Stones Of Silence Journeys In The Himalaya:

Stones of Silence George B. Schaller, 1980 **Beyond the Snow Leopard** Bill Crozier, 2024-09-03 The sighting of snow leopard tracks in the depths of a Ladkhi winter set off a ten year journey through a land of mountains Buddhism wild creatures and adventurers You should come with me to Dolpo next year said Ade No further encouragement was required Dolpo was the land of the snow leopard immortalised by the American author Peter Matthiessen Without hesitation I said I was going I wanted to follow in the footsteps of Matthiessen and I dared to hope that I might see a snow leopard Australian based British born doctor Bill Crozier sets out to seek the snow leopard in the Himalayas Ladakh Nepal and Tibet and finds adventure friendship wonder and enlightenment His guides are the twentieth century writers of the Himalayas Peter Matthiessen The Snow Leopard George B Schaller Stones of Silence David Snellgrove Himalayan Pilgrimage Eric Shipton That Untravelled World and the profound writings of Buddhist monks over the centuries Beyond the Snow Leopard delves in particular into the ancient land of Dolpo and journeys to the birthplace of the Buddha at Lumbini Crozier captures the real side of travelling through this contested and harsh region with friends and family and relates the joys of a lifetime loving the outdoors and mountains Anderson's Travel Companion Compiled by Sarah Anderson, 2016-12-05 A selection of the best in travel writing with both fiction and non fiction presented together this companion is for all those who like travelling like to think about travelling and who take an interest in their destination It covers guidebooks as well as books about food history art and architecture religion outdoor activities illustrated books autobiographies biographies and fiction and lists books both in and out of print Anderson s Travel Companion is arranged first by continent then alphabetically by country and then by subject cross referenced where necessary There is a separate section for guidebooks and comprehensive indexes Sarah Anderson founded the Travel Bookshop in 1979 and is also a journalist and writer on travel subjects She is known by well known travel writers such as Michael Palin and Colin Thubron Michael Palin chose her bookshop as his favourite shop and Colin Thubron and Geoffrey Moorhouse among others made suggestions for titles to include in the Travel Companion

Tiger Bone & Rhino Horn Richard Ellis, 2013-02-22 In parts of Korea and China moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze cages and a steel catheter is inserted into their gall bladders The dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns The bear may live as long as fifteen years in this state Rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility Booming economies and growing wealth in parts of Asia are increasing demand for these precious medicinals Already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction Richard Ellis one of the world s foremost experts in wildlife extinction brings his alarm to the pages of Tiger Bone Rhino Horn in the hope that through an exposure of this drug trade something can be done to save the animals most direly threatened Trade in animal parts for traditional Chinese medicine is a

leading cause of species endangerment in Asia and poaching is increasing at an alarming rate Most of traditional Chinese medicine relies on herbs and other plants and is not a cause for concern Ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical One hundred years ago there were probably 100 000 tigers in India South China Sumatra Bali Java and the Russian Far East The South Chinese Caspian Balinese and Javan species are extinct There are now fewer than 5 000 tigers in all of India and the numbers are dropping fast There are five species of rhinoceros three in Asia and two in Africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression In 1930 there were 80 000 black rhinos in Africa Now there are fewer than 2 500 Tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention Ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime **The Return of the**

Unicorns Eric Dinerstein,2003-07-02 Beginning in 1984 Eric Dinerstein led a team directly responsible for the recovery of the greater one horned rhinoceros in the Royal Chitwan National Park in Nepal where the population had once declined to as few as 100 rhinos The Return of the Unicorns is an account of what it takes to save endangered large mammals In its pages Dinerstein outlines the multifaceted recovery program structured around targeted fieldwork and scientific research effective protective measures habitat planning and management public awareness campaigns economic incentives to promote local guardianship and bold uncompromising leadership that brought these extraordinary animals back from the brink of extinction In an age when scientists must also become politicians educators fund raisers and activists to safeguard the subjects that they study Dinerstein s inspiring story offers a successful model for large mammal conservation that can be applied throughout Asia and across the globe Writing About Nature John A. Murray,2003-12-15 Originally published by

the Sierra Club in 1995 this handbook covers genres techniques and publication issues for aspiring writers scholars and students who want to share their experiences in nature and the outdoors *Wild Lives* Kathleen Weidner

