Laura Robb, David L. Harrison

The Practice Of Reading:

The Practice of Reading Denis Donoghue, 1997 **The Practice of Reading** Derek Alsop, Chris Walsh, 1999-04-19 The Practice of Reading is a lucid and lively examination of the art of interpreting the novel in the context of recent developments in literary theory and criticism Believing that reading is or should be a pleasurable creative activity the authors analyse a range of seven novels from the eighteenth century to the present focusing upon the experiential dimensions of the reading process What is the role of the reader What happens when a novel is read How far does meaning depend on the reader and how far on the text These and other related questions are explored in readings of novels as diverse as Tristram Shandy Pride and Prejudice Great Expectations Daniel Deronda A Portrait of the Artist as a Young Man Beckett's Trilogy and Possession In its insistence upon a return to the practice of close reading the book represents a timely intervention in current literary debates An accessible informative and above all stimulating text for all university and college students of literature

Reading and the Body Thomas Mc Laughlin, 2016-04-08 Literary theory has been dominated by a mind body dualism that often eschews the role of the body in reading Focusing on reading as a physical practice McLaughlin analyzes the role of the eyes the hands postures and gestures bodily habits and other physical spaces with discussions ranging from James Joyce to the digital future of reading The Practice and Representation of Reading in England James Raven, Helen Small, Naomi Tadmor, 2007-09-27 Developments in cultural history and literary criticism have suggested alternative ways of addressing the interpretation of reading How did people read in the past Where and why did they read How were the manner and purpose of reading envisaged and recorded by contemporaries and why Drawing on fields as diverse as medieval pedagogy textual bibliography the history of science and social and literary history this collection of fourteen essays highlights both the singularity of personal reading experiences and the cultural conventions involved in reading and its perception An introductory essay offers an important critical assessment of the various contributions to the development of the subject in recent times This book constitutes a major addition to our understanding of the history of readers and reading **The Practice and Politics of Reading, 650-1500** Daniel G. Donoghue, Daniel Donoghue, James Simpson, Nicholas Watson, Anna Wilson, 2022 A new look at how reading was practised and represented in England from the seventh century to the beginnings of the print era finding many kinships between reading cultures across the medieval longue dur e Even as it transforms human cultures routines attention spans and the wiring of our brains the media revolution of the last few decades also urges a reconsideration of the long history of reading The essays in this volume take a new look at how reading was practised and represented in England from the seventh century to the beginnings of the print era using texts from Aldhelm to Malory and Wynkyn de Worde arguing that whether unpicking intricate Latin contemplating image texts or participating in semiotically rich public rituals reading cultivated and energized the subject's values perceptions and attitudes to the world Part I Practices of Reading asks how writers scribes and artists engaged readerly attention through textual layout poetic

form hermeneutic difficulty or images while Part II Politics of Reading explores how different textual communities manipulated the anxieties and opportunities for education moral improvement or entertainment associated with reading particular topics addressed include Bible translation and exegesis page layout literary form and readerly practice fiction hermeneutics and performance Although it understands reading as culturally and technologically localized the book finds many kinships between reading cultures across the medieval longue dur e and the literatures and literacies that proliferate today Contributors Amy Appleford Michelle De Groot Daniel Donoghue Andrew James Johnston Andrew Kraebel Katherine O'Brien O'Keefe Catherine Sanok Samantha Katz Seal James Simpson Emily V Thornbury Kathleen Tonry Kathryn Mogk Wagner Nicholas Watson Erica Weaver Anna Wilson

Religious Reading Paul J. Griffiths, 1999 In examining and analyzing these practices Griffiths develops a picture of the intellectual and moral commitments involved in being a religious person Griffiths favorably contrasts the practices and pedagogies of traditional religious cultures with those of our own fragmented and secularized culture and insists that religious reading should be preserved He concludes with the controversial proposal that the modern university should make room for traditional scholastics
