The Minor Arcanes:

The Key to the Minor Arcana in the Tarot Papus, Dr Gerard Encausse, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.

Origins of the Minor Arcana Ben Hoshour, 2020-06-12 Origins of the Minor Arcana, the first volume in the Learn Authentic Tarot series, presents the true story behind the ancestry of the Tarot's much-neglected Minor Arcana, which is to be found in the symbolism, culture and gaming traditions of Asia and the Middle East. In doing so, it abolishes the numerous occult myths surrounding the Tarot that have been promulgated from the late 18th century right up to the present day. Origins of the Minor Arcana provides a new foundation by which to understand the development of the Tarot, one grounded in historical scholarship and careful research. Set against the backdrop of humankind as *Homo symbolicus* (symbolic man) and *Homo ludens* (playful man), this volume illustrates how the gradual evolution of symbolic expression, together with the integral nature of play in human culture, ultimately led to the invention of playing cards and their transmission across the Eurasian landscape and into Europe. These early ancestors served as the foundation for the creation of all European playing cards, including the Tarot, and are the source of its four-suit system. Lavishly illustrated and beautifully presented, this volume contains a sizable collection of stunning color photos, including a full presentation of the Tarot's direct ancestors: the Chinese Money cards and the Mamluk deck. Heavily researched but eminently readable, this scholarly account of the Tarot's Minor Arcana is the definitive work on the early formative history of the Tarot.

The Tarot Minor Arcana: Learning the cards without memorizing their meaning Antares Stanislas, 2016-09-22 Yet another work by Antares Stanislas, famous card reader and astrologer. The Tarot Minor Arcana: Learning the cards without memorizing their meaning. This book is the second integral part of the complete text of The Tarot, the prediction of the future, and is appropriate for those who just want to complete the part concerning the Minor Arcana. The text maintains its professionalism in its discussion of the concepts and sets the goal of bringing its readers into the world of the Tarot through a book that is easy to read. As always, the title is original for the author's works because he, in his practice, receives invitations from his own clients and acquaintances to write works that fill the gap for those who want to practice or to go into this field. The problem with many, and by no means a secondary one, is that of memorizing the many meanings of the Tarot. The author has taken on the burden and the honor to help fill this gap. Following this book on the Minor Arcana is its correspondent volume on the Major Arcana. 109 pp, second edition. Antares Stanislas has been an astrologer, card reader, and researcher for over 20 years. Website: Astroamore2000.altervista.org