Zoehfeld,2014-06-30 From the moment the very first animals two small bedraggled prairie dogs arrived at the Bronx Zoo in 1899 history was being made Zookeeping has steadily been evolving over the years Today animals that would once have been kept in iron cages roam freely in habitats similar to real prairies jungles and forests Wild Lives takes readers through a century of zookeeping at one of the most beloved zoos in the world and shares what zoologists have learned over the years about keeping wild animals This Land Is Your Land Michael J. Lannoo,2018-08-10 Field biology is enjoying a resurgence due to several factors the most important being the realization that there is no ecology no conservation and no ecosystem restoration without an understanding of the basic relationships between species and their environments an understanding

gleaned only through field based natural history With this resurgence modern field biologists find themselves asking fundamental existential questions such as Where did we come from What is our story Are we part of a larger legacy In *This Land Is Your Land* seasoned field biologist Michael J Lannoo answers these questions and more in a tale rooted in the people and institutions of the Midwest It is a story told from the ground up a rubber boot based natural history of field biology in America Lannoo illuminates characters such as John Wesley Powell William Temple Hornaday and Olaus and Adolph Murie homegrown midwestern field biologists who either headed east to populate major research centers or went west to conduct their fieldwork along the frontier From the pioneering work of Victor Shelford Henry Chandler Cowles and Aldo Leopold to contemporary insights from biologists such as Jim Furnish and historians such as William Cronon Lannoo s unearthing of American and particularly midwestern field biologists reveals how these scientists influenced American ecology conservation biology and restoration ecology and in turn drove global conservation efforts through environmental legislation and land set asides *This Land Is Your Land* reveals the little known legacy of midwestern field biologists whose ethos and discoveries have enabled us to preserve and understand not just their land but all lands **Savoring** Fred B. Bryant, Joseph

Veroff, 2017-09-29 This book is about savoring life the capacity to attend to the joys pleasures and other positive feelings that we experience in our lives The authors enhance our understanding of what savoring is and the conditions under which it occurs *Savoring* provides a new theoretical model for conceptualizing and understanding the psychology of enjoyment and the processes through which people manage positive emotions The authors review their quantitative research on savoring as well as the research of others and provide measurement instruments with scoring instructions for assessing and studying savoring Authors Bryant and Veroff outline the necessary preconditions that must exist for savoring to occur and distinguish savoring from related concepts such as coping pleasure positive affect emotional intelligence flow and meditation The book s lifespan perspective includes a conceptual analysis of the role of time in savoring *Savoring* is also considered in relation to human concerns such as love friendship physical and mental health creativity and spirituality Strategies and hands on exercises that people can use to enhance savoring in their lives are provided along with a review of factors that enhance savoring *Savoring* is intended for researchers students and practitioners interested in positive psychology from the fields of social clinical health and personality psychology and related disciplines The book may serve as a supplemental text in courses on positive psychology emotion and motivation and other related topics The chapters on enhancing savoring will be especially attractive to clinicians and counselors interested in intervention strategies for positive psychological adjustment

The Pig Who Sang to the Moon Jeffrey Moussaieff Masson, 2007-12-18 Jeffrey Moussaieff Masson s groundbreaking bestseller *When Elephants Weep* was the first book since Darwin s time to explore emotions in the animal kingdom particularly from animals in the wild Now he focuses exclusively on the contained world of the farm animal revealing startling irrefutable evidence that barnyard creatures have feelings too even consciousness Weaving history literature

anecdotes scientific studies and Masson's own vivid experiences observing pigs cows sheep goats and chickens over the course of five years this important book at last gives voice meaning and dignity to these gentle beasts that are bred to be milked shorn butchered and eaten Can we ever know what makes an animal happy Many animal behaviorists say no But Jeffrey Masson has a different view An animal is happy if it can live according to its own nature Farm animals suffer greatly in this regard Chickens for instance like to perch in trees at night to avoid predators and to nestle with friends The obvious conclusion They cannot be happy when confined twenty to a cage From field and barn to pen and coop Masson bears witness to the emotions and intelligence of these remarkable farm animals each unique with distinct qualities Curious intelligent self-reliant many will find it hard to believe that these attributes describe a pig In fact there is much that humans share with pigs They dream know their names and can see colors Mother cows mourn the loss of their calves when their babies are taken away to slaughter Given a choice between food that is nutritious or lacking in minerals sheep will select the former balancing their diet and correcting the deficiency Goats display quite a sense of humor dignity and fearlessness Indian goats have been known to kill leopards Chickens are naturally sociable they will gather around a human companion and stand there serenely preening themselves or sit quietly on the ground beside someone they trust For far too long farm animals have been denigrated and treated merely as creatures of instinct rather than as sentient beings Shattering the abhorrent myth of the dumb animal without feelings Jeffrey Masson has written a revolutionary book that is sure to stir human emotions far and wide

