Spaces in Translation Christian Tagsold, 2017-09-08 One may visit famous gardens in Tokyo Kyoto or Osaka or one may visit Japanese styled gardens in New York San Francisco Philadelphia Berlin London Paris São Paulo or Singapore We often view these gardens as representative of the essence of Japanese culture Christian Tagsold argues however that the idea of the Japanese garden has less to do with Japan's history and traditions and more to do with its interactions with the West The first Japanese gardens in the West appeared at the world's fairs in Vienna in 1873 and Philadelphia in 1876 and others soon appeared in museums garden expositions the estates of the wealthy and public parks By the end of the nineteenth century the Japanese garden described as mystical and attuned to nature had usurped the popularity of the Chinese garden so prevalent in the eighteenth century While Japan sponsored the creation of some gardens in a series of acts of cultural diplomacy the Japanese style was interpreted and promulgated by Europeans and Americans as well But the fashion for Japanese gardens would decline in inverse relation to the rise of Japanese militarism in the 1930s their rehabilitation coming in the years following World War II with the rise of the Zen meditation garden style that has come to dominate the Japanese garden in the West Tagsold has visited over eighty gardens in ten countries with an eye to questioning how these places signify Japan in non Japanese geographical and cultural contexts He ponders their history the reasons for their popularity and their connections to geopolitical events explores their shifting aesthetic and analyzes those elements which convince visitors that these gardens are authentic He concludes that a constant process of cultural translation between Japanese and Western experts and commentators marked these spaces as expressions of otherness
