Stoics By Rist John M:

The Stoics John M. Rist, 2021-05-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978 *PLOTINUS Ennead IV.7* Barrie Fleet, 2016-03-30 Ennead IV 7 is a very early treatise second according to Porphyry's chronological table and unlike the many treatises devoted to attempts at untangling various issues Plotinus found problematic in Plato's thinking this one presents the teachings of the other main schools current in Plotinus day the Stoics Epicureans Pythagoreans and Peripatetics all of whom presented soul as something material or as contingent upon material soul and so as being neither truly immortal nor imperishable It includes observations on many mainly Stoic doctrines on perception memory sensation thought virtue powers of material bodies mixture and reproduction Chapters 1-83 on Pythagorean attunement 84 and on Peripatetic entelechy 85 In Chapters 9-10 Plotinus presents in broad terms Plato's doctrines on soul's immortality mainly that of the individual soul but a fortiori that of the soul of the cosmos These chapters offer some of Plotinus most powerful prose He is not concerned to prove the soul's immortality that was an uncontroversial tenet of Platonism to be taken for granted In this treatise Plotinus is laying down the indisputable foundations for his later writings **The Stoic Tradition from Antiquity to the Early Middle Ages** Marcía L. Colish, 1990 *The Thread of Connection* C.C. Barfoot, 2022-05-20 **Asceticism** Vincent L. Wimbush, Richard Valantasis, 2002 The only comprehensive reference work on asceticism with a multicultural multireligious and multidisciplinary perspective Asceticism offers a sweeping view of an elusive and controversial aspect of religious life and culture Providing a broad historical and comparative perspective contributions by more than forty preeminent scholars in a wide range of fields and disciplines explore asceticism from antiquity to the present in European Near Eastern African Asian and North American settings An incomparable reference Asceticism offers a model for an understanding of a most important dimension of religious life **The Promise of Not-Knowing** David E. Fredrickson, 2022-04-12 David E. Fredrickson asks a key question for interpreters of the New Testament in the twenty first century Do established ways of reading the New Testament need to be challenged and new ones explored His answer is yes but he takes care not to dismiss readers' experiences in the previous two millennia He values the readings of the past even as he contests the insights of scholars preachers monks nuns skeptics the devout the disinterested the keenly interested and all the rest who have tried to make sense of the earliest Christian writings Fredrickson does not want to give an impression of I know better than them But he goes on to say that strange as it sounds not knowing is actually the point of this book More than anything else not knowing is I believe the key to reading the New Testament in the twenty first century Fredrickson claims that the reduction of a text to its usefulness is something a deconstructive approach seeks to avoid That leads to readings in which practicality

enjoys a privilege over mystery knowing wins out over not knowing and control triumphs over hope Ultimately his goal in this book is to give mystery hope and not knowing a chance For Fredrickson the experience of reading is more than coming to know something or receiving information and the more that he has in mind exists in the shock of encountering some other or something that is not easily assimilated to an already known world a familiar horizon or the repeatability of language What if reading the New Testament meant giving an unexpected other a chance to take place and to change the world you thought was an unchangeable given What if we thought of reading as a way of preparing for what postmodernism calls an event

George Berkeley and Early Modern Philosophy Stephen H. Daniel, 2021-04-01 Stephen Daniel presents a study of the philosophy of George Berkeley in the intellectual context of his times with a particular focus on how for Berkeley mind is related to its ideas Daniel does not assume that thinkers like Descartes Malebranche or Locke define for Berkeley the context in which he develops his own thought Instead he indicates how Berkeley draws on a tradition that informed his early training and that challenges much of the early modern thought with which he is often associated Specifically this book indicates how Berkeley's distinctive treatment of mind as the activity whereby objects are differentiated and related to one another highlights how mind neither precedes the existence of objects nor exists independently of them This distinctive way of understanding the relation of mind and objects allows Berkeley to appropriate ideas from his contemporaries in ways that transform the issues with which he is engaged The resulting insights for example about how God creates the minds that perceive objects are only now starting to be fully appreciated

