## **Stop Motion Puppet Sculpting A Manual Of Foam Injection Build Up And Finishing Techniques:**

**Stop-Motion Puppet Sculpting** Tom Brierton, 2015-01-27 Stop motion puppet animation is one of the most unusual and demanding art forms in the world. It uses a variety of skills including design, sculpting, metal work, mold making, and casting, taxidermy, filmmaking, storytelling, and acting, and can be seen in the simplest commercial spots on television to more complex animated shorts and science fiction and fantasy feature films. This work explains research and design of puppets and details the fabrication of stop motion puppets around a metal armature skeleton using the build up and foam injection processes. The former technique uses pre-cut blocks of foam formed with a pair of scissors or other instrument into the shape desired and attaching them to the armature. In the latter technique, the character is sculpted in clay over the armature. This clay sculpture is then replaced with foam by using a plaster mold and injection gun techniques. Finishing techniques described include the making of hair, eyes, eyelids, teeth, horns, nails, and chitinous insect shell-like surfaces. The manual also covers the process of creating replacement heads using rubber molds such as RTV and urethane castings. A glossary and bibliography complete the extensively illustrated work.

*Stop-Motion Filming and Performance* Tom Brierton, 2015-01-27 Stop motion animation has long been perceived as a technical practice rather than a creative, demanding art. Though stop motion requires considerable technical knowledge, it also involves aesthetics and artistry that go beyond the technician's realm. Just as important as puppet mechanics are lighting, filters, lenses, camera angle and placement, and dramatic pose and movement. This manual is a complete guide to the aesthetics of stop motion animation. Information is organized in an intuitive, easy-to-use structure following the order an animator uses in setting up and then executing a scene. The first half concentrates on the aesthetics of lighting and cameras, a primary concern in any shot, with details of camera placement, various lenses, and myriad lighting techniques. The second half deals with the process of performance art, an oft-overlooked aspect of stop motion animation. Included is a commentary on body language, facial expression, gesture, movement, and emotion, key concepts that are exemplified through the acting process. The work also offers an introduction to narrative form and a glossary of related terms.

**Dinosaur Sculpting** Allen A. Debus, Bob Morales, Diane E. Debus, 2013-08-28 This new book greatly expanded from the 1995 first edition describes detailed step-by-step procedures for sculpting, molding, and painting original prehistoric animals. It emphasizes the use of relatively inexpensive materials including oven-hardening polymer clay and wire. Additional tips are offered on how to build distinctive dino dioramas and scenes involving one's own original sculptures that you will learn how to conceive and build. This book will appeal to a new generation who would like to break into the industry of paleosculpture. Techniques range from basic to advanced. The authors also discuss what it means to be a paleoartist.

[Beyond Books](#) Jenn Carson, 2022-10-28 *Beyond Books* Adult Library Programs for a New Era takes us out of the stacks and past the traditional walls of the library to reach underserved and overworked adults in our communities, adults who might not think they need the library in their lives. Readers are introduced to the concept of adult programming through a multifaceted approach based on

a solid foundation of behavioral science real life library experience and data on current trends in libraries and other institutions This book posits that offering diverse adult programs is an important catalyst for fostering community connection and individual wellness and that no librarian needs to deliver them alone Partnerships are not only helpful they are essential to preventing librarian burnout Themes of the book center on passive versus active programs the importance of intergenerational involvement and programs that touch a variety of topics divided by the following sections Food Drink Arts Crafts Books Writing Technology Media Health Wellness Business Finance and Nature Gardening This book provides clear step by step models and strategies for delivering adult programs both in person and online including where to find funding getting administrative and municipal buy in creating partnerships in the community addressing possible legal issues marketing tactics training staff and volunteers and how to evaluate programs Whether you re a student a brand new recruit or a seasoned public or academic librarian there will be something in this book to inspire you to move your adult library programs beyond book clubs without losing those too

**The Art of Stop-motion Animation** Ken A. Priebe,2007 Through the magic of stop motion animation inanimate objects seem to spring to life With true artistic passion and finesse a stop motion film evokes the nostalgia of childhood when imagination could bring toys to life Stop motion retains the art and performance that are the heart and soul of captivating animation Beginning with a history of stop motion animation The Art of Stop Motion Animation takes you on a unique journey uncovering the origins of this art form and examining what continues to draw viewers to these films Through several hands on exercises you ll learn how to create puppets and how to bring them to life as you create your own stop motion film Interviews with industry professionals offer a fascinating behind the scenes look into the undying art form of stop motion animation
