Moving from Growth to Asset-Based Mindsets Linsay DeMartino, Lisa Fetman, 2025-07-30 Promoting a growth mindset in PreK 12 schools is a valuable educational trend based on the idea that students who believe they can grow and improve will succeed more easily However when students struggle academically there s often an undergirded assumption that they and sometimes their families are not trying hard enough or they just need to fit into a standardized mold This deficit thinking places blame on students perceived limitations and can lead to lower expectations or biases toward students who come from diversified backgrounds encompassing ability socioeconomic status race language gender or culture As an alternative approach this book promotes the universal adoption of Asset Based Practices ABPs ABPs encourage educators to see and honor the strengths in each student s identity ABPs shift our focus to the assets that students and families bring into the classroom viewing differences as resources rather than obstacles This means recognizing and building on students cultural linguistic and community based knowledge to make learning richer and more inclusive for everyone Implementing an asset based approach can transform our classrooms Research shows that students perform better and feel more motivated when they re recognized and valued for who they are Bringing students lived experiences into the curriculum can help them develop positive identities and a stronger sense of belonging which boosts their academic and social growth Instead of focusing on fixing students ABPs ask us to adapt our teaching to connect with students cultural backgrounds and experiences coupled with recognizing the wealth of knowledge that students bring from their families and communities Switching to an asset based approach helps us move away from simply encouraging perseverance or grit in students Instead it invites us to take responsibility for creating an environment where every student feels they belong and can succeed With ABPs we re able to create more inclusive and affirming classrooms for all students where their identities are seen as strengths not obstacles and where their cultural linguistic and community knowledge is a foundation for learning Innovative and creative methodologies and practices that aspiring and practicing educators can use right away are the primary focus of this book Because the editors and contributors are former or current PreK 12 practitioners and many are also educational scholars this book is written for a broad educational audience Moving from Growth to Asset Based Mindsets is for both preservice and practicing teachers across PreK 12 grade levels school types and geographic regions looking to improve their practice To accomplish this the editors and contributors provide entry points for transforming the educational landscape in favor of liberatory asset based practices in PreK 12 schools Additionally this book is ideal for teacher and administrator preparation programs as well as PreK 12 professional development because it guides readers through theoretical and empirical discussions supported by hands on applications that enable real time application and concludes with interactive features like case studies extension activities and discussion prompts Perfect for courses such as Introduction to Educating For Equity And Social Justice Introduction to Cultivating Culturally Responsive Classrooms Foundations of Classroom Management

 across the world know that to tell how old a tree is you count its rings Few people however know that research into tree rings
 has also made amazing contributions to our understanding of Earth s climate history and its influences on human civilization
 over the past 2 000 years In her captivating book Tree Story Valerie Trouet reveals how the seemingly simple and relatively
 familiar concept of counting tree rings has inspired far reaching scientific breakthroughs that illuminate the complex
 interactions between nature and people Trouet a leading tree ring scientist takes us out into the field from remote African
 villages to radioactive Russian forests offering readers an insider s look at tree ring research a discipline known as
 dendrochronology Tracing her own professional journey while exploring dendrochronology s history and applications Trouet
 describes the basics of how tell tale tree cores are collected and dated with ring by ring precision explaining the unexpected
 and momentous insights we ve gained from the resulting samples Blending popular science travelogue and cultural history
 Tree Story highlights exciting findings of tree ring research including the fate of lost pirate treasure successful strategies for
 surviving California wildfire the secret to Genghis Khan s victories the connection between Egyptian pharaohs and volcanoes
 and even the role of olives in the fall of Rome These fascinating tales are deftly woven together to show us how
 dendrochronology sheds light on global climate dynamics and uncovers the clear links between humans and our leafy
 neighbors Trouet delights us with her dedication to the tangible appeal of studying trees a discipline that has taken her to
 austere and beautiful landscapes around the globe and has enabled scientists to solve long pondered mysteries of Earth and
 its human inhabitants **The Big Christmas Basket: 200+ Christmas Novels, Stories, Poems & Carols (Illustrated)**

Early modern India was an economic core region producing manifold textiles for export During the sixteenth century a new customer entered the stage and expanded its influence from the city of Goa Portugal From early times the Portuguese had bought and commissioned textiles among them large embroideries from Bengal and Gujarat which are the focus of this study By providing European prints as models for the professional local embroiderers they created a novel product that was

successful in Portugal and beyond throughout the seventeenth century The textiles were deemed valuable and rare enough to be included in different travel accounts letters and inventories enabling us to trace their place of production their transportation to Europe and their reception Their intricate iconographies reflect political problematics of the time and shed light onto the intercultural circumstances of Portuguese colonial life Barbara Karl is Curator of Textiles and Carpets at the MAK Museum f r Angewandte Kunst Gegenwartskunst in Vienna
