The Muria and Their Ghotul Verrier Elwin,1970 **Irregular Connections** Andrew P. Lyons,Harriet

Lyons,2004-12-01 Irregular Connections traces the anthropological study of sex from the eighteenth century to the present focusing primarily on social and cultural anthropology and the work done by researchers in North America and Great Britain Andrew P and Harriet D Lyons argue that the sexuality of those whom anthropologists studied has been conscripted into Western discourses about sex including debates about prostitution homosexuality divorce premarital relations and hierarchies of gender class and race Because sex is the most private of activities and often carries a high emotional charge it is peculiarly difficult to investigate At times such as the late 1920s and the last decade of the twentieth century sexuality has been a central concern of anthropologists and focal in their theoretical formulations At other times the study of sexuality has been marginalized The anthropology of sex has sometimes been one of the main faces that anthropology presented to the public often causing resentment within the discipline Andrew P Lyons is an associate professor of anthropology at Wilfrid Laurier University Harriet D Lyons is an associate professor of anthropology at the University of Waterloo *Savaging the Civilized* Ramachandra Guha,1999-04 Described by his contemporaries as a cross between Albert Schweitzer and Paul Gauguin Elwin was a man of contradictions at times taking on the role of evangelist social worker political activist poet government worker and more Intensely political the Oxford trained scholar tirelessly defended the rights of the indigenous and despite the deep religious influences of St *Tribes of India* Rann Singh Mann,1996 This comprehensive account reflects the thinking insight and experience of very senior Indian anthropologists The concerns expressed involve macro mapping of India tribal scenario in its diverse perspective Challenges and alternative from another front which has been debated upon in various phases of descriptions Where do the Indian tribes stand at the tuen of the century is so well documented in this volume that anyone interested in them would have no alternative but to join the stream of these anthropological thinkers and empiricists who realize that many odds continue to mark the philosophy policy ground level reality etc [The Muria and Their Ghotul](#) Harry Verrier Holman ELWIN,1947 **Tribal Populations and Cultures of the**

The Gonds of Andhra Pradesh Christoph von Fürer-Haimendorf, Elizabeth von Fürer-Haimendorf, 2021-12-19 Among the tribal populations of India there is none which rivals in numerical strength and historical importance the group of tribes known as Gonds In the late 1970s numbering well over four million Gonds extend over a large part of the Deccan and constitute a prominent element in the complex ethnic pattern of the zone where Dravidian and Indo Aryan populations overlap and dovetail In the highlands of the former Hyderabad State now Andhra Pradesh concentrations of Gonds persisted in their traditional lifestyle until the middle of the twentieth century feudal chiefs continued to function as tribal heads and hereditary bards preserved a wealth of myths and epic tales It was at that time that Christoph von Fürer-Haimendorf first began his study of this group of Gonds spending the better part of three years in their villages While observing their daily life and their elaborate ritual performances he also saw the threat which more advanced Hindu populations infiltrating into the Gonds habitat and competing for their ancestral land were posing to their way of life During the thirty years prior to publication the author had frequently revisited the Gond region and in 1976-7 he undertook a detailed re study of social and economic developments in the villages he knew best His long standing familiarity with many individual Gonds has allowed him to draw in this book originally published in 1979 an intimate picture of the life of a specific village community and to trace the fates of individual men and women over a long

stretch of time While his earlier book *The Raj Gonds of Adilabad Myth and Ritual* concentrated mainly on the Gonds mythology and ritual practices the present volume devotes more space to a detailed analysis of the operation of social forces and the traditional structure of a society characterised by a high degree of cohesion In 1979 the Gonds were once again being subjected to the pressure of outside forces and Professor von F rer Haimendorf lays special emphasis on the analysis of the process of social change forced upon the Gonds by settlers from outside The last part of the book thus represents a case history of the transformation of a tribal society under the impact of modernisation and relentless population growth
