Sizing Up The Senate:

Sizing Up the Senate Frances E. Lee, Bruce I. Oppenheimer, 1999-10 This book raises questions about one of the key institutions of American government the United States Senate and should be of interest to anyone concerned with issues of representation

Congress Reconsidered Lawrence C. Dodd, Bruce I. Oppenheimer, Ruth Bloch Rubin, C. Lawrence Evans, 2025-01-28 Since its first edition *Congress Reconsidered* was designed to make available the best contemporary work from leading congressional scholars in a form that is both challenging and accessible to undergraduates With their Thirteenth Edition Lawrence C Dodd Bruce I Oppenheimer and C Lawrence Evans and now Ruth Bloch Rubin from the University of Chicago continue this tradition as their contributors focus on how various aspects of Congress have changed over time With a strong focus to the historical development of political institutions in their role in preserving democratic government this bestselling volume remains on the cutting edge with key insights into the workings of Congress

The Politics of Constitutional Reform in North America Rainer-Olaf Schultze, 2013-06-29 In October 1999 some fifteen academic experts and government practitioners from Germany and North America gathered for two days at the University of Augsburg to discuss the topic of Constitutional Reform and Constitutional Jurisprudence in Canada and the United States The present volume documents the results of that conference a collaborative effort of the Department of Political Science University of Erlangen Nuremberg and the Institute for Canadian Studies University of Augsburg In organizing this workshop we were guided by two basic sets of ideas and assumptions First all established democracies are regularly confronted with the need to adjust their constitutional order to changes in their environment lest democratic stability be transformed into rigidity in many western nations including Canada and the United States developments such as the crisis of the Keynesian welfare state or the emergence of increasingly heterogeneous postmodern societies have ushered in an era of heightened yet not always successful constitutional reform activity Secondly however there is no unique path towards or model of an optimal constitutional order however defined rather constitutional reform processes their underlying normative principles and their outcomes are strongly path and context dependent Therefore the participants of the workshop and authors of this volume were asked to examine the specific preconditions context nature and impact of recent constitutional reform processes in the United States and Canada

Congress and Its Members Roger H. Davidson, Walter J. Oleszek, Frances E. Lee, Eric Schickler, James M. Curry, 2023-09-05 *Congress and Its Members* has been the gold standard for Congress courses for thirty years Now in its 19th edition the book offers comprehensive coverage of the U S Congress and the legislative process by examining the tension between Congress as a lawmaking institution and as a collection of politicians constantly seeking reelection The 19th edition covers the outcomes of the 2022 election and subsequent changes in congressional organization and leadership including the protracted battle for the House speakership The book's election coverage details regional shifts in party strength voting behavior the use of digital media in congressional elections and state level efforts to expand and

restrict voting access Up to date information on the diversity of the new Congress in terms of race ethnicity gender and professional background is provided The politics and outcomes of the 2022 primary elections are covered as well Always balancing great scholarship with currency the book features lively case material along with relevant data charts maps and photos

Rural Versus Urban Suzanne Mettler,Trevor E. Brown,2025-09-23 How the urban rural divide drives partisan polarization Why have Americans living in different places come to experience politics as a battle between us and them In *Rural Versus Urban* Suzanne Mettler and Trevor Brown argue that political polarization is not just about red states and blue states or coastal elites who alienate those in fly over country Instead polarization permeates every region and every state and has become organized through a pernicious rural urban division Mettler and Brown explain the evolution of this gulf across five decades charting political trends in both places Drawing on data on individuals communities and members of Congress as well as interviews with local party leaders and former elected officials they show how the divide emerged and why it poses a threat to democracy Until about thirty years ago both political parties attracted support from rural and urban voters But after place based inequality grew due to deregulation and trade liberalization white rural dwellers began to view urban people and Democrats as affluent elites out of touch with their needs Politically active evangelical churches antiabortion organizations and gun groups helped deepen the divide encouraging many of these rural residents to become staunch supporters of the GOP Now regional one party rule in rural America gives Republicans a systematic edge for gaining control of crucial political institutions including the Senate House of Representatives the Presidency and even the Supreme Court This is helping enable an extremist political party and pushing democracy to the brink Mettler and Brown argue that the divide can be repaired but only if the Democrats build their own robust local organizations and offer citizens a meaningful choice

