to be Happy, With a Dysfunctional Family, 100 of the Worst Ideas in History Michael N. Smith, Eric Kasum, 2014-06-03 What were they thinking? Ever since Adam snacked on the forbidden fruit and was chased naked out of the Garden of Eden, mankind has bitten off a bevy of bad ideas. From skinny dipping Presidents to toxic tooth fillings to singing pop stars who can't carry a tune, 100 of the Worst Ideas in History is a celebration of humanity's historical and often hysterical missteps that have started wars, sunk countries, wrecked companies, scuttled careers, lost millions, and even endangered the Earth. Discover how a confused chauffeur helped start World War I, who turned down the greatest product placement opportunity in Hollywood history, how a Chicago White Sox game helped hasten the demise of disco, the toad that nearly ate Australia, the most dangerous children's game ever invented, and so much more of so much less. Spanning politics, pop culture, fashion, sports, technology, and more, this irreverent and witty book is packed with fun photos and sidebars tracing how these thundering brainstormers turned into blundering brain farts, and the astonishing impacts our faux pas and foibles still have on us today. *The A Level Mindset* Steve Oakes, Martin Griffin, 2016-02-26 In *The A Level Mindset*, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits, and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice, and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills, and attitudes; they understand how to learn and revise effectively; they're determined and organised; they give more discretionary effort; and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts. How can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck, and Angela Lee Duckworth, and informed by their collective 30-plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical, and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence, and determination. Suitable for teachers, tutors, heads of

sixth form or anyone else who wants to help A level students achieve their potential The A Level Mindset offers 40 easy to use activities to develop students resilience commitment buoyancy motivation and determination It could be your key to transforming student outcomes
