**The Best Books: Class A, Theology. B, Mythology and folklore. C, Philosophy. 1910** William Swan Sonnenschein, 1910      **San Representation**

Keyan Tomaselli, Michael Wessels, 2017-12-22 The San or Bushmen of southern Africa have exerted a fascination over generations of writers and scholars, from novelists and anarchists to ethnologists and geneticists, and also occupy a special place in the popular imagination as the First People and the contemporary remnant of spiritual and natural man. The ways in which particular groups of people from southern Africa have been traditionally categorised and positioned as objects of scrutiny by a range of academic disciplines is increasingly being contested and questioned. There is a growing awareness of the cultural, economic, and genetic entanglement of the peoples of the region. This book examines how San and Khoe people are represented by others, as well as by those who identify as San or Khoe. The book interrogates the ways in which disciplines, through their methodologies and ways of authorising knowledge, not only discover or reveal knowledge but produce it in ways that involve complex and often ambiguous relationships with power structures and forms of intellectual, symbolic, and cultural capital. One major trend that emerges is that the San and Khoe can no longer be seen as people of the

past but have to be acknowledged as contemporary and socially situated individuals and communities who are increasingly contesting the representations which others have imposed on them This book was originally published as a special issue of Critical Arts A Journal of South North Cultural and Media Studies