Overcoming Trumpery Norman Eisen,2022-03-22 How to restore ethics the rule of law and democracy as the centerpieces of U S government U S government has been repeatedly renewed sometimes simply repaired and other times reinvented during its over 230 years Major aspects of the federal system were broken again during the four years of the Trump administration so it s time for even more fixes This book sets out the damage that was done and important ideas on how the repairs should be made focusing on ethics the rule of law and democracy Distinguished scholars and practitioners have come together not only to address what went awry over the past four years but also the deeper weaknesses that have become more evident and how those weaknesses can be repaired The problem areas range from ethics and conflicts of interest to the Hatch Act and big money in politics and from independence at the Department of Justice and government transparency to reestablishing Congressional oversight and the government s role in the broader areas of how Americans vote and of international ethics and rule of law *Overcoming Trumpery* provides a framework to understand the significant developments that are already happening in Washington with respect to ethics the rule of law and democracy These include the For the People Act the Protecting Our Democracy Act and President Biden s Executive Order on Ethics The ideas outlined

in this book for fixing flaws in federal governance come from the more than century of collective experience of its expert authors The book represents a burst of sunshine after a very dark period in the nation s history *Space Policy for the Twenty-First Century* Wendy N. Whitman Cobb,Derrick V. Frazier,2024-04-30 National Security Space Institute 2025 Space Professional Reading List A foundational accessible overview of space policy in the United States This book provides readers with the first comprehensive overview of major space policies in the United States and a framework through which to analyze them It examines all facets of space policy civilian military and commercial and presents this material accessibly for use by readers at multiple levels from undergraduate courses to government practitioners making and implementing policy The first section offers a history of space exploration focusing on the US within a global context The second section looks at the actors and institutions involved in setting space policy in a government based on the separation of powers including the president Congress NASA and the Department of Defense The book concludes with chapters on the different sectors of space policy as well as questions this field will face in the future As policymakers and business leaders become increasingly aware of the everyday systems that depend on space technologies such as communications mapping and weather monitoring and as space becomes a more visible arena for commercial competition potential humanitarian gain and military threats *Space Policy for the Twenty First Century* helps students and professionals navigate the complexity of space as a policy area **10 Steps to Repair American Democracy** Steven Hill,2015-12-03 In *10 Steps to Repair American Democracy* Steven Hill addresses the problems plaguing the US political system outlining his ten step program to improve American democracy He proposes specific reforms to give voters more choices at the ballot box boost voter turnout reduce Senate filibustering and end excessive corporate dominance In the face of mounting cynicism about the US political system *10 Steps to Repair American Democracy* is a refreshing blueprint for how to resurrect the Founders democratic vision It will change the way you think about US politics Debating Reform Richard J. Ellis,Michael Nelson,2016-08-04 *Debating Reform* Conflicting Perspectives on How to Fix the American Political System Third Edition edited by Richard J Ellis and Michael Nelson gets readers to consider the key issues in reforming political institutions Written specifically for this volume each pro or con essay is contributed by a top scholar and examines a concrete proposal for reforming the political system By focusing on institutions rather than liberal or conservative public policies the essays move readers to leave behind ideology and grapple with evidence and then draw their own conclusions and build their own arguments **The Oxford Handbook of the American Congress** Eric Schickler,Frances E. Lee,2013-03-14 No legislature in the world has a greater influence over its nation s public affairs than the US Congress The Congress s centrality in the US system of government has placed research on Congress at the heart of scholarship on American politics Generations of American government scholars working in a wide range of methodological traditions have focused their analysis on understanding Congress both as a lawmaking and a representative institution The purpose of this volume is to take stock of this impressive and diverse literature identifying

areas of accomplishment and promising directions for future work The editors have commissioned 37 chapters by leading scholars in the field each chapter critically engages the scholarship focusing on a particular aspect of congressional politics including the institution s responsiveness to the American public its procedures and capacities for policymaking its internal procedures and development relationships between the branches of government and the scholarly methodologies for approaching these topics The Handbook also includes chapters addressing timely questions including partisan polarization congressional war powers and the supermajoritarian procedures of the contemporary Senate Beyond simply bringing readers up to speed on the current state of research the volume offers critical assessments of how each literature has progressed or failed to progress in recent decades The chapters identify the major questions posed by each line of research and assess the degree to which the answers developed in the literature are persuasive The goal is not simply to tell us where we have been as a field but to set an agenda for research on Congress for the next decade The Oxford Handbooks of American Politics are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics Each volume focuses on a particular aspect of the field The project is under the General Editorship of George C Edwards III and distinguished specialists in their respective fields edit each volume The Handbooks aim not just to report on the discipline but also to shape it as scholars critically assess the scholarship on a topic and propose directions in which it needs to move The series is an indispensable reference for anyone working in American politics General Editor for The Oxford Handbooks of American Politics George C Edwards III

The Captivating World of E-book Books: A Detailed Guide Revealing the Advantages of E-book Books: A World of Ease and Flexibility Kindle books, with their inherent mobility and simplicity of availability, have liberated readers from the limitations of physical books.