Snow Leopards in Nepal Pavel Kindlmann, 2022-09-30 Snow leopard *Panthera uncia* is an endangered species and its population size is steadily declining The main threats to the snow leopard include illegal trade conflict with locals human snow leopard conflict lack of conservation awareness and policy and climate change To avoid its extinction we badly need a good knowledge of its ecology distribution and population dynamics including interactions with its prey which will take into account various scenarios of changes in climate and human impact on snow leopard This book aims to put together a considerable amount of unpublished data collected by the co-author of most of the chapters Bikram Shrestha which might be useful for other researchers working on snow leopard In addition researchers might find it useful to have a key for determining the diet of snow leopard based on remnants of its food in its scats Last but not least based on the difficulty we experienced trying to compare and combine different sets of results we propose a general methodology for collecting data Thus this book is not an all-encompassing compendium but an attempt to fill some gaps in the literature and to show how to publish new data on snow leopard in a useful and workable way The first part describing the main features of snow leopard and its main prey ecology is followed by a comprehensive review of data available on its abundance and threats to its survival The third most extensive part the substance of the book presents new data from 15 years of intensive camera trapping combined with scat sampling These data are analyzed by means of advances GIS and genetic techniques which yields a large amount of conservation implications The purpose of this book is to provide a tool for both environmental managers and

researchers to find quickly what is known about this species for conservation planning and for an effective protection of snow leopard However enthusiasts interested in wild cats may welcome the book too *The Trail to Kanjiroba* William deBuys,2022-02-15 A revitalizing new perspective on Earthcare from Pulitzer Prize finalist William deBuys In 2016 and 2018 acclaimed author and conservationist William deBuys joined extended medical expeditions into Upper Dolpo a remote ethnically Tibetan region of northwestern Nepal to provide basic medical services to the residents of the region Having written about climate change and species extinction deBuys went on those journeys seeking solace He needed to find a constructive way of living with the discouraging implications of what he had learned about the diminishing chances of reversing the damage humans have done to Earth he sought a way of holding onto hope in the face of devastating loss As deBuys describes these journeys through one of Earth s remotest regions his writing celebrates the land s staggering natural beauty and treats his readers to deep dives into two scientific discoveries the theories of natural selection and plate tectonics that forever changed human understanding of our planet Written in a vivid and nuanced style evocative of John McPhee or Peter Matthiessen *The Trail to Kanjiroba* offers a surprising and revitalizing new way to think about Earthcare one that may enable us to continue the difficult work that lies ahead **Cancer and the Search for Selective Biochemical Inhibitors**

E.J. Hoffman,2007-06-25 The world of medicine has become splintered into two factions that of orthodoxy and its counterpart alternative or complementary medicine A problem with alternative medicine is of course that of anecdote and hearsay The solution the disclosure in an unassailable fashion of the underlying biochemical principles for alternative cancer therap

Land of the Tiger Valmik Thapar,1997-01-01 Showcases the diversity and beauty of the animals sharing the tiger s domain and documents the strain that modern and urban values place on India s ecosystems **Giant Pandas** Donald Lindburg,Karen Baragona,2004-08-23 Combines the latest findings from the field and the laboratory with panel and workshop summaries from a recent international conference *Travelers' Tales Nepal* Rajendra S. Khadka,1997 Gathers stories by Peter Matthiessen Jimmy Carter Diane Summers Broghtonoburn Meg Lukens Noonan and Jan Morris describing their adventures inepal **Great Himalaya Trail** Gerda Pauler,2013-11-07 The Great Himalaya Trail is one of the longest and highest trails in the world It is a trail that winds for 1 700 kilometres through Nepal across the roof of the world over ice covered passes crossing high mountain deserts and through some of the most remote areas on earth This path is perhaps the ultimate walk In 2012 Himalaya veteran Gerda Pauler set out to walk the length of the trail to raise awareness of autism in Nepal Travelling across the country with open eyes and ears ascending high passes visiting isolated villages and drinking tea with the locals allowed her to see and hear things many of us might never hear never experience and never know Beautifully written like many great travel books and with a foreword by Sir Chris Bonington this is so much more than a travel diary it is a collection of stories from the very heart of Nepal and its people From Tibetan tea and local beer to corrupt politicians and child marriage cold nights and monsoon rain to incredible views and searing heat and from angry yaks and giant spiders to

Mr Bean and Jack Nicholson Her book is not about her but about this trip across the roof of the world done both for her own pleasure and for those who suffer from autism Sir Chris Bonington *High Frontiers* Kenneth M. Bauer,2004 This is an ethnographic and ecological history of Dolpo a culturally Tibetan region in western Nepal Bauer describes Dolpo since the 1950s and traces how pastoralists living in the trans Himalaya have adapted to sweeping changes in their economic political and cultural circumstances *The Rough Guide to Nepal* James McConnachie,Shafik Meghji,David Reed,2012-01-01 The Rough Guide to Nepal offers an insider s guide to Nepal from its Tantric temples to its lively bars It details all the finest Himalayan treks with practical up to date and expert advice on where to go when and what to take It covers all the National Parks offering advice and information on everything from tracking wildlife to hiring elephants Dedicated chapters are devoted to mountain biking white water rafting and other adventure sports and there is unrivaled detail on Buddhism Hinduism and the numerous ethnic groups that make Nepal a unique destination The Rough Guide to Nepal also contains scores of detailed maps covering everything from Pokhara and the Chitwan National Park to the Everest Base Camp trek Make the most of your time with The Rough Guide to Nepal **Nepal** United States. Department of State,1984
