Coleridge,2019-08-06 Volume 2 of 2 Coleridge s nephew son in law and first editor Henry Nelson Coleridge began at the end
of 1822 a record of Coleridge s remarks as a way of preparing an anthology of the interests and thought of the great poet and
critic His manuscripts gathered to form the major text of his new edition include passages on relatives friends and various
censorable topics omitted from the Table Talk of 1835 and unpublished until now These two volumes also contain talk
recorded by other listeners from 1798 until Coleridge s death in 1834 Some of these records have not been previously
published some are published from manuscripts that differ from versions previously known Also included are previously
unpublished remarks by Wordsworth Along with a bibliography of earlier editions of Table Talk and other useful appendixes
Carl Woodring s edition reprints the second edition 1836 which differs from the manuscripts more extensively than the
edition of 1835 THis is the first fully annotated edition of a work that long remained more popular in the United Kingdom
than any of the works in prose published by Coleridge himself The two volumes make a convenient encyclopedia of his ideas
and interests Carl Woodring is George Edward Woodberry Professor of Literature Emeritus at Columbia University Originally
published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available
previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the
original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the
