## **Stonemason Donald Macleods Chronicle Of Scotlands Highland Clearances:**

**The Stonemason** Donald Macleod, 2001-05-30 Presents first person account of a man who along with his family and neighbors was evicted and persecuted during Scotland's 19th century Highland Clearances when landlords replaced their tenants with livestock

**Debating the Highland Clearances** Eric Richards, 2007-07-12 Storm clouds always gather over the story of the Highland Clearances The eviction of the Highlanders from the glens and straths of the Highlands and Islands of the north of Scotland still causes great historical dispute more than a century after the events The Highland Clearances also generated a great deal of contemporary controversy and documentation The record comes in diverse forms and with radically different provenances offering excellent material for exercises in historical analysis and selection Debating the Highland Clearances introduces the Highland Clearances as a classic historical problem Eric Richards reviews the historical debate and examines the methods and sources employed by the combatants past and present The debates among historians novelists politicians and economists are no less passionate today and raise major questions about interpretation and the appropriate frame of reference for the noisy and continuing public debate about the Highland Clearances This book prese

**Scottish Exodus** James Hunter, 2011-03-25 Millions of Scots have left their homeland during the last 400 years Until now they have been written about in general terms Scottish Exodus breaks new ground by taking particular emigrants drawn from the once powerful Clan MacLeod and discovering what happened to them and their families These people became among other things French aristocrats Polish resistance fighters Texan ranchers New Zealand shepherds Australian goldminers Aboriginal and African American activists Canadian mounted policemen and Confederate rebels One nineteenth century MacLeod even went so far as to swap his Gaelic for Arabic and his Christianity for Islam before settling down comfortably in Cairo This gripping account of Scotland's worldwide diaspora is based on unpublished documents letters and family histories It is also based on the author's travels in the company of today's MacLeods some of them still in Scotland others further afield Scottish Exodus is a tale of disastrous voyages famine and dispossession the hazards of pioneering on faraway frontiers But it is also the moving story of how people separated from Scotland by hundreds of years and thousands of miles continue to identify with the small country where their journeyings began

**Set Adrift Upon the World** James Hunter, 2015-10-15 This true story of a mass eviction in nineteenth century Scotland is a moving gripping definitive account of a struggle for survival Scots Magazine A Saltire Society History Book of the Year They would be better dead they said than set adrift upon the world But set adrift they were thousands of them their communities destroyed their homes demolished and burned Such were the Sutherland Clearances an extraordinary episode involving the deliberate depopulation of much of a Scottish Highlands county What was done in the course of it was planned and carried

out by a small group of men and one woman seeking a more profitable use of the land Most of those involved wrote a great deal about their actions intentions and feelings and much of it has been preserved There are no equivalent collections of material from those whose communities ceased to exist Their feelings and fears are harder to access but by no means irrecoverable In this book James Hunter tells the story of the Sutherland Clearances His research took him to archives in Scotland England and Canada to the now deserted valleys of Sutherland to the frozen shores of Hudson Bay The result is a story of a people's struggle for survival in the face of tragedy and disaster covering experiences not featured in any previous such account Detailed and unsparing The author is careful to present the evidence for all he records *London Review of Books*

**The Privatization of the Oceans** Rögnvaldur Hannesson, 2004 Why exclusive use rights in particular individual transferable quotas provide the most efficient way to use fishing resources theory plus case studies of ITQs in six countries

**Time's Up!** Keith Farnish, 2009 From the Publisher People know that the climate is changing for the worse that species are being driven to extinction at a rapidly increasing rate and that entire ecosystems are becoming shadows of their former richness They know but they do not understand The global environmental crisis is closing in on humanity from all directions yet the crisis barely registers on this culture's list of problems As we stand around humanity is doomed to a collapse that may leave only a few nomads and a toxic barely survivable Earth in its wake So why is nothing being done beyond changing light bulbs recycling and buying organic food It's certainly not for a lack of good reasons Humans have no motivation stronger than survival yet the culture that dominates the culture we call industrial civilization has created a set of priorities that values financial wealth the possession of superfluous goods and short cheap thrills above that most basic need In short we are prepared to die in order to live a life that is killing us Time's Up is about changing our behavior The book describes how our actions affect the very things on Earth that we depend on for survival at scales that we rarely contemplate It arms us with the tools to free us from a culture that has blinded us for centuries and which will allow us to live in a way that will give Earth and ourselves a viable future
