The Entrepreneurial Journey John J. Waldron, 2019-11-12 A Balanced Approach Emotional awareness is critical for entrepreneurs throughout every stage of the business life cycle As their businesses begin and then mature entrepreneurs face increasingly complex emotional challenges that they must navigate as they take their businesses from an idea to the maturation period of growth and expansion to succession planning and divestiture to the day they step aside John Waldron has leveraged his own entrepreneurial experience and that of the hundreds of business owners he has counseled to build an essential framework that addresses the important balance between the tangible and intangible complexities of each stage of The Entrepreneurial Journey To achieve the greatest level of success you have to balance the technical with the emotional The Entrepreneurial Journey will help potential entrepreneurs navigate both so so that they may bring their businesses to their full potential

Railways: The Backbone of America Pasquale De Marco, Railways The Backbone of America is the definitive history of the railroad in the United States From the early days of the republic when the nation was little more than a string of settlements along the Atlantic coast to the present day when the railroad spans the continent and connects every major city the railroad has played a vital role in the growth and development of the United States In this comprehensive volume Pasquale De Marco explores the technological innovations that made the railroad possible the people

who built and operated the railroads and the impact that the railroad has had on American society and culture The book is packed with fascinating stories and little known facts making it a must read for anyone interested in American history transportation or engineering Some of the topics covered in the book include The construction of the Transcontinental Railroad a monumental achievement that united the nation and opened up the West The role of the railroad in the Civil War transporting troops and supplies to the front lines The rise of the railroad barons such as Cornelius Vanderbilt and J P Morgan and their ruthless competition for control of the industry The impact of the railroad on the American economy helping to fuel the Industrial Revolution and the growth of cities The development of passenger rail travel from the luxurious trains of the early 20th century to the high speed trains of today The decline of passenger rail in the mid 20th century due to the rise of the automobile and the airplane The resurgence of passenger rail in recent years as people seek out more sustainable and environmentally friendly transportation options Railways The Backbone of America is a comprehensive and authoritative history of the railroad in the United States It is a must read for anyone interested in American history transportation or engineering If you like this book write a review Magnify Your Purpose Stacey Weckstein,2018-02-06 Do what you love and you ll never work a day in your life and with the help of this inspiring self help guide you can do just that What s holding you back from doing what you love Do you want to create a business that reflects who you are And stop feeling guilty about what others think you should do with your life In Magnify Your Purpose creative business coach Stacey Weckstein founder of Radiant Mind and Body LLC will help you find your inner voice and the confidence to bring your authentic self out into the world She will help you navigate around the pitfalls where too many creative professionals and new coaches get stuck trying to fit into traditional ways of doing business Best of all she will teach you as she has taught herself and many others how to turn your passions into a purposeful career Join Stacey on the journey of reconnecting with yourself and manifesting your dreams **My Half of the Conversation** Doris Markland,2017-10-06 If theres one thing thats had a bad rap its age Few people speak of it as something to look forward to yet seniors shudder at the thought of being young again Isnt it wonderful how things work out This author admits that once she learned she could sit down without guilt she sat down a lot From her chair she looks back on the day she spoke out of turn in first grade and on college assignment made a big blunder in church She declined three brilliant job opportunities at twenty but found her voice years later Now on her blog she writes for sharp older people and their middle aged kids and in the last two years she has published two books Known for her easy flow of words Mrs Markland has the rare ability to speak lightly yet sincerely about some of lifes deepest and most challenging questions Have we lived before Will we be judged and sent to heaven or hell Will we live again As we clean out our closets can we clean out our minds Is there anyone exactly like you Are you spiritual or are you religious Scattered throughout her writing are insights to help searchers find their path recognize a desire or purpose in life and organize themselves to fulfill it It is never too late she believes and at 92 she indeed is the good example Her true

stories describe a life of learning and a search leading to the understanding that life is a school where we learn and grow as souls with bodies not bodies with souls Coordinating Transportation Services for the Elderly and Handicapped ,1979

Driving Green Transportation System Through Artificial Intelligence and Automation Alex Khang,2025-01-11

This book is designed to help transportation professionals and construction experts to develop and implement successful smart systems leveraging the current trends equipment and advanced technologies to drive the green transportation system development Artificial intelligence AI is a new direction that has opened a revolution in technology and smart applications and it is also the basis for creating a green environment in the net zero era Therefore machines devices self driving car and robots controlled by artificial intelligence based systems are now the model of a smart transportation ecosystem for which all these technologies are referred to as green industries In past years the idea of making a green environment has been existing and moving on the society 5 0 being as a country strategy and today AI technology continues its development on this prototype Nowadays AI has begun actions to resemble a person in a real sense and the idea of human liked robotics put forward by scientists has started to be realized and will probably complete its development as living machines in the near future AI has many subsystems and application in various industries some of which have automation more accurately and are more integrated in modern industries This book also targets a mixed audience of specialists analysts engineers scholars researchers academics professionals and students from different communities to share and contribute new ideas methodologies technologies approaches models frameworks theories and practices to resolve the challenging issues associated with the leveraging of AI and Industrial Internet of Things IIoT in green transportation ecosystem **Writing a**
