III. А**, 1971 *Sputnik*, 1971 The End of Peasantry? Grigory Ioffe, Tatyana Nefedova, Ilya Zaslavsky, 2006-10-19 The End of Peasantry examines the dramatic recent decline of agriculture in post Soviet Russia Historically Russian farmers have encountered difficulties relating to the sheer abundance of land the vast distances between population centers and harsh environmental conditions More recently the drastic depopulation of rural spaces decreases in sown acreage and overall inefficiency of land usage have resulted in the disruption and spatial fragmentation of the countryside For many decades rural migration has been a selective process

resulting in the most enterprising and self motivated people leaving the rural periphery The new agricultural operators representing nascent but aggressive Russian agribusiness have difficulty co-opting traditional rural communities afflicted by profound social dysfunction The contrast between agriculture in proximity to large cities and in their hinterlands is as sharp as ever and some vacant niches are increasingly occupied by ethnically non-Russian migrants All of these conditions existed to some degree in pre-Soviet times but they have been exacerbated since Russia took steps toward a market economy Understudied and often underestimated in the West the crisis facing Russian agriculture has profound implications for the political and economic stability of Russia The authors see hope in the significant increase in land use intensity on vastly diminished farmland The lessons gathered from this thoroughly researched study are far-reaching and relevant to the disciplines of Slavic and European studies agriculture political science economics and human geography

The Environs of Russian Cities Grigorii Ioffe, Tat'iana Grigor'evna Nefedova, 2000 This study focuses on strips of land girding large cities in Russia Applying the term suburb to these strips would generate misleading associations It's Russian counterpart has derived from a centripetal urban orientated migration the Russian Prigorod is stepping stone to the city not out of it as is generally the case in the West

Exporters-Importers Directory , Russia's Regional Identities Edith Clowes,Gisela Erbslöh,Ani Kokobobo,2018-01-17 Contemporary Russia is often viewed as a centralised regime based in Moscow with dependent provinces made subservient by Putin s policies limiting regional autonomy This book however demonstrates that beyond this largely political view by looking at Russia s regions more in cultural and social terms a quite different picture emerges of a Russia rich in variety with different regional identities cultures traditions and memories The book explores how identities are formed and rethought in contemporary Russia and outlines the nature of particular regional identities from Siberia and the Urals to southern Russia from the Russian heartland to the non Russian republics **Moscow** Timothy J. Colton,1995 Linchpin of the Soviet system and exemplar of its ideology Moscow was nonetheless instrumental in the Soviet Union s demise It was in this metropolis of nine million people that Boris Yeltsin during two frustrating years as the city s party boss began his move away from Communist orthodoxy Colton charts the general course of events that led to this move tracing the political and social developments that have given the city its modern character He shows how the monolith of Soviet power broke down in the process of metropolitan governance where the constraints of censorship and party oversight could not keep up with proliferating points of view haphazard integration and recurrent deviation from approved rules and goals Everything that goes into making a city from town planning housing and retail services to environmental and architectural concernsfigures in Colton s account of what makes Moscow unique He shows us how these aspects of the city s organization and the actions of leaders and elite groups within them coordinated or conflicted with the overall power structure and policy imperatives of the Soviet Union Against this background Colton explores the growth of the anti Communist revolution in Moscow politics as well as fledgling attempts to establish democratic institutions and a market economy **Russian Novelists in the Age of Tolstoy and Dostoevsky** J. Alexander Ogden,Judith E. Kalb,2001 Provides a detailed portrait of the styles concerns and historical involvement of the novel in Russia in the second half of the nineteenth century representing an artistic range from master stylists to those who were more a part of popular culture and are important as a reflection of the flavor of the era rather than as artistic exemplars
