Storia Dell Urbanistica Il Settecento:

Storia dell'urbanistica Paolo Sica,1976 *CITTÀ D'EUROPA E CULTURA URBANISTICA NEL MEZZOGIORNO*
BORBONICO Raffaele Ruggiero,2018-11-05 English After centuries of submission to the foreign rulers between the eighteenth and the nineteenth century the South of Italy took a leading role in the European political landscape on one hand absorbing in its culture the huge heritage of values and knowledge of those civilizations on the other hand appealing to its own scientists intellectuals and technicians fervid minds to achieve relevant international goals in the field of the public and urbanistic works Kings such as Charles of Bourbon and Ferdinand II were the main promoters of this ransom and of the achieved primacies Rummaging through the iconographic documents passed on their desks nowadays rearranged in the Neapolitan National library Palatine collection and consulting the volumes of the Royal library it turns out a great turmoil of ideas and projects but also the confirmation of the large amount of potentialities unfortunately not completely expressed by the Neapolitan State it occurred it should be said not only as a consequence of the end of the kingdom but also as a result of the specific political responsibility of that dynasty Unfortunately Italy s unification didn t enhance the heritage of these experiences nor it rectified the structural inadequacies of the former regime on the contrary the new State often contributed to increase them stifling a socio economic promise of development still today unrealized Italiano Dopo secoli di sottomissione alle potenze straniere tra Sette e Ottocento il Mezzogiorno d Italia assunse un ruolo di grande prestigio nel panorama europeo da un lato introiettando nella propria cultura il cospicuo patrimonio di valori e conoscenze di quelle civiltà dall altro facendo leva sulle fervide menti dei propri scienziati intellettuali e tecnici per raggiungere traguardi di assoluto rilievo internazionale nel campo delle opere pubbliche e dell urbanistica Sovrani come Carlo di Borbone e Ferdinando II furono i principali promotori di questo riscatto e dei primati conseguiti Frugando tra i documenti iconografici transitati sulla loro scrivania oggi riordinati nella raccolta Palatina della Biblioteca Nazionale di Napoli e interrogando i volumi della Biblioteca Reale si scopre un ricco fermento di idee e di progettualità ma anche la conferma del ricco quadro delle potenzialità purtroppo non pienamente espresse dallo Stato napoletano ci va detto non soltanto a seguito della fine del Regno ma anche per le precise responsabilità politiche di quella dinastia Purtroppo con l Unità d Italia tale patrimonio di esperienze non fu valorizzato né corrette le deficienze strutturali del passato regime anzi il nuovo Stato contribuì sovente ad amplificarle soffocando una promessa di sviluppo socio economico che resta ancor oggi inattuata *Storia dell'urbanistica* Paolo Sica,1981 **Antonio Canova and the Politics of Patronage in Revolutionary and Napoleonic Europe** Christopher M. S. Johns,2023-11-15 The Venetian sculptor Antonio Canova 1757-1822 was Europe s most celebrated artist from the end of the ancien régime to the early years of the Restoration an era when the traditional relationship between patrons and artists changed drastically Christopher M S Johns s refreshingly original study explores a neglected facet of Canova s career the effects of patrons patronage and politics on his choice of subjects and manner of working While other artists produced art in the service of the

state Canova resisted the blandishments of the political powers that commissioned his works. Johns uses letters, diaries, and biographies to establish a political personality for Canova as an individual and an artist of international reputation. Though he had patrons as diverse as the pope, Napoleon, the Austrian Hapsburgs, the Prince Regent of Great Britain, and the Republic of Venice, Canova remained steadily employed and did so without controversy. A conservative and a Catholic, he devised a strategy that enabled him to work for patrons who were avowed enemies while remaining true to the cultural and artistic heritage of his Italian homeland. Using myth and funerary images and avoiding portraiture, he disguised the meanings behind his works and thus avoided their being identified with any political purpose. Johns greatly enhances our understanding of Canova's place in European art and political history and, in showing the influence of censorship, displays visual narrative and propaganda. He highlights issues as contentious today as they were in Canova's time.

