The Modern Poetic Sequence:

The Modern Poetic Sequence Macha Louis Rosenthal, Sally M. Gall, 1986-01-01 Ezra Pound's Cantos T S Eliot's Waste Land W B Yeats's Irish civil war sequences and William Carlos Williams's Paterson are some of the most genuinely creative poems of the present age and all are examples of the modern poetic sequence In this revolutionary critical study Rosenthal and Gall establish the poetic sequence as the major genre of 20th century poetry claiming it as the decisive form toward which all the developments of modern poetry have tended The Modern Poetic Sequence explores 125 years of poetic history and examines the works of some fifty poets both major and minor to describe the evolution of this modern poetic form From Whitman and Dickinson to the Confessional poets Plath and Lowell to the recent writing of Kinsella Montague and Hill this volume encompasses the entire development of the modern sequence and offers provocative insights not only into the boundaries and features of this particular genre but into the whole of twentieth century poetry About the Author M L

Rosenthal is Professor of English at New York University Sally M Gall is Poetry Editor of Free Inquiry **The Modern Poetic Sequence** Macha Louis Rosenthal, Sally M. Gall, 1983 **Gendered Modernisms** Margaret Dickie, Thomas Travisano, 2016-11-11 Thirteen original essays on Gertrude Stein H D Marianne Moore Edna St Vincent Millay Laura Riding Jackson Elizabeth Bishop Muriel Rukeyser and Gwendolyn Brooks demonstrate how these women expand the social textual and political boundaries of modernism The collection places these poets in the context of their times examining the conditions that helped shape their vivid and diverse poetic careers and reconsidering some of the assumptions that have led to their exclusion from the main narratives of modernist poetry Ultimately the aim is to enlarge the literary history of the movement for gendered modernism extends backward to the first years of the century and forward to the beginnings of postmodernism in the 1960s **The Contemporary Narrative Poem** Steven P. Schneider, 2012-12-15 Over the past thirty years narrative poems have made a comeback against the lyric approach to poetry that has dominated the past century Drawing on a decade of conferences and critical seminars on the topic The Contemporary Narrative Poem examines this resurgence of narrative and the cultural and literary forces motivating it Gathering ten essays from poet critics who write from a wide range of perspectives and address a wide range of works the collection transcends narrow conceptions of narrative antinarrative and metanarrative The authors ask several questions What formal strategies do recent narrative poems take What social cultural and epistemological issues are raised in such poems How do contemporary narrative poems differ from modernist narrative poems In what ways has history been incorporated into the recent narrative poetry How have poets used the lyric within narrative poems How do experimental poets redefine narrative itself through their work And what role does consciousness play in the contemporary narrative poem The answers they supply will engage every poet and student of poetry **We Are What We Mourn** Priscilla Uppal, 2009 The first book on the Canadian poetic elegy challenges all previous ideas about the purpose of mourning *Forms of Expansion* Lynn Keller, 1997-08-04 Expanding the boundaries

of both genre and gender contemporary American women are writing long poems in a variety of styles that repossess history reconceive female subjectivity and revitalize poetry itself In the first book devoted to long poems by women Lynn Keller explores this rich and evolving body of work offering revealing discussions of the diverse traditions and feminist concerns addressed by poets ranging from Rita Dove and Sharon Doubiago to Judy Grahn Marilyn Hacker and Susan Howe Arguing that women poets no longer feel intimidated by the traditional associations of long poems with the heroic public realm or with great artistic ambition Keller shows how the long poem's openness to sociological anthropological and historical material makes it an ideal mode for exploring women's roles in history and culture In addition the varied forms of long poems from sprawling free verse epics to regular sonnet sequences to highly disjunctive experimental collages make this hybrid genre easily adaptable to diverse visions of feminism and of contemporary poetics Poetry, Geography, Gender Alice

Entwistle, 2013-09-15 Poetry Geography Gender examines how questions of place identity and creative practice intersect in the work of some of Wales best known contemporary poets including Gillian Clarke Gwyneth Lewis Ruth Bidgood and Sheenagh Pugh Merging traditional literary criticism with cultural political and geographical analysis Alice Entwistle shows how writers different senses of relationship with Wales its languages history and imaginative as well as political geography feeds the form as well as the content of their poetry Her innovative critical study thus takes particular interest in the ways in which author text and territory help to inform and produce each other in the culturally complex and confident small nation that is twenty first century Wales The Cambridge Companion to Twentieth-Century English Poetry Neil

Corcoran, 2007-12-13 The last century was characterised by an extraordinary flowering of the art of poetry in Britain These specially commissioned essays by some of the most highly regarded poetry critics offer a stimulating and reliable overview of English poetry of the twentieth century The opening section on contexts will both orientate readers relatively new to the field and provide provocative syntheses for those already familiar with it Following the terms introduced by this section individual chapters cover many ways of looking at the modern the modernist and the postmodern The core of the volume is made up of extensive discussions of individual poets from W B Yeats and W H Auden to contemporary poets such as Simon Armitage and Carol Ann Duffy In its coverage of the development themes and contexts of modern poetry this Companion is the most useful guide available for students lecturers and readers Approaches to Organic Form F.R. Burwick, 2012-12-06 Frederick

Burwick's modest but comprehensive and insightful introduction is preface enough to these sensible essays in the history and philosophical criticism of ideas If we want to understand how some inquiring and intelligent thinkers sought to go beyond mechanism and vitalism we will find Burwick's labors of assembling others and reflecting on his own part to be as stimulating as anywhere to be found And yet his initial cautious remark is right approaches not attainments The problems associated with clarifying matter and form are still beyond any consensus as to their solution Even more do we recognize the many forms and meanings of form and this is so even for organic form That wise scientist philosopher engineer Lancelot Law

Whyte struggled in a place neighboring to Burwick's and his essay of thirty years ago might be a scientist's preface to Burwick and his colleagues see Whyte's *Accent on Form* (N.Y.: Harper, 1954) and his *Symposium of 1951 Aspects of Form* (London: Percy Lund Humphries, 1951) and Indiana University Press, 1961 itself arranged in honor of D. Arcy Thompson's classical monograph *On Growth and Form*. Philosophy and history of science must deal with these issues and with the mixture of hard-headedness and imagination that they demand. *Classics Transformed in Jewish, Israeli, and Palestinian Receptions*, 2025-02-19 *Classics Transformed in Jewish, Israeli, and Palestinian Receptions* invites the reader to view classical antiquity through the writings of poets, translators, and scholars emerging from modern Jewish diasporas, Mandatory Palestine, and the State of Israel who engaged with Greek and Roman literary precedents. Whereas these voices have up to now been mostly studied independently of one another as separate fields of research, this volume brings some of these distinct voices who nevertheless share a connection to Greco-Roman antiquity into conversation with one another. Taking its cue from the crisis of humanism following the Holocaust, the chapters take as their themes the destruction of home, displacement, and different forms of wandering and homecomings, drawing connections to acts of translation and transmission of the classics to form a picture of cultural and textual states of alterity. The volume shows that Jewish, Israeli, and Palestinian responses to the classics are entangled and even complementary despite their different trajectories. The chapters included here focus particularly on critical moments in Jewish and Palestinian existence when the reception of classical humanism is closely linked to issues of survival. On offer here is a historically grounded investigation into the ways Jews, Israelis, and Palestinians have used classical antiquity and classical philology to validate their identity in a rapidly changing society.
