#### **Stonyground The Making Of A Canadian Garden:**

Stony Ground Douglas Chambers, 1996 Stonyground is the book for all true lovers of gardens Douglas Chambers chronicles the trials and triumphs of his ten year and on going labour of love to turn his family s 150 year old farm into a celebration of garden history and design a labour that created remarkable vegetable and herb gardens the multi hued Great garden a profusion of roses the linden hedge on sticks trees and shrubs to offset the driving northern winds and much more This unique gardening book is a treasury for all types of gardeners and will enthral readers to the last page **Spirituality of Gardening** Donna Sinclair, 2005 This is a celebration of the beauty of our gardens and of the deep lessons and meanings they whisper to us as we spend time with them For Sinclair gardening is about much more than planting bulbs and thinning perennials it is about more than weeding beds and maintaining walkways more than sculpting shrubs and trimming trees though it can involve all of these things Gardening is a deeply spiritual experience and practice Like all spiritual practice it is ultimately about connection It is about balance and harmony about memory and hope about healing and acceptance and even in this increasingly paved over world about revolution Lavishly illustrated with stunning full colour photographs Sinclair's expansive and beautifully crafted vision honours the blessings of sunlight earth water and air found in our own gardens and in so doing awakens us to a deep love and compassion for planet earth the original garden paradise a precious gift from the source of all love and beauty Gardens Merilyn Simonds, 2009-07-01 Writers have long found relaxation and inspiration in gardening often discussing their efforts in eloquent essays that seem to capture the very scent of the earth This anthology brings together the best gardening essays from around the world and across the centuries Highlights in this rich satisfying collection include medieval herbalist John Gerard extolling the virtues of the potato Czech playwright Karel Capek's celebrating the winter garden Catherine Parr Traill's 1855 gardening tips and a reminiscence of Thomas Hardy by his gardener Bertie Stephens A History of Canadian Gardening Carol Martin, 2000 The story of what gardens and gardening have meant to Canadians over the centuries has until now been unavailable in one volume A History of Canadian Gardeningtells that story in words and stunning historical images Beginning with the extensive cornfields tended by the Huron before the Europeans arrived it describes more than 400 years of gardening in Canada including the adventures of early botanical explorers the Hudson's Bay Company's attempts to grow vegetables in the north the difficulties faced by pioneer gardeners the City Beautiful Movement at the turn of the twentieth century early school gardens and garden clubs botanical gardens across the country the back to the land movement of the 1970s the recent interest in heritage seeds and the current passion for everything to do with gardens The Afterlife of Gardens John Dixon Hunt, 2013-12-15 Most books on the history of gardens describe the way that gardens have been created by contrast The Afterlife of Gardens examines the way that gardens have been experienced Using examples from many sites around the world John Dixon Hunt examines responses to gardens from Renaissance sites to Baroque creations to modern motorway landscaping Examining

how a garden has been experienced extends its history beyond the physical into cultural terms and the author describes how this afterlife of gardens as they are understood and experienced by many generations is often redesigned in visitors imaginative and cultural responses The author looks at many aspects of the subject including the enigmatic Hypnerotomachia Polifili of 1499 part fictional narrative and part scholarly treatise this fascinating early narrative of garden reception paves the way for an exploration of subsequent landscapes and their reception in later periods He also looks at Italian Renaissance gardens the Picturesque the architectural and inscriptional elements of gardens the ways experiences of gardens have been recorded and the different kinds of movement within gardens from the strolling pedestrian to the motorway traveller who experiences landscapes at speed In this ambitious new book the author shows how the complete history of a garden must extend beyond the moment of its design and the aims of the designer to record its subsequent reception He raises questions about the preservation of historical sites and provides lessons for the contemporary designer who may perhaps be more attentive to the life of a work after its design and implementation This book will interest all who have a professional interest in gardens as well as the wide general audience for gardens and landscapes of past and present
