Will Somebody Please Stand Up and Tell My People THE TRUTH Sammie Madison,2019-12-17 Since the death of Martin Luther King Jr it seems that we as black Americans have lost our way we as did the Hebrew Israelites have been wandering in the wilderness of sin and debauchery for forty plus years and have not been able to enter into the Promised Land We have followed blind guides who have led us wandering in the wilderness We have followed self proclaimed black leaders whose leadership have been marred by deception dishonesty egotism and a lack of integrity For several years now I have wrestled and agonized with the disturbing notion Will somebody please stand up and tell my people the truth We have sabotaged our own selves and are losing the race thusly we have been detoured from entering the Promised Land Sammie L Madison

Mendel'S Garden Revisited David J. Holcombe,2018-08-02 Mendels Garden Revisited is a collection of medical essays spanning several years Topics range from child abuse to prostate cancer mosquito borne diseases and the tragedy of direct to consumer marketing While most are straightforward descriptions of current medical conditions of interest many explore the complex relationship of social determinants and health outcomes Medical topics become outdated almost before they are printed These articles are no exception Although there has been a sincere attempt to report the most current data that information changes almost daily At best this collection is a snapshot in time perhaps more of interest to sociologists and historians than to doctors or medical students Written for the lay public it remains accessible to any reader

The Information Please Kids Almanac Alice Siegel,Margo McLoone,1992 Fifteen chapters of science history and social studies material presented in a combination of core knowledge and facts

Public Health Onstage David J. Holcombe M.D.,2017-03-07 Public Health Onstage represents an attempt to combine two visions of public healththe scientific and the artistic Each one of the short essays deals with some

aspect of public health including human papillomavirus vaccination medication marketing safe sleep malpractice sexual assault opioid abuse and many more Paired with each scientific essay are one or more original short plays that delve into the same or similar subject matter while exploiting its dramatic potential Dr David Holcombe has taken many of the plays from previous publications including *Beauty and the Botox* *Old South* *New South* *No South* *Chateau in Hessmer* and *Why Go All the Way to Fulton Louisiana* Some of the medical essays have been extracted from his previously published *Mendels Garden Selected Medical Topics* Most of these medical essays have already appeared in *Cenla Focus* a regional publication in Central Louisiana or *Visible Horizon* another regional publication by the Council on Aging Some essays and plays have never been previously published Combining the scientific and the artistic can be fraught with peril Their hoped for synergy can dissolve into nonsense or worse yet alienate the reader who becomes completely unreceptive My hope is that this volume will break new ground in both public health and theater and appeal to the most discriminating critics Many famous authors have tackled complex social and medical issues in the past notably Henrik Ibsen and George Bernard Shaw Physicians have also distinguished themselves as playwrights while steering clear of medical topics entirely such as Dr Anton Chekhov But this volume hopes to put the medical and theatrical together for the edification and entertainment of the reader and the potential viewer Scientific readers may gain a new appreciation for the persuasive power of the stage and theater lovers may acquire some unexpected medical information
