highlight women's history and African American history two areas in which scholarship has proliferated during the past two decades. The history of entertainment in Tennessee is also well represented in this volume including for example hundreds of citations for writings about Elvis Presley and for works that treat Nashville and Memphis as major show business centers. The Literature section meanwhile includes citations for fiction and poetry relating to Tennessee history as well as for critical works about Tennessee writers. Throughout the editors have strived to achieve a balance between comprehensive coverage and the need to be selective. The result is a volume that will benefit researchers for years to come. The Editors W Calvin Dickinson is professor of history at Tennessee Technological University. Eloise R Hitchcock is head reference librarian at the University of the South.

Deep History, Secular Theory Luther Martin, 2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs. This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987. The contents of this collected volume represent Martin's shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion. He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university. The twenty five contributions collected in this volume are selected from over one hundred essays, articles and book chapters published over a long and industrious career and are representative of Martin's work over the past two decades.

Rotary International and the Selling of American Capitalism Brendan Goff, 2021-07-06 Rotary International spreads America's good news. The organization spent the interwar years convincing Main Street and the world at large that America's promise lay in cooperation and service under capitalism values that could knit the globe together. In the process Brendan Goff argues Rotary became an extension of US power.

Fatal Words and Friendly Faces Larry G. Ehrlich, 2000 On February 19 1998 the AAA Foundation for Traffic Safety reported that more than 12 000 people had been injured in incidents of road rage. In light of modernity's rapid strides forward in electronic communication and lagging efforts to explore human nature Larry G Ehrlich's book focuses on the architecture of human communication behavior. It is divided into three sections which deal with intrapersonal interpersonal and public communication. This readable book not only offers a discussion on the most recent research in information technology and on relationships in a global community but it is a truly interdisciplinary approach to communication behavior.

Studies in Hellenistic Religions Luther H. Martin, 2018-02-26 This selection of essays by Luther Martin brings together studies from throughout his career both early as well as more recent in the various areas of Graeco Roman religions including mystery cults Judaism Christianity and Gnosticism. It is hoped that these studies which represent spatial communal and cognitive approaches to the study of ancient religions might be of interest to those concerned with the structures and dynamics of religions past in general as well as to scholars who might