Saint Paul and Philosophy Gert Jan van der Heiden, George Henry van Kooten, Antonio Cimino, 2017-08-07 The much acclaimed present day philosophical turn to the letters of Saint Paul points to a profound consonance between ancient and modern thought Such is the bold claim of this study in which scholars from contemporary continental philosophy new testamentary studies and ancient philosophy discuss with each other the meaning Paul's terms *pistis* faith In this volume this theme discusses in detail the threefold relation between Paul and 1 continental thought 2 the Graeco Roman world and 3 political theology It is shown that *pistis* does not only concern a mode of knowing but rather concerns the human ethos or mode of existence as a whole Moreover it is shown that the present day political theological interest in Paul can be seen as an attempt to recuperate Paul's *pistis* in this comprehensive sense Finally an important discussion concerning the specific ontological implications and background of this reinterpretation of *pistis* is examined by comparing the ancient ontological commitments to those of the present day philosophers Thus the volume offers an insight in a crucial consonance of ancient and modern thought concerning the question of *pistis* in Paul while not forgetting to stipulate important differences

Epictetus and Laypeople Erlend D. MacGillivray,2020-07-15 Erlend D MacGillivray s Epictetus and Laypeople A Stoic Stance toward the Rest of Humanity explores the understanding that ancient philosophers had towards the vast majority of people at the time those who had no philosophical knowledge or adherence laypeople After exploring how philosophical identity was established in antiquity this book examines the Stoic philosopher Epictetus who reflected upon laypeople with remarkable frequency MacGillivray shows that Epictetus maintained his stance that a small and distinguishable group of philosophically aware individuals existed alongside his conviction that most of humanity can be inclined to act in accordance with virtuous principles by their dependence upon preconceptions civic law popular religion exempla and the adoption of primitive conditions among other means This book also highlights other Stoics and their commentators to show that the means of lay reform that MacGillivray explores were not just implicitly understood in antiquity but reveal a well developed system of thought in the school which has until now evaded the notice of modern scholars

Divine Perfection and Human Potentiality Jarred A. Mercer,2019-01-02 The place of Hilary of Poitiers in the debates and developments of early Christianity is tenuous in contemporary scholarship His invaluable historical position is unquestioned but the coherence and significance of his own thought is less certain In this book Jarred A Mercer makes a case for understanding Hilary not only as an important historical figure but as a noteworthy and independent thinker Divine Perfection and Human Potentiality offers a new paradigm for understanding Hilary s work De Trinitate The book contends that in all of Hilary s polemical and constructive argumentation

which is essentially trinitarian he is inherently developing an anthropology The work therefore reinterprets Hilary's overall theological project in terms of the continual and for him necessary anthropological corollary of trinitarian theology to reframe it in terms of a trinitarian anthropology The coherence of Hilary's work depends upon this framework and without it his thought continues to elude his readers Mercer demonstrates this through following Hilary's main lines of trinitarian argument out of which flow his anthropological vision These trinitarian arguments unfold into a progressive picture of humanity from potentiality to perfection

The Construction of Homosexuality David F. Greenberg, 2008-10-29 At various times homosexuality has been considered the noblest of loves a horrible sin a psychological condition or grounds for torture and execution David F Greenberg's careful encyclopedic and important new book argues that homosexuality is only deviant because society has constructed or defined it as deviant The book takes us over vast terrains of example and detail in the history of homosexuality Nicholas B Dirks New York Times Book Review

Paul's Gift from Philippi Gerald W. Peterman, 1997-03-28 This book is a study of Paul's response to the financial help he received from the church in Philippi whilst he was a prisoner in Rome Philippians 4:10-20 has always puzzled commentators because of its seemingly strained and tortured mode of thanks Word studies psychological studies and literary studies have all failed to provide insight into the text which is unique in the Pauline corpus Using contemporary sources Dr Peterman re-examines this difficult passage in the light of Greek and Roman practices and language regarding the exchange of gifts and favours in society He concludes that gift exchange or social reciprocity with its expectations and obligations permeated every level of society in Paul's day and that Paul's seemingly ungracious response was an attempt to create a new Christian attitude to gifts and to giving

Augustine's Early Theology of Image Gerald P. Boersma, 2016-01-15 Gerald P Boersma examines Augustine's early theology of the image of God or *imago dei* and shows that he affirms that both Christ and the human person are the *imago dei* Boersma contextualizes Augustine's theology prior to his ordination 386-391 by demonstrating that it represents a significant departure from earlier Latin and Nicene theologies of image
