The Sisters of Our Lady of the Missions Rosa Bruno-Jofré, 2019-11-04 This book traces the journey taken by the Canadian Province of the Sisters of Our Lady of the Missions Religieuses de Notre Dame des Missions RNDM from its establishment in Manitoba in 1898 to 2008 when the congregation as a whole redefined its mission and vision Using archival research conducted in Canada England and Italy and incorporating oral interviews with RNDM sisters this book explores the historical work of the sisters in schools and the part they played in the developing educational state The congregation's activities in schools first in Manitoba and Saskatchewan and later in Ontario and Quebec show how the sisters educational work related to the social characteristics of the communities they worked in e.g. those of French Canadian settlers British and continental European immigrants and the Métis population The Sisters of Our Lady of the Missions examines the impact of Vatican II in the 1960s and into the 2000s as well as the dismantling of neo-scholasticism and the process of secularization of consciousness in society at large These emerging issues led the congregation to examine its individual and collective identity at the intersection of feminist theology eco-spirituality and a critique of Western cosmology

Ordinary Saints Bonnie

Morgan,2019-12-19 From their everyday work in kitchens and gardens to the solemn work of laying out the dead the Anglican women of mid twentieth century Conception Bay Newfoundland understood and expressed Christianity through their experience as labourers within the family economy Women s work in the region included outdoor agricultural labour housekeeping childbirth mortuary services food preparation caring for the sick and textile production Ordinary Saints explores how religious belief shaped the meaning of this work and how women lived their Christian faith through the work they did In lived religious practices at home in church based voluntary associations and in the wider community the Anglican women of Conception Bay constructed a female theological culture characterized by mutuality negotiation of gender roles and resistance to male authority combining feminist consciousness with Christian commitment Bonnie Morgan brings together evidence from oral interviews denominational publications census data minute books of the Church of England Women s Association headstone epitaphs and household art and objects to demonstrate the profound ties between labour and faithfulness for these rural women work not only expressed but also shaped belief Ordinary Saints with its focus on gender labour and lived faithfulness breaks new ground in the history of religion in Canada To Make a Village Soviet Emily B.

Baran,2022-08-15 In June 1949 the Soviet state arrested seven farmers from the village of Bila Tserkva Not wealthy or powerful the men were unknown outside their community and few had ever heard of their small isolated village on the southwestern border of Soviet Ukraine Nevertheless the state decided they were dangerous traitors who threatened to undermine public order and a regional court sentenced them to twenty five years of imprisonment for treason In To Make a Village Soviet Emily Baran explores why a powerful state singled out these individuals for removal from society Bila Tserkva had to become a space in which Soviet laws and institutions reigned supreme yet Sovietization was an aspiration as much it was a reality The arrested men belonged to a small and misunderstood religious minority the Jehovah s Witnesses and both Witnesses and their neighbours challenged the government s attempts to fully integrate the village into socialist society Drawing from the case file and interviews with the families of survivors Baran argues that what happened in Bila Tserkva demonstrates the sheer ambition of the state s plans for the Sovietization of borderland communities A compelling history To Make a Village Soviet looks to Bila Tserkva to explore the power and the limits of state control and the possibilities created by communities that resist assimilation **Scandal in the Parish** Karen E. Carter,2019-05-15 In 1770 the priest Nicolas Vernier was accused of neglecting church services inappropriate behaviour in the confessional financial improprieties and affairs with the village schoolmistresses In a contentious church court case parishioners described all of their priest s wrongdoings and in turn he detailed many of theirs Ultimately Vernier finished his career as a cathedral canon in another diocese Scandal in the Parish recounts Vernier s story and many similar eighteenth century cases In fascinating detail that reveals essential facets of rural religion during the Catholic Reformation period Karen Carter considers French lay people s relationship with their parish cur who governed and influenced so much of their religious practice Although the priest s role

as purveyor of God's grace through the sacraments was secure as long as he performed his duties appropriately priests who were unable to navigate the pressures and high expectations put on them by their superiors and parishioners risked broken relationships public disturbances of the peace and even prosecution These scandals Carter demonstrates tell us much about rural parish life the processes of negotiation and accommodation between cur's and their parishioners and ongoing religious reforms and enforcement throughout the eighteenth century An engaging venture into the world of the parish that highlights the centrality of the priest parishioner relationship Scandal in the Parish reveals the attitudes and practices of ordinary people who were active agents in their religious and spiritual lives

Contesting the Moral High Ground Paul T. Phillips, 2013-04-01 In mid twentieth century Britain four intellectuals Julian Huxley Bertrand Russell Malcolm Muggeridge and Barbara Ward held sway over popular conceptions of morality While Huxley and Russell championed ideas informed by agnosticism and atheism Muggeridge and Ward were adherents to Christianity In *Contesting the Moral High Ground* Paul Phillips reveals how this fundamental dichotomy was representative of British society at the time and how many of the ideologies promoted by these four moralists are still present today As world class public figures in an open forum of debate Huxley Russell Muggeridge and Ward all achieved considerable public attention particularly during the turbulent 1960s Phillips captures the rebellious spirit of the time detailing how these thinkers exploited the popular media to disseminate ideas on prevailing social issues from justice and world peace to protection of the environment Phillips skilfully traces the foundations of their thought to their earlier careers and social movements of previous generations and shows how many of their approaches were adopted by a host of present day groups from the Christian Right and Left to the New Atheists and environmentalists A significant contribution to British intellectual history *Contesting the Moral High Ground* provides new insights into the moral philosophies of four of Britain's most influential minds in the twentieth century