The Venetian sculptor Antonio Canova (1757-1822) was Europe's most celebrated artist from the end of the ancien régime to the early years of the Restoration, an era when the traditional relationship between patrons and artists changed drastically. Christo

Rome: Continuing Encounters between Past and Present Dorigen Caldwell, 2016-12-05 Few other cities can compare with Rome's history of continuous habitation nor with the survival of so many different epochs in its present. This volume explores how the city's past has shaped the way in which Rome has been built, rebuilt, represented, and imagined throughout its history. Bringing together scholars from the disciplines of architectural history, urban studies, art history, archaeology, and film studies, this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured itself from the medieval period to the present day. Moving from material appropriations such as spolia in the medieval period through the cartographic representations of the city in the early modern period to filmic representation in the twentieth century, we encounter very different ways of making sense of the past across Rome's historical spectrum. The broad chronological arrangement of the chapters and the choice of themes and urban locations examined in each allows the reader to draw comparisons between historical periods. An imaginative approach to the study of the urban and architectural make-up of Rome, this volume will be valuable not only for historians of art and architecture but also for students of cultural history and film studies.

Teorie urbanistiche della città tradizionale Rosario Pavia, 1994 *Asmara - an urban history* Belula

Tecle-Misghina, 2015-02-11 Like any city Asmara a young city even by the standards of young African capitals is a stage set where the drama of history has unfolded in the most intense and eloquent manner The territory of Asmara stands at the edge of a space of almost mythical civilisations ancient religions and proud empires It is also a natural acropolis in the vastness of Africa an astoundingly high crest that looks down from above on the coast of the Eritrean sea coming to a halt where the Afar Rift expands and year after year rips into the heart of Africa where lions and gnus still roam free However in its body and

thus in its history Asmara is also a fragment of Europe imported atop the undulating highlands of Hamasien by the presumption of the most fragile and thus most presumptuous of colonial nations Italy Less than 130 years later history appears to have intentionally concentrated a host of events projects interests delusions conflicts and hopes in Asmara that within the vaster expanses of historical time could have filled dozens of centuries These metamorphoses were similar to immense waves lapping at a resistant soil introducing and withdrawing diverse foreign armies peoples languages and cultures and adversities The results of so much labour have forged the identity of Eritrea jealously defended for decades and jealously guarded to this day Looking carefully in libraries among printed works dedicated to particular aspects of this identity numerous and some very important it is impossible to find a history of Eritrea that is scientifically complete and up to date This is a serious shortcoming Yet everything has remained impressed upon the land and even more eloquently on the city on the face and limbs of Asmara Hence the reconstruction like that made by the author of this book of the difficult process of planning the city signifies not only restoring similar to an animation the history of the complex growth of an urban organism Lucio Valerio Barbera UNESCO Chairholder in Sustainable Urban Quality and Urban Culture notably in Africa Sapienza Universit di Roma At the end of the Thirties from Naples to Massawa the Port of Empire since 1890 an important commercial base and natural access point for anyone wishing to reach Asmara and the Eritrean uplands the voyage took five days from the port one could reach the capital of the Colony by train on an intrepid mountain rail way or by a motor road Road n 1 from Dogali Asmara was only 120 km away If one wanted to make the journey by air it took three and a half days thanks to the Empire Line which involved taking a seaplane from the Carlo Del Prete base in Ostia to Benghazi in Libya and then a plane to the Umberto Maddalena Airport in Asmara with stops at Cairo Wadi Haifa Khartoum and C ssala on the Sudanese border And right next door to the Airport stood the Teleferica Massawa Asmara an extraordinary cableway for transporting goods up on to the plateau at a height difference of 2 326 metres the cableway had been built in two years between 1935 and 1937 and at a length of 75 km was the longest industrial cableway system in the world It could move in one day the equivalent of thirty train loads but it was at its full operational capacity for only a few years in 1941 it was damaged in the war with the British and ten years later when Eritrea became a British Protectorate it was unexpectedly decided to dismantle it capital of the new country These events act as a backdrop and form a solid framework for Teclé Misghina's research which is not only meticulous but emotionally involved of which this book is a well documented summary Her research is important in that it reconfigures and puts in order various documents both known and unpublished in order to build up a chronology and an armoury of references that are indispensable for anyone wishing to carry out further studies on the Eritrean capital For a project developed within a Doctoral programme this is in my opinion the most important outcome of her research Piero Ostilio Rossi Director of the Department of Architecture and Design Sapienza Universit di Roma Luigi Vanvitelli.
