law was used in the constitution and contestation of state power across the late colonial and postcolonial periods Through this he offers insight on recent debates about judicial independence adherence to human rights and the observation of the rule of law in contemporary Zimbabwean politics The book sheds light on the prominent place that law has assumed in Zimbabwe s recent political struggles for those researching the history of the state and power in Southern Africa It also carries forward important debates on the role of law in state making and will also appeal to those interested in African legal history

African Studies Series: The Struggle over State Power in Zimbabwe Karekwaivanane, George Hamandishe, *Environment, Power, and Justice* Graeme Wynn, Jane Carruthers, Nancy J. Jacobs, 2022-07-26 Spanning the colonial postcolonial and postapartheid eras these historical and locally specific case studies analyze and engage vernacular activist and scholarly efforts to mitigate social environmental inequity This book highlights the ways poor and vulnerable people in South Africa Lesotho and Zimbabwe have mobilized against the structural and political forces that deny them a healthy and sustainable environment Spanning the colonial postcolonial and postapartheid eras these studies engage vernacular activist and scholarly efforts to mitigate social environmental inequity Some chapters track the genealogies of contemporary activism while others introduce positions actors and thinkers not previously identified with environmental justice Addressing health economic opportunity agricultural policy and food security the chapters in this book explore a range of issues and ways of thinking about harm to people and their ecologies Because environmental justice is often understood as a contemporary phenomenon framed around North American examples these fresh case studies will enrich both southern African history and global environmental studies Environment Power and Justice expands conceptions of environmental justice and reveals discourses and dynamics that advance both scholarship and social change Contributors Christopher Konz Marc Epprecht Mary Galvin Sarah Ives Admire Mseba Muchaparara Musemwa

Matthew A Schnurr Cherryl Walker **Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960** Admire Mseba, 2024-11-12 A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power In contrast those sympathetic to the land reform program saw it as fundamental to the righting of colonialism s historical wrongs Yet rural displacements at the hands of state actors or of those closely connected to them continue As in the past the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it These explanations share one thing in common each understands the country s perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state This book refocuses attention on how regimes of power rooted in kinship gender generation and status have individually and in combination informed access to land in precolonial northeastern Zimbabwe It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe Further the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land This oversight has real consequences on our understandings of landed inequalities and how they are addressed When Zimbabwe s postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies creative efforts to limit the authority of their leaders **Community, Environment and Local Governance in Indonesia** Carol Warren, John F. McCarthy, 2012-09-10 This book explores the forces reconfiguring local resource governance in Indonesia since 1998 drawing together original field research undertaken in a decade of dramatic political change Case studies from across Indonesia s diverse cultural and ecological landscapes focus on the most significant resource sectors agriculture fisheries forestry mining and tourism providing a rare in depth view of the dynamics shaping social and environmental outcomes in these varied contexts Debates surrounding the tragedy of the commons and environmental governance have focused on institutional considerations of how to craft resource management arrangements in order to further the policy objectives of economic efficiency social equity and environmental sustainability The studies in this volume reveal the complexity of resource security issues affecting local communities and

user groups in Indonesia as they engage with wider institutional frameworks in a context driven simultaneously by decentralizing and globalizing forces Through ground up investigations of how local groups with different cultural backgrounds and resource bases are responding to the greater autonomy afforded by Indonesia s new political constellation the authors appraise the prospects for rearticulating governance regimes toward a more equitable and sustainable commonweal This volume offers valuable insights into questions of import to scholars as well as policy makers concerned with decentralized governance and sustainable resource management

Land and Agrarian Transformation in Zimbabwe Grasian Mkodzongi, 2020-06-05 This book examines the dynamics underpinning the implementation of Zimbabwe s fast track land reforms By utilising ethnographic data gathered in central Zimbabwe the book goes beyond the polarised debates which dominated scholarship in the earlier period to highlight the changing livelihoods occasioned by the land reform The book argues that despite the challenges faced by the newly resettled farmers the land reform has allowed landless and land short peasants access to land and other natural resources which were previously enclosed to them under a bi modal agrarian structure inherited from colonialism

Farm Labor Struggles in Zimbabwe Blair Rutherford, 2016-12-19 In the early twenty first century white owned farms in Zimbabwe were subject to large scale occupations by black urban dwellers in an increasingly violent struggle between national electoral politics land reform and contestations over democracy Were the black occupiers being freed from racist bondage as cheap laborers by the state supported massive land redistribution or were they victims of state violence who had been denied access to their homes social services and jobs Blair Rutherford examines the unequal social and power relations shaping the lives livelihoods and struggles of some of the farm workers during this momentous period in Zimbabwean history His analysis is anchored in the time he spent on a horticultural farm just east of Harare the capital of Zimbabwe that was embroiled in the tumult of political violence associated with jambanja the democratization movement Rutherford complicates this analysis by showing that there was far more in play than political oppression by a corrupt and authoritarian regime and a movement to rectify racial and colonial land imbalances as dominant narratives would have it Instead he reveals farm worker livelihoods access to land gendered violence and conflicting promises of rights and sovereignty played a more important role in the political economy of citizenship and labor than had been imagined

Zimbabwe in Transition Timothy Murithi, Aquilina Mawadza, 2011 Zimbabwe s Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country s progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe s

transition to democracy as well as prospects for political change and democracy in the country Zimbabwe in Transition critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket *Becoming Zimbabwe. A History from the Pre-colonial Period to 2008* Brian Raftopoulos, Alois Mlambo, 2009-09-15

Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country s history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire s opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joseph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya s chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed
