Daughters of Disaster Amanda L. Rautio, 2016-02-18. Seventeen-year-old Lucas Duff has absolutely nothing. To the rest of the world, he is the bad boy and a lost cause with a fatal case of apathy. His whole family is dead. His definition of love is closer to lust; his heart was broken and repairing it took too much effort when he knew it would just get smashed like it had previously. Desperate to feel something, he grasps at anything that offers even the slightest hint of reprieve from his boredom. With nowhere else to go, his options are limited, and now he's trapped in Seattle's most feared gang. Seattle's Eyes Stripped of his humanity, he becomes inextricably entangled in a trap of obligations, blackmail, and violence from which there is seemingly no escape. He's convinced that things are at an all-time low and with nothing left to lose, Lucas will bring the gang down once and for all. But whom can he trust? Children of the Sun John Slade, 2002-09. A novel set on St. Croix in the U.S. Virgin Islands about love between people touched by war and threatened by a nuclear accident. This novel is about war in the twentieth century at the end of a long millennium of war. May we demand and build a better peace? This novel is about the conflict between black people and white people in America four centuries after the first Dutch vessel emptied its cargo of African slaves onto a beach in Virginia. This novel is about four victims of war: a midwife who has been emotionally battered, a soldier who has been emotionally bludgeoned, a petrochemical engineer who seeks ways not to exist, and a Polish refugee from Hitler's war whose twig-thin fingers carve voluptuous sculptures in West Indian mahogany. This novel, like it or not, is about us.

When Trucks Stop Running A.J. Friedemann, 2015-12-09. In lively and engaging language, this book describes our dependence on freight transport and its vulnerability to diminishing supplies and high prices of oil. Ships, trucks, and trains are the backbone of civilization, hauling the goods that fulfill our every need and desire. Their powerful, highly efficient diesel combustion engines are exquisitely fine-tuned to burn petroleum-based diesel fuel. These engines and the fuels that fire them have been among the most transformative yet disruptive technologies on the planet. Although this transportation revolution has allowed many of us to fill our homes with global goods, even a past emperor would envy our era of abundance, and the freight transport system in particular is predicated on the affordability and high energy density of a single fuel: oil. This book explores alternatives to this finite resource, including other liquid fuels, truck and locomotive batteries, and utility-scale energy storage technology and various forms of renewable electricity to support electrified transport. Transportation also must adapt to other challenges: threats from climate change, financial busts,

supply chain failure and transportation infrastructure decay Robert Hirsch who wrote the Peaking of World Oil Production report for the U S Department of Energy in 2005 said that planning for peak world production must start at least 10 if not 20 years ahead of time What little planning exists focuses mainly on how to accommodate 30 percent more economic growth while averting climate change ignoring the possibility that we are at or near the end of growth Taken for granted the modern transportation system will not endure forever The time is now to take a realistic and critical look at the choices ahead and how the future of transportation may unfold The Gospels of Edward Stephen Oram,2020-06-15 Some of the deadliest weather phenomena ever recorded due to human induced climate change plague earth Diseases once thought to be eradicated suddenly resurface Greed causes economic pillars to crumble resulting in global unemployment Disobedience to God s gospels obliterates wholesome values Religious zealots around the world are proclaiming the end is near They predict that Jesus Christ s second coming is imminent With one evil exception no one knows that Jesus has been among them again for forty years Julius Coventon a black pastor in a small northern California city struggles with his failing ministry He contemplates leaving the church as his faith in God is fading To offset his misery he takes up with a sexy jazz singer Susan Quicky Pearl All the while and at his request he does not know that he is the son of God Satan however senses Jesus s presence He locks on to that unmistakable beacon of holiness As the evil one plots Jesus s demise an elegant couple helps to restore the pastor s faith God becomes annoyed with the blatant misrepresentation of his word as well as unhappy with the abandonment of his teachings God summons his son home while he considers cleansing the earth Julius learns the whole truth Father and son debate the outcome of humanity Julius wins one last attempt at leading the people back to God Julius is warned by the holy father that this time if he should meet the same fate as before he will not be resurrected When Julius returns to earth he and the evil one wage a spiritual tug of war with the people of earth The final showdown on a freeway shoulder may spell doom for the earth as well as Jesus again **Skinny Boy** Gary A. Grahl,2007 A licensed professional counselor shares how he conquered his out of control compulsion to exercise and starve himself which led to multiple hospitalizations and how he overcame a shaming inner voice which he calls IT that convinced him to become thinner
